**Contact:** Steve McCarthy, Senior Staff Attorney

2023 Senate Bill 27

Senate Amendment 1

### 2023 SENATE BILL 27

Senate Bill 27 requires the Department of Health Services (DHS) to establish a program to award grants to persons in Wisconsin for research into spinal cord injuries. The grants must support research into new and innovative treatments and rehabilitative efforts for the functional improvement of people with spinal cord injuries. Research topics may include pharmaceutical, medical device, brain stimulus, and rehabilitative approaches and techniques. The bill also allows DHS to hold symposia every two years for grant recipients to present their research findings, and requires grant recipients to agree to present their research findings at any such symposia.

The bill also requires DHS to appoint a Spinal Cord Injury Council with specified membership, including persons representing various research facilities, a person with a spinal cord injury, a family member of a person with a spinal cord injury, a veteran with a spinal cord injury, a physician specializing in the treatment of spinal cord injuries, a neurosurgery researcher and a researcher employed by the federal Veterans Health Administration of the U.S. Department of Veterans Affairs. The council is required to develop criteria for DHS to evaluate and award grants, review and make recommendations on grant applications, and perform other duties specified by DHS. Council members must also make written disclosures of financial interests in organizations that the council recommends for grants.

Lastly, the bill provides that DHS may annually expend no more than eight percent of the amount awarded in grants for administrative or indirect costs and expenses.

### SENATE AMENDMENT 1

The amendment deletes the requirement that DHS may annually expend no more than eight percent of the amount awarded in grants for administrative or indirect costs and expenses and instead replaces it with material that provides that a **grant recipient** may annually expend no more than eight percent of the grant amount received on administrative or indirect costs and expenses.

### BILL HISTORY

Senator Wanggaard offered Senate Amendment 1 on March 14, 2023. On March 20, 2023, the Senate Committee on Health recommended adoption of the amendment on a vote of Ayes, 6; Noes, 0, and passage of the bill, as amended, on a vote of Ayes, 5; Noes, 1.
