Analysis by the Legislative Reference Bureau***Engrossment information:***

The text of Engrossed 2023 Assembly Bill 245, as passed by the assembly on May 17, 2023, consists of the following documents adopted in the assembly on May 17, 2023: the bill as affected by Assembly Amendment 2 (as affected by chief clerk's correction). The text includes the May 16, 2023, chief clerk's correction to Assembly Bill 245.

ENGROSSED ASSEMBLY BILL 245***Content of Engrossed 2023 Assembly Bill 245:***

This bill modifies shared revenue programs, addresses the retirement systems of the City of Milwaukee and Milwaukee County, eliminates the personal property tax, and contains various other provisions described in further detail below.

SHARED REVENUE

Under current law, each county and municipality annually receives county and municipal aid payments. With certain exceptions, each county and municipality receives a county and municipal aid payment equal to the amount of the payment the county or municipality received in 2012. In addition, under current law, a municipality is eligible to receive an annual expenditure restraint payment if its property tax levy is greater than five mills and if the annual increase in its municipal budget is less than the sum of factors based on inflation and the increased value of property in the municipality as a result of new construction. Generally, the amount appropriated for the expenditure restraint program has not changed since 2003. In addition, current law provides state aid payments to counties and municipalities to compensate for certain property tax exemptions and for public utilities located in the county or municipality. Finally, current law provides state aid payments to municipalities that provide municipal services to state facilities.

The bill creates a trust fund designated as the local government fund. In 2024, counties and municipalities will receive a county and municipal aid payment equal to the amount of the payment received by the county or municipality in 2012. In subsequent years, a county or municipality will receive a county and municipal aid payment equal to the amount credited to the county and municipal aid account of the local government fund multiplied by the proportion of the total of county and municipal aid payments that the county or municipality received in 2024.

Also, beginning in 2024, the bill provides supplemental aid to counties and to cities, villages, and towns. The bill specifies separate formulas for distributing this supplemental county and municipal aid in 2024 for counties and municipalities. Under the bill, each municipality receives a supplemental county and municipal aid payment equal to at least 15 percent of municipality's county and municipal aid payment. In subsequent years, a county or municipality will receive a supplemental county and municipal aid payment equal to the amount credited to the supplemental county and municipal aid account of the local government fund multiplied by the proportion of the total of supplemental county and municipal aid payments that the county or municipality received in 2024. The supplemental county and municipal aid may be used only for law enforcement, fire protection, emergency medical services, emergency response communications, public works, and transportation.

Under the bill, grants received from the state or from the federal government for the purpose of providing law enforcement, fire protection, and emergency medical services are excluded from being considered in determining eligibility for an expenditure restraint program payment. Under current law, a municipality is eligible to receive an expenditure restraint program payment if its property tax levy is greater than five mills and if the annual increase in its municipal budget, subject to certain exceptions, is less than the sum of factors based on inflation and the increased value of property in the municipality as a result of new construction.

ENGROSSED ASSEMBLY BILL 245

The bill also creates a program to provide innovation grants to counties and municipalities that apply for such grants. The innovation grants are awarded to counties and municipalities that submit an innovation plan to transfer certain county or municipal services to a county, municipality, nonprofit organization, or private entity, and to be approved, a plan must realize a projected savings of at least 10 percent of the total cost of providing the service. The bill specifies that transfers of the following services or duties are eligible for receiving an innovation grant: public safety, fire protection, emergency services, courts, jails, training, communications, information technology, administration, public works, economic development, tourism, public health, housing, planning, zoning, parks, and recreation. To be awarded a grant under the bill, a county or municipality must enter into an agreement or contract to transfer services or duties to a county, municipality, nonprofit organization, or private entity, and the agreement or contract must 1) specify the services or duties to be transferred; 2) transfer those services or duties for a minimum period of time specified in the bill; 3) indicate the cost of performing those services or duties in the year immediately preceding the transfer; and 4) specify the cost of performing those services or duties for the entire term of the agreement or contract. Innovation grant payments may be made beginning in the fiscal year after the Department of Revenue promulgates rules to administer the program and the two following fiscal years. DOR must annually submit a report to the Joint Committee on Finance concerning all grants awarded and must audit 10 percent of the grants awarded. Municipalities with a population of 5,000 or less may apply for a separate innovation planning grant to use only for staffing and consultant expenses for planning the transfer of local government services.

The bill also makes the following changes regarding payments to local governments:

1. Requires the Department of Administration to make aid payments to taxing jurisdictions to compensate them for the loss of property tax revenue due to the repeal of the remaining personal property tax, discussed in further detail below. Under current law, DOA makes payments to taxing jurisdictions for certain personal property that is exempt from local property taxes to compensate them for the corresponding loss of property tax revenue.

2. Eliminates grants made to local government units through the Medical Assistance program for providing transportation for medical care.

