Description creating a refundable individual income tax credit for the parent of a stillbirth and making an appropriation					

Assumptions Used in Arriving at Fiscal Estimate

This bill creates a refundable individual income tax credit of \$2,000 that may be claimed by the parent of a stillbirth. The bill defines stillbirth as a birth that occurs in this state for which a fetal death report is required.

Based on data from the Wisconsin Department of Health Services, Annual Wisconsin Birth and Infant Mortality Report for 2023, Wisconsin averaged about 303 fetal deaths per year during the 2019 to 2023 period. If each stillbirth results in a \$2,000 tax credit claim, the bill will result in a new appropriation of approximately \$606,000 per year.

If the bill is passed before July 31, 2025, it will be effective for tax year 2025 and the initial fiscal impact will occur in fiscal year 2026. If the bill is passed after July 31, 2025, it will be effective for tax year 2026 and the initial fiscal impact will occur in fiscal year 2027.
