Description prohibiting funding for health services for unlawfully present individuals					

Assumptions Used in Arriving at Fiscal Estimate

This bill prohibits the use of state, local, or certain federal funds to subsidize, reimburse, or otherwise provide compensation for any health care services provided to individuals who are not lawfully present in the United States.

The Department of Employee Trust Funds (ETF) administers the State of Wisconsin Group Health Insurance Program, which is an employer-sponsored program offering group health coverage to employees of state agencies, UW System, UW Hospital & Clinics Authority, and participating local government employers.

Generally, Wisconsin state and local government employers are responsible for ensuring that individuals they hire are legally authorized to work in the United States, as required by federal law. ETF relies on employers to verify residency status and does not collect or maintain information about the immigration or residency status of GHIP members. Employees who add dependents must provide legal documentation (e.g., birth certificate, adoption order, marriage license, etc.) in order for their dependents to be covered. These documents are currently also verified by employers.

The fiscal effect of this bill on the GHIP is indeterminate.

Long-Range Fiscal Implications