MILWAUKEE CITY AND COUNTY RETIREMENT SYSTEMS

The bill authorizes a first class city and a county in which a first class city is located to impose sales and use taxes, the revenue from which must be used to pay the unfunded actuarial accrued liability of the city and county retirement systems and to increase public safety services. The bill also requires newly hired employees of a city, city agency, or county, including former employees who were not active employees of a city, city agency, or county on December 31 of the year the city or county adopts a special sales tax, if the city or county imposes the taxes, to be enrolled in the Wisconsin Retirement System, closes the Employees' Retirement System of the City of Milwaukee and the Milwaukee County Employees' Retirement System to new employees, prohibits the city or county from creating a new retirement system, and

ENGROSSED ASSEMBLY BILL 245

prohibits the city or county from enhancing or increasing the benefits of employees who remain enrolled in the two systems except as required to comply with federal law, or collectively bargaining over the terms of the city or county retirement systems for public safety employees who remain enrolled in the two systems.

The bill also makes several changes to the statutes governing the fire and police commission (FPC) of a first class city, presently only the City of Milwaukee.

Sales and use tax

Under current law, a county may impose a sales and use tax at the rate of 0.5 percent of the sales price of tangible personal property, goods, and services sold or used in the county. The tax may be imposed only for the purpose of reducing the property tax levy.

Under the bill, a county in which a first class city is located (currently, Milwaukee County) may impose an additional sales and use tax at a rate not exceeding 0.375 percent of the sales price of tangible personal property, goods, and services sold or used in the county. Under the bill, DOR keeps 1.75 percent of the revenue from the additional tax for administrative expenses. The bill requires that the remaining revenue be used to pay the unfunded actuarial accrued liability of the county's retirement system and for public safety services. Under the bill, the tax does not take effect unless it is approved by the voters in the county at a referendum and the county chooses to join the WRS for all its new employees.

The bill also allows a first class city to impose a sales and use tax at a rate not exceeding 2.0 percent of the sales price of tangible personal property, goods, and services sold or used in the city. Under the bill, DOR keeps 1.75 percent of the revenue from the additional tax for administrative expenses. The bill requires that the remaining revenue be used to pay the unfunded actuarial accrued liability of the city's retirement system and for public safety services. Similar to the tax imposed by the county, the tax imposed by the city does not take effect unless it is approved by the voters in the city at a referendum and the city chooses to join the WRS for all its new employees.

The bill also requires the county and city to annually submit a report to JCF detailing how the tax revenues were spent in the previous year. In addition, the bill requires the Legislative Audit Bureau to conduct a financial audit of the taxes imposed by the county and city once every five years, to annually conduct a financial audit of the retirement systems of the county and city, and to, at least every five years, contract to audit the actuarial performance of those retirement systems.

Under the bill, if in any year the county or city does not make the required contribution to the unfunded actuarial accrued liability of its respective retirement system, DOR will reduce the amount of the county's or city's shared revenue payment by the amount of the unpaid contribution and pay that amount towards the unfunded actuarial accrued liability. Also, if in any year the county or city uses the sales tax revenue for a purpose not authorized under the bill, DOR will reduce the shared revenue payment to the county or city, as appropriate, by the amount of the unauthorized expenditure.

ENGROSSED ASSEMBLY BILL 245

Under the bill, the sales tax is no longer imposed after the county or city has paid in full the unfunded actuarial accrued liability of its respective retirement system.

Under current law, Milwaukee County and the City of Milwaukee each operate their own retirement systems, providing retirement benefits to individuals employed by the county or city. The bill requires that employees initially hired by Milwaukee County or the City of Milwaukee after December 31 in the year the county adopts an ordinance to impose a 1 percent sales and use tax and elects to join the WRS are covered under the WRS and not the county's or city's retirement system.

Provisions applicable to city of Milwaukee and Milwaukee County

In addition, the bill provides certain requirements or limitations for a city or county that is authorized to impose the sales tax under the bill. Among these requirements and limitations that apply to a first class city are:

1. The total amount of spending for cultural or entertainment matters or involving partnerships with nonprofit groups is limited to not more than 5 percent of the total city budget.

2. Net new program spending or position authorizations may occur only upon a two-thirds vote of all of the members of the common council.

3. The city may not use moneys raised by levying taxes for funding any position for which the principal duties consist of promoting individuals on the basis of their race, color, ancestry, national origin, or sexual orientation.

4. The city may not use moneys raised by levying taxes for developing, operating, or maintaining a rail fixed guideway transportation system (street car).

5. The city must maintain the level of law enforcement and fire department staffing at at least the current level.

6. The school board of the school district that is located in the first class city must ensure that 25 school resource officers are present at schools in the school district during school hours and as needed during other school-related activities, and that, beginning in the 2025-26 school year, the school board must consider the statistics required to be collected on violations of municipal disorderly conduct ordinances and certain crimes, as further described below, to allocate the school resource officers to specific schools in the school district.

