### Assumptions Used in Arriving at Fiscal Estimate

The fiscal effect of this bill is unable to be determined without more information. The Prevention Board does not share PII without redaction with the federal government, unless written into an exchange agreement that allows for compliance with a state or federal law or the administration of state or federal programs. This would also time and money to update the consent form each parent signs and the data sharing agreement for the reporting system. If the agency does share personally identifiable information with the federal government that is not required in law or program, the cost to anonymize the data would impact the agency.

### Long-Range Fiscal Implications
