2025 Assembly Bill 105

Assembly Amendment 1

2025 ASSEMBLY BILL 105

2025 Assembly Bill 105 prohibits a business entity from knowingly and intentionally publishing or distributing two types of material on the Internet.

First, the bill prohibits a business entity from knowingly and intentionally publishing or distributing material harmful to minors¹ on the Internet from a website that contains a substantial portion of such material, unless the business entity performs reasonable age verification methods to verify the age of individuals attempting to access the website. After performing a reasonable age verification method, a person may not knowingly retain identifying information of the individual who attempted to access the website, after the individual's access has been granted or denied.

Second, the bill prohibits a business entity from knowingly and intentionally publishing or distributing an obscene depiction of a purported child² or obscene material³ on the Internet.

The bill also creates a civil cause of action that allows a person who alleges a violation of either provision to bring an action seeking actual and punitive damages, court costs, and reasonable attorney fees.

denied. It allows the Department of Agriculture, Trade, and Consumer Protection (DATCP), or Department of Justice (DOJ) in consultation with DATCP, to investigate such violations. DATCP or DOJ may commence an action in court in the name of the state to restrain a violation. Before entering a final judgment, a court may make any necessary orders to restore to a person any pecuniary loss suffered because of the violation.