7. Under current law, project costs for a tax incremental district (TID) in the city of Milwaukee may not include direct or indirect expenses related to operating a street car in the city of Milwaukee. The bill also excludes expenses relating to developing or constructing a street car from inclusion as project costs in a TID in the city of Milwaukee, with the exception of development and construction costs for a project referred to as the Lakefront Line.

8. Current law authorizes the FPC of a first class city to prescribe general policies and standards for the police and fire departments and to prescribe rules for the government of the members of the departments. Also under current law, an FPC of a first class city consists of seven or nine members selected by the mayor. The bill requires that of those members at least one is selected from a list provided by the employee association that represents nonsupervisory law enforcement officers and the employee association that represents fire fighters. Individuals included in these

ENGROSSED ASSEMBLY BILL 245

lists must be residents of the city, must have professional law enforcement experience or professional fire fighting experience, respectively, and must be five years removed from experience as a professional law enforcement officer or fire fighter, respectively. The bill also transfers authority for the control and management of the police and fire departments from the FPC to the chief of each department. Policies established for the control and management of the departments may be modified or suspended by a two-thirds vote of the common council.

Among the requirements and limitations that apply to a county in which a first class city is located are:

1. The total amount of spending for cultural or entertainment matters or involving partnerships with nonprofit groups is limited to not more than 5 percent of the total county budget.

2. Net new program spending or position authorizations may occur only upon a two-thirds vote of all of the members of the county board.

ELIMINATION OF THE PERSONAL PROPERTY TAX

Under current law, beginning with the property tax assessments as of January 1, 2018, machinery, tools, and patterns, not including those items used in manufacturing, are exempt from the personal property tax. However, beginning in 2019, the state pays each taxing jurisdiction an amount equal to the property taxes levied on those items of personal property for the property tax assessments as of January 1, 2017.

Under the bill, beginning with the property tax assessments as of January 1, 2024, no items of personal property will be subject to the property tax.

Under current law, generally, public utilities, including railroad companies, are subject to a property tax imposed by the state instead of being subject to local property taxes. This bill creates a personal property tax exemption to the property tax for railroad companies in order to comply with the requirements of the federal Railroad Revitalization and Regulatory Reform Act.

The bill also makes a number of technical changes related to the repeal of the personal property tax, such as providing a process whereby manufacturing establishments located in this state that do not own real property in this state may continue to claim the manufacturing income tax credit.

OTHER PROVISIONS***Prohibition of certain discrimination and preferences***

The bill prohibits a political subdivision, which means a county, city, village, or town, from discriminating against or providing a preference in hiring or contracting based on race, color, ancestry, national origin, or sexual orientation unless it is required to receive federal aid.

Collection of certain data related to criminal or ordinance violations occurring on school property

Beginning in the 2024-25 school year, the bill requires public high schools and private high schools participating in a parental choice program to collect statistics on violations of municipal disorderly conduct ordinances and certain crimes,

ENGROSSED ASSEMBLY BILL 245

including homicide, sexual assault, burglary, battery, and arson, that occur on school property or on transportation provided by the school. The high school must collect statistics about the crime or disorderly conduct only if 1) it occurred on a weekday between the hours of 6 a.m. and 10 p.m.; 2) it is reported to law enforcement; and 3) a charge is filed or citation is issued. The bill further requires that the collected statistics be reported to the Department of Public Instruction and included on the annual school and school district accountability report. In addition, the bill clarifies that DPI may not consider crimes statistics reported by a school or school district for purposes of determining a school or school district's performance on the annual school and school district accountability report.

Maintenance of effort for protective services

The bill requires cities, villages, and towns with populations of 20,000 or more to certify to DOR that the city, village, or town is maintaining a level of law enforcement. The bill also requires political subdivisions to certify that the political subdivision is maintaining a level of fire and emergency medical services that is at least equivalent to that provided in the previous year. County and municipal aid to political subdivisions that do not satisfy the maintenance of effort requirement are reduced by 15 percent.

Advisory referenda

The bill prohibits a county or municipality from holding an advisory referendum except for certain referenda related to capital expenditures.

Local government spending reports

The bill requires DOR to annually produce a comparative local government spending report from information DOR annually collects from counties, municipalities, and public officers regarding the collection of taxes, receipts from licenses, and the expenditure of public funds and to create and maintain a web page on its Internet site to display the information contained in the report.

Local health officer

The bill prohibits a local health officer from issuing a mandate to close a business in order to control an outbreak or epidemic of communicable disease for longer than 30 days unless the governing body of the governmental unit in which the order is intended to apply approves an extension. Under the bill, no approved extension may be longer than 30 days.

