***Analysis by the Legislative Reference Bureau******Private School Choice Program***

Under current law, the Department of Public Instruction administers the Milwaukee Parental Choice Program, the Racine Parental Choice Program, and the Wisconsin Parental Choice Program. Current law includes a pupil participation limit on the WPCP that applies through the end of the 2025-26 school year.

Under the bill, beginning in the 2026-27 school year, DPI will administer the MPCP, the RPCP, and the WPCP as a single program, to be known as the Private School Choice Program. The bill does not change the pupil eligibility requirements that exist under each of the current parental choice programs. For example, under the bill, to be eligible for the Private School Choice Program, a pupil who resides in the Racine Unified School District must meet the eligibility requirements under the RPCP: certain prior year school attendance requirements and a family income that does not exceed 300 percent of the federal poverty level. Similarly, to be eligible for the Private School Choice Program, a pupil who resides in a school district other than the Racine Unified School District or Milwaukee Public Schools must meet the eligibility requirements under the WPCP: certain prior year school attendance requirements and a family income that does not exceed 220 percent of the federal poverty level.

Under the bill, to participate in the 2025-26 school year, private schools will submit to DPI an intent to participate for the MPCP, RPCP, or WPCP. Similarly, for attendance during the 2025-26 school year, pupils will apply to attend a participating private school under the MPCP, RPCP, or WPCP. During the 2025-26 school year, DPI will transition to the Private School Choice Program created under this bill but will continue to administer the combined program as the three separate parental choice programs. Under the bill, intents to participate and pupil applications made during the 2025-26 school year for participation or attendance in the 2026-27 school year are for the Private School Choice Program.

***Other changes***

In addition to establishing the Private School Choice Program, the bill includes the following substantive changes:

1. The bill creates a reenrollment process for choice pupils who attend a participating private school on the January count date. Beginning in the 2025-26 school year, during a reenrollment period that occurs at the end of January, a participating private school must determine, for each grade it will offer in the following school year, if it will have enough choice program seats in the following school year to offer a choice program seat to each of its current choice pupils. If the participating private school has enough choice program seats for all of its current choice pupils, the participating private school must notify the parents of each current choice pupil that the pupil has been offered a choice program seat for the following

**ASSEMBLY BILL 1042**

school year and the process for the parent to accept the choice program seat. If the private school determines that it does not have enough choice program seats to offer all of its current choice pupils a choice program seat for the following school year, the private school must determine, on a random basis, which current choice pupils receive a choice program seat for the following school year. The private school must then notify the parents of each current choice pupil who does not receive a choice program seat for the following school year that the pupil has been placed on the waiting list for the following school year and notify the parents of each current choice pupil that receives a choice program seat for the following school year that the pupil is being offered a choice program seat for the following school year and the process for the parent to accept the choice program seat.

2. Beginning in the 2025-26 school year, if a participating private school offers virtual instruction, the participating private school must ensure that a teacher is responsible for various aspects of the virtual instruction and pupil learning related to that virtual instruction. These requirements mirror current law that applies to virtual charter schools. Additionally, beginning with an intent to participate in a parental choice program in the 2025-26 school year, a private school must indicate in its intent to participate whether the private school intends to offer virtual instruction and, if so, the amount and type of virtual instruction the private school intends to offer. These changes also apply to a private school participating in the Special Needs Scholarship Program.

3. Beginning in the 2025-26 school year, a participating private school must have a physical location in this state from which the private school is operated. The bill does not require that pupils receive instruction at the physical location. This change also applies to a private school participating in the SNSP.

4. Beginning in the 2025-26 school year, the bill allows individuals employed by a participating private school who hold a substitute teaching permit issued by DPI to teach at a participating private school, as allowed under the substitute teaching permit. This change also applies to teachers at a private school participating in the SNSP. Additional changes to teacher qualifications under the SNSP are discussed below.

5. The bill makes changes to the financial audit that participating private schools must submit to DPI, including the fiscal and internal practices control report. Under the bill, beginning in the 2025-26 school year, a management letter is not required.

6. For new private schools that intend to first participate in a parental choice program in the 2025-26 school year, the bill makes various changes to the initial requirements that must be satisfied during the 2024-25 school year. For example, a new private school that submits a bond to DPI must provide an updated bond under certain circumstances.

7. The bill changes various deadlines in the Private School Choice Program.

***Special Needs Scholarship Program***

The bill also makes the following changes to the SNSP:

1. Under current law, a private school may participate in the SNSP if the private school is accredited or if the private school is approved as a private school by

**ASSEMBLY BILL 1042**

the state superintendent of public instruction. Beginning in the 2025-26 school year, a private school must be accredited to participate in the SNSP. The bill provides exceptions for private schools that participated in the SNSP before the 2025-26 school year. Under the bill, DPI may bar a private school from participating in the SNSP for failing to comply with the accreditation requirements created in the bill.

2. The bill makes various changes to the financial audit that private schools participating in the SNSP must submit to DPI, including the fiscal and internal control practices report. Under the bill, the financial audit requirements are the same under the SNSP and the Private School Choice Program.

3. Beginning in the 2025-26 school year, teachers and administrators at a private school participating in the SNSP are subject to the same requirements that apply to teachers and administrators at a private school participating in the Private School Choice Program. In general, the private school must ensure that a teacher has a teaching license issued by DPI or a bachelor's degree or higher, including a master's or doctorate, from an accredited institution of higher education, and that an administrator has a teaching or administrator license issued by DPI or at least a bachelor's degree from an accredited institution of higher education. The bill creates a waiver process for a teacher who has taught for at least the five consecutive years immediately preceding July 1, 2025, but does not satisfy the teacher requirements created in the bill. The bill also requires that, beginning in the 2025-26 school year, a teacher's aide at a private school participating in the SNSP has at least a high school diploma, declaration of equivalency of high school graduation, or general educational development certificate of high school equivalency.

4. Beginning in the 2025-26 school year, a private school participating in the SNSP must allow a child attending the private school under the SNSP to opt out of participating in any religious activity if the child's parent submits a written request to the child's teacher or the private school's principal.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.
