## Fiscal Estimate Narratives

DOA 1/8/2024

LRB Number	23-5338/1	Introduction Number	SB-0831	Estimate Type	Original
<b>Description</b> information technology accessibility standards and granting rule-making authority					

### Assumptions Used in Arriving at Fiscal Estimate

Senate Bill 831 (SB-831) proposes to require the Department of Administration (Department) to promulgate rules establishing state agency information technology accessibility standards for individuals with disabilities consistent with the most recent web content accessibility guidelines published by the World Wide Web Consortium Web Accessibility Initiative or its successor. Additionally, the bill directs that the information technology accessibility standards established by the Department be applied to all websites of the Legislature and the Courts.

The Department currently provides management of the state's information technology (IT) assets and the use of technology to improve government efficiency and service delivery as prescribed under s. 16.971(2)(a), Wis. Stats. Funding for these existing information technology support service operations is appropriated under s. 20.505 (1) (kL), Wis. Stats., Printing, mail, communication, document sales, and information technology services; state agencies; veterans services, Appropriation Numeric 126.

The direction under SB-831 to promulgate rules for IT standards for individuals with disabilities would be conducted by existing staff within the Department, whereby the associated costs are paid for under Appropriation Numeric 126 and funded via service rates or assessment for the cost recovery of IT activities completed for customers.

The Department anticipates that the direction under SB-831 to apply the resulting standards established by the Department to the websites of the Legislature would be completed by the Legislative Technology Services Bureau (LTSB). The update to the Court's website, however, would be completed by the Department whereby the associated costs are paid for under Appropriation Numeric 126, and funded service rates for the cost recovery of IT activities charged to the Courts. While the actual cost of policy and rule development to be conducted by the Department is indeterminate, it is anticipated to be absorbed by existing staffing and expenditure authority.

### Long-Range Fiscal Implications