Levy limit reduction for service transfers

Generally under current law, local levy limits are applied to the property tax levies that are imposed by a political subdivision in December of each year. Current law prohibits any political subdivision from increasing its levy by a percentage that exceeds its "valuation factor," which is defined as the greater of either 0 percent or the percentage change in the political subdivision's equalized value due to new construction, less improvements removed.

Also under current law, if a political subdivision transfers to another governmental unit the responsibility to provide a service that it provided in the previous year, the levy increase limit otherwise applicable in the current year is decreased to reflect the cost that the political subdivision would have incurred to

ENGROSSED ASSEMBLY BILL 245

provide that service. Similarly, if a political subdivision increases the services that it provides by adding the responsibility for providing a service transferred to it by another governmental unit that provided the service in the previous year, the levy increase limit otherwise applicable in the current year is increased to reflect the cost of that service. The bill makes these provisions optional.

Tax incremental district effect on levy limits

This bill changes the formula for calculating the levy limit “valuation factor” for tax incremental districts (TIDs) created after December 31, 2024, to include only 90 percent of new construction within TIDs located in the political subdivision. That is, under the bill, net new construction for a political subdivision is the percentage change in the political subdivision’s equalized value due to new construction, including 90 percent of the value of new construction occurring within a TID, less improvements removed, but not including any improvement removed within a TID.

Also, under current law, when a city or village creates a TID, DOR calculates the “tax incremental base” value of the TID, which is the equalized value of all taxable property within the TID at the time of its creation. If the development in the TID increases the value of the property in the TID above this base value, the amount by which the equalized value exceeds the base value is the TID’s “value increment.” The taxes collected on this value increment pay for the project costs of the TID.

Current law provides an increase in a political subdivision’s levy limit upon the termination of a TID located within the political subdivision. If DOR does not certify a value increment for a TID for a year because the TID has terminated, the levy limit of the political subdivision in which the TID is located increases by an amount based on 50 percent of the previous year’s value increment for the TID. (The actual amount is equal to the maximum allowable levy for the preceding year, multiplied by a percentage equal to 50 percent of the amount determined by dividing the terminated TID’s value increment by the political subdivision’s equalized value, as determined by DOR.) Also under current law, a similar increase in levy limit results when a political subdivision amends a TID to subtract territory.

For TIDs created after December 31, 2024, this bill changes the calculation of the levy increase upon TID termination or amendment to an amount equal to 10 percent of the aggregate of the value of new construction in the district, for each year that the district is active. The bill provides an increase of an additional 15 percent of the aggregate of the value of new construction in the district if the TID’s life span is 75 percent or less of the length of the expected life span of the TID.

Local regulation of nonmetallic quarries

The bill limits the ability of a political subdivision to place limits or conditions on the operation of quarries from which nonmetallic materials that are used primarily in the construction or repair of public transportation facilities, public infrastructure, or private construction or transportation projects are extracted, as follows:

1. The bill prohibits a political subdivision from requiring a quarry operator to obtain a permit unless, prior to the establishment of quarry operations, the political subdivision enacts an ordinance requiring a permit. The bill also prohibits a political subdivision from, during the duration of a permit that is required in order to operate

ENGROSSED ASSEMBLY BILL 245

a quarry, adding conditions to that permit unless the permittee consents and from requiring compliance with another political subdivision's requirements as a condition of the permit. In addition, if the permit is a permit that is granted pursuant to an ordinance that is not a zoning ordinance, any conditions in the permit must be related to the purpose of the ordinance authorizing the permit and be based on substantial evidence.

2. Under the bill, if a political subdivision enacts an ordinance, other than a zoning ordinance, regulating the operation of a quarry that was not in effect when quarry operations began at a quarry, the ordinance may not be applied to that quarry or to land that is contiguous to the land on which the quarry is located that a) has remained under common ownership, leasehold, or control with the land on which the quarry is located since the time the ordinance was enacted; b) can be shown to have been intended for quarry operations prior to the enactment of the ordinance; and c) is located in the same political subdivision.

3. The bill prohibits a political subdivision from limiting the times that activities related to extracting or processing minerals at a quarry occur if the minerals will be used in a public works project that requires nighttime construction or an emergency repair.

4. Under the bill, a political subdivision may not limit blasting at a quarry, except that the political subdivision may require the operator of the quarry to do any of the following: a) provide preblasting notice to owners of structures within the affected area and to the political subdivision; b) cause a third party to conduct a building survey of structures within the affected area; c) cause a third party to conduct a survey of and test any wells within the affected area; d) maintain records and reports; e) comply with other properly adopted local blasting regulations that are not related to airblast, flyrock, or ground vibration; and f) comply with requirements under current law and rules promulgated by the Department of Safety and Professional Services related to blasting.

