## 2. Form, Style and Placement in Administrative Code

a. The SECTIONS of the rule need to be placed in numerical order of the rule provisions being treated.

b. It is inappropriate drafting style to strike or underscore letters of a word. See SECTION 2. The entire word should be stricken, followed by a new underscored word.

c. The material in SECTION 5 of the rule should not be shown as underscored, as it is not bring amended, but instead is being repealed and recreated.

d. The format of the note following SECTION 5 of the rule should be reviewed. There is no apparent need to underscore the text.