The bill also allows a political subdivision to petition DSPS for an order granting the political subdivision the authority to impose additional restrictions and requirements related to blasting on a quarry operator that are more restrictive than requirements under current law and rules promulgated by DSPS related to blasting. DSPS may not charge a fee for the petition, but if the petition is related to the potential impact of blasting on a qualified historic building, DSPS may require the quarry operator to pay the costs of an impact study related to the building.

Emergency medical responder certification requirements

The bill also affects the requirements for certification as an emergency medical responder, formally known as a first responder. First, the bill prohibits the Department of Health Services from requiring an applicant who is applying for certification as an emergency medical responder to register with or take the examination of the National Registry of Emergency Medical Technicians (NREMT). An ambulance service provider or another emergency medical services program is allowed to require an emergency medical responder to register with or take the examination of the NREMT. Current rules promulgated by DHS require an applicant for a license as an emergency medical services practitioner at any level,

ENGROSSED ASSEMBLY BILL 245

including an emergency medical responder, to be registered with the NREMT or, in certain circumstances, to complete the NREMT examination.

Currently, an applicant for certification as an emergency medical responder who demonstrates to DHS that the education, training, instruction, or other experience gained by the applicant in connection with military service is substantially equivalent to the course required for emergency medical responder certification is considered to have satisfied completion of that course. The bill requires DHS to issue the certification for an applicant who has relevant education, training, and experience gained in connection with military service. For applicants with military service who are not affiliated with an ambulance service provider, the determination of whether an applicant has obtained the relevant education, training, and experience remains with DHS as under current law. For applicants with military service intending to volunteer for or be employed by an ambulance service provider or emergency medical services program, the determination of whether an applicant has obtained relevant education, training, and experience is solely within the discretion of that ambulance service provider or emergency medical services program.

Ambulance staffing

The bill allows an ambulance that is engaged in a nonemergent interfacility transport to be staffed with one emergency medical technician and one individual who has a certification in cardiopulmonary resuscitation. Currently, an ambulance may be staffed with any of the following: any two emergency medical services practitioners, licensed registered nurses, licensed physician assistants or physicians, or any combination of those individuals; one emergency medical services practitioner plus one individual with an emergency medical services practitioner training permit; or, for certain rural ambulance service providers, one emergency medical technician and one emergency medical responder.

Under the bill, an ambulance service provider or emergency medical services program may not prohibit an emergency medical responder or emergency medical services practitioner who is employed by or volunteering with it from being employed by or volunteering with another ambulance service provider or emergency medical services program.

Rural ambulance service providers

Under current law, a rural ambulance service provider may upgrade the service level of an ambulance to the highest level of license of any emergency services practitioner staffing that ambulance if approved by the medical director. The bill prohibits DHS from requiring a rural ambulance service provider to stock an ambulance with equipment to perform all functions that the emergency medical services practitioner with the highest level of license staffing the ambulance may perform in order to upgrade its ambulance service level.

Joint Committee on Finance approval of stewardship projects

The bill requires the Department of Natural Resources to obtain support from local governments before taking certain steps with respect to activities or projects that will be funded under the Warren Knowles-Gaylord Nelson Stewardship 2000 Program.

ENGROSSED ASSEMBLY BILL 245

Current law authorizes the state to incur public debt for certain conservation activities under the stewardship program, which is administered by DNR. The state may incur this debt to acquire land for the state for conservation purposes and for property development activities and may award grants or state aid to certain local governmental units and nonprofit conservation organizations to acquire land for these purposes.

Under current law, under certain situations, stewardship moneys may not be obligated for a given project or activity unless DNR first notifies JCF in writing of the proposal. If the JCF cochairpersons do not notify DNR within 14 working days after DNR's notification that JCF has scheduled a meeting to review the proposal, DNR may obligate the moneys. If, within 14 working days after DNR's notification, the JCF cochairpersons notify DNR that JCF has scheduled a meeting to review the proposal, DNR may obligate the moneys only upon JCF's approval. This process is generally known as "passive review."

Current law provides that each city, village, or town (municipality) and each county may adopt a resolution supporting or opposing the proposed acquisition of land funded under the stewardship program. Under current law, if DNR receives a copy of such a resolution within 30 days after notifying the municipality or county, DNR must take the resolution into consideration before approving or denying the land acquisition. The bill expands these resolutions to apply to any stewardship program project or activity, but limits the application to a project or activity on land north of USH 8. The bill prohibits DNR from obligating stewardship money and from submitting a project or activity to JCF for passive review, if required, unless every municipality and county in which all or a portion of the land on which the project or activity will occur is located adopts a resolution supporting the project or activity by a simple majority vote of the governing body.

Because this bill relates to an exemption from state or local taxes, it may be referred to the Joint Survey Committee on Tax Exemptions for a report to be printed as an appendix to the bill.

Because this bill relates to public employee retirement or pensions, it may be referred to the Joint Survey Committee on Retirement Systems for a report to be printed as an appendix to the bill.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.

ENGROSSED ASSEMBLY BILL 245**SECTION 51**

1 quarry operations unless prior to the establishment of quarry operations the political
2 subdivision enacts an ordinance that requires the permit. A political subdivision
3 that requires a quarry operator to obtain a nonmetallic mining licensing permit
4 under this subdivision may not impose a requirement in the nonmetallic mining
5 licensing permit pertaining to any matter regulated by an applicable zoning
6 ordinance or addressed through conditions imposed or agreed to in a previously
7 issued and effective conditional use permit. Any requirement imposed in a
8 nonmetallic mining licensing permit shall be related to the purpose of the ordinance
9 requiring the nonmetallic mining licensing permit and shall be based on substantial
10 evidence. The duration of a nonmetallic mining licensing permit may not be shorter
11 than 5 years.

12 (b) *Applicability of local limit.* If a political subdivision enacts a nonmetallic
13 mining licensing ordinance requirement regulating the operation of a quarry that
14 was not in effect when quarry operations began at an active quarry, the ordinance
15 requirement does not apply to that quarry or to land that is contiguous to the land
16 on which the quarry is located, if the contiguous land has remained continuously
17 under common ownership, leasehold, or control with land on which the quarry is
18 located from the time the ordinance was enacted; can be shown to have been intended
19 for quarry operations prior to the enactment of the ordinance; and is located in the
20 same political subdivision.

21 (c) *Hours of operation.* A political subdivision may not limit the times,
22 including days of the week, that quarry operations may occur if the materials
23 produced by the quarry will be used in a public works project that requires
24 construction work to be performed during the night or an emergency repair.

ENGROSSED ASSEMBLY BILL 245**SECTION 51**

1 (d) *Blasting*. 1. In this paragraph, “affected area” means an area within a
2 certain radius of a blasting site that may be affected by a blasting operation, as
3 determined using a formula established by the department of safety and professional
4 services by rule that takes into account a scaled-distance factor and the weight of
5 explosives to be used.

6 2. Except as provided under subs. 3. and 4. and s. 101.02 (7y), a political
7 subdivision may not limit blasting at a quarry.

8 3. A political subdivision may require the operator of a quarry to do any of the
9 following:

10 a. Before beginning a blasting operation at the quarry, provide notice of the
11 blasting operation to each political subdivision in which any part of the quarry is
12 located and to owners of dwellings or other structures within the affected area.

13 b. Before beginning a blasting operation at the quarry, cause a 3rd party to
14 conduct a building survey of any dwellings or other structures within the affected
15 area.

16 c. Before beginning a blasting operation at the quarry, cause a 3rd party to
17 conduct a survey of and test any wells within the affected area.

18 d. Provide evidence of insurance to each political subdivision in which any part
19 of the quarry is located.

20 e. Provide copies of blasting logs to each political subdivision in which any part
21 of the quarry is located.

22 f. Provide maps of the affected area to each political subdivision in which any
23 part of the quarry is located.

24 g. Provide copies of any reports submitted to the department of safety and
25 professional services relating to blasting at the quarry.

ENGROSSED ASSEMBLY BILL 245

1 4. A political subdivision may suspend a permit for a violation of the
2 requirements under s. 101.15 relating to blasting and rules promulgated by the
3 department of safety and professional services under s. 101.15 (2) (e) relating to
4 blasting only if the department of safety and professional services determines that
5 a violation of the requirements or rules has occurred and only for the duration of the
6 violation as determined by the department of safety and professional services.

7 5. Nothing in this section exempts a quarry operator from applicable
8 limitations on the time of day during which blasting activities may be conducted that
9 are imposed by rules promulgated by the department of safety and professional
10 services.

11 (e) *Quarry permit requirements.* 1. A political subdivision may not add a
12 condition to a permit during the duration of the permit unless the permit holder
13 consents.

14 2. If a political subdivision requires a quarry to comply with another political
15 subdivision's ordinance as a condition for obtaining a permit, the political
16 subdivision that grants the permit may not require the quarry operator to comply
17 with a provision of the other political subdivision's ordinance that is enacted after the
18 permit is granted and while the permit is in effect.

19 3. a. A town may not require, as a condition for granting a permit to a quarry
20 operator, that the quarry operator satisfy a condition that a county requires in order
21 to grant a permit that is imposed by a county ordinance enacted after the county
22 grants a permit to the quarry operator.

23 b. A county may not require, as a condition for granting a permit to a quarry
24 operator, that the quarry operator satisfy a condition that a town requires in order

2 70.995 (4) Whenever real property ~~or tangible personal property~~ is used for
3 one, or some combination, of the processes mentioned in sub. (3) and also for other

5 or some combination of such processes, may assess the property under this section.
6 For all purposes of this section the department of revenue shall have sole discretion
7 for the determination of what is substantial use and what description of real property
8 ~~or what unit of tangible personal property~~ shall constitute “the property” to be
9 included for assessment purposes, and, in connection herewith, the department may
10 include in a real property unit, real property owned by different persons. Vacant
11 property designed for use in manufacturing, assembling, processing, fabricating,
12 making, or milling tangible property for profit may be assessed under this section or
13 under s. 70.32 (1), and the period of vacancy may not be the sole ground for making
14 that determination. In those specific instances where a portion of a description of
15 real property includes manufacturing property rented or leased and operated by a
16 separate person which does not satisfy the substantial use qualification for the entire
17 property, the local assessor shall assess the entire real property description ~~and all~~

1 year, if on or before March 1 of that year the department has classified the property
2 as manufacturing or the owner of the property has requested, in writing, that the
3 department make such a classification and the department later does so. A change
4 in ownership, ~~location~~, or name of the manufacturing establishment does not
5 necessitate a new request. In assessing lands from which metalliferous minerals are
6 being extracted and valued for purposes of the tax under s. 70.375, the value of the
7 metalliferous mineral content of such lands shall be excluded.

8 **SECTION 132.** 70.995 (5n) of the statutes is created to read:

9 70.995 (5n) (a) If the department of revenue determines that an establishment

13 as provided under s. 71.07 (5n) (a) 9. c. or 71.28 (5n) (a) 9. c. Any establishment
14 classified as manufacturing prior to January 1, 2024, is presumed to be engaged in
15 manufacturing, as described in subs. (1), (2), and (3), and need not submit a request
16 as provided in this paragraph.

17 (b) The department may at any time investigate or audit requests submitted
18 under par. (a) and may revoke a classification. A revocation under this paragraph
19 may not apply retroactively, but shall take effect on the first day of the
20 establishment's taxable year following the year in which the department issues a
21 revocation. An establishment that submits a request under par. (a) shall notify the
22 department within 60 days of any termination of manufacturing activity.

23 (c) On or before December 31 of the year in which a request is timely submitted
24 under par. (a), the department shall issue a notice of determination responding to the
25 timely request. The department may, in its sole discretion, issue a notice of

ENGROSSED ASSEMBLY BILL 245**SECTION 132**

1 determination by December 31 for requests received after July 1 of the year in which
2 classification is desired. The notice shall be in writing and shall be sent by 1st class
3 mail or electronic mail. In addition, the notice shall specify that objections to the
4 decision shall be filed with the state board of assessors no later than 60 days after
5 the date of the notice, that a fee of \$200 shall be paid when the objection is filed, and
6 that the objection is not filed until the fee is paid.

7 (d) For purposes of this subsection, an objection is considered timely filed if
8 received by the state board of assessors no later than 60 days after the date of the
9 notice or sent to the state board of assessors by U.S. postal service certified mail in
10 a properly addressed envelope, with postage paid, that is postmarked before
11 midnight of the last day for filing. Neither the board nor the tax appeals commission
12 may waive the requirement that objections be in writing.

13 (e) The state board of assessors shall investigate any objection timely filed
14 under par. (d) if the fee specified under par. (c) is paid. The board shall notify the
15 person objecting or the person's agent of its determination by 1st class mail or
16 electronic mail.

17 (f) If a determination of the state board of assessors under par. (e) results in an
18 establishment not being classified as manufacturing, the person having been
19 notified of the determination shall be deemed to have accepted the determination
20 unless the person files a petition for review with the clerk of the tax appeals
21 commission, as provided under s. 73.01 (5) and the rules of practice of the tax appeals
22 commission.

23 **SECTION 133.** 70.995 (7) (b) of the statutes is amended to read:

24 70.995 (7) (b) Each 5 years, or more frequently if the department of revenue's
25 workload permits and if in the department's judgment it is desirable, the department

6 manufacturing property is located of the full value of all real ~~and personal~~ property
7 owned by the manufacturer. The notice shall be in writing and shall be sent by 1st
8 class mail or electronic mail. In addition, the notice shall specify that objections to
9 valuation, amount, or taxability must be filed with the state board of assessors no
10 later than 60 days after the date of the notice of assessment, that objections to a
11 change from assessment under this section to assessment under s. 70.32 (1) must be
12 filed no later than 60 days after the date of the notice, that the fee under par. (c) 1.
13 or (d) must be paid and that the objection is not filed until the fee is paid. For
14 purposes of this subdivision, an objection is considered timely filed if received by the
15 state board of assessors no later than 60 days after the date of the notice or sent to
16 the state board of assessors by certified mail in a properly addressed envelope, with
17 postage paid, that is postmarked before midnight of the last day for filing. A
18 statement shall be attached to the assessment roll indicating that the notices
19 required by this section have been mailed and failure to receive the notice does not
20 affect the validity of the assessments, the resulting tax on real ~~or personal~~ property,
21 the procedures of the tax appeals commission or of the state board of assessors, or
22 the enforcement of delinquent taxes by statutory means.

23 **SECTION 135.** 70.995 (12) (a) of the statutes is amended to read:

4 without limitation, income and operating statements, fixed asset schedules, and a
5 report of new construction or demolition. Failure to submit the report shall result
6 in denial of any right of redetermination by the state board of assessors or the tax
7 appeals commission. If any property is omitted or understated in the manufacturing
8 real estate assessment roll in any of the next 5 previous years, or in a manufacturing
9 personal property assessment roll made before January 1, 2024, the assessor shall
10 enter the value of the omitted or understated property once for each previous year
11 of the omission or understatement. The assessor shall affix a just valuation to each
12 entry for a former year as it should have been assessed according to the assessor's
13 best judgment. Taxes shall be apportioned and collected on the tax roll for each entry,
14 on the basis of the net tax rate for the year of the omission, taking into account credits
15 under s. 79.10. In the case of omitted property, interest shall be added at the rate of
16 0.0267 percent per day for the period of time between the date when the form is
17 required to be submitted and the date when the assessor affixes the just valuation.
18 In the case of underpayments determined after an objection under sub. (8) (d),
19 interest shall be added at the average annual discount interest rate determined by
20 the last auction of 6-month U.S. treasury bills before the objection per day for the

24 **SECTION 151.** 71.52 (7) of the statutes is amended to read:

ENGROSSED ASSEMBLY BILL 245**SECTION 151**

1 71.52 (7) “Property taxes accrued” means real ~~or personal~~ property taxes or

7 or entities as joint tenants or tenants in common or is owned as marital property or
8 survivorship marital property and one or more such persons, entities or owners is not
9 a member of the claimant’s household, property taxes accrued is that part of property
10 taxes accrued levied on such homestead, reduced by the tax credit under s. 79.10,
11 that reflects the ownership percentage of the claimant and the claimant’s household,
12 except that if a homestead is owned by 2 or more natural persons or if 2 or more
13 natural persons have an interest in a homestead, one or more of whom is not a
14 member of the claimant’s household, and the claimant has a present interest, as that
15 term is used in s. 700.03 (1), in the homestead and is required by the terms of a will
16 that transferred the homestead or interest in the homestead to the claimant to pay
17 the entire amount of property taxes levied on the homestead, property taxes accrued
18 is property taxes accrued levied on such homestead, reduced by the tax credit under
19 s. 79.10. A marital property agreement or unilateral statement under ch. 766 has
20 no effect in computing property taxes accrued for a person whose homestead is not
21 the same as the homestead of that person’s spouse. For purposes of this subsection,
22 property taxes are “levied” when the tax roll is delivered to the local treasurer for
23 collection. If a homestead is sold or purchased during the calendar year of the levy,
24 the property taxes accrued for the seller and the buyer are the amount of the tax levy
25 prorated to each in proportion to the periods of time each both owned and occupied

ENGROSSED ASSEMBLY BILL 245**SECTION 151**

1 the homestead during the year to which the claim relates. The seller may use the
2 closing agreement pertaining to the sale of the homestead, the property tax bill for
3 the year before the year to which the claim relates or the property tax bill for the year
4 to which the claim relates as the basis for computing property taxes accrued, but
5 those taxes are allowable only for the portion of the year during which the seller
6 owned and occupied the sold homestead. If a household owns and occupies 2 or more
7 homesteads in the same calendar year, property taxes accrued is the sum of the
8 prorated property taxes accrued attributable to the household for each of such
9 homesteads. If the household owns and occupies the homestead for part of the
10 calendar year and rents a homestead for part of the calendar year, it may include both
11 the proration of taxes on the homestead owned and rent constituting property taxes
12 accrued with respect to the months the homestead is rented in computing the amount
13 of the claim under s. 71.54 (1). If a homestead is an integral part of a multipurpose
14 or multidwelling building, property taxes accrued are the percentage of the property
15 taxes accrued on that part of the multipurpose or multidwelling building occupied
16 by the household as a principal residence plus that same percentage of the property
17 taxes accrued on the land surrounding it, not exceeding one acre, that is reasonably
18 necessary for use of the multipurpose or multidwelling building as a principal
19 residence, except as the limitations of s. 71.54 (2) (b) apply. If the homestead is part
20 of a farm, property taxes accrued are the property taxes accrued on up to 120 acres
21 of the land contiguous to the claimant's principal residence and include the property
22 taxes accrued on all improvements to real property located on such land, except as
23 the limitations of s. 71.54 (2) (b) apply.
