CLEARINGHOUSE RULE 18-091

Comments

[NOTE: All citations to “Manual” in the comments below are to the Administrative Rules Procedures Manual, prepared by the Legislative Reference Bureau and the Legislative Council Staff, dated December 2014.]

1. Statutory Authority

a. The proposed rule appears to meet the standard that is required to submit a petition under s. 227.26 (4), Stats., for expedited repeal of an unauthorized rule. An “unauthorized rule” is a rule for which an agency lacks the authority to promulgate the rule due to the repeal or amendment of the law that previously authorized its promulgation. In this case, 2003 Wisconsin Act 261 repealed ch. 641, Stats., which governed employee welfare funds and plans. The proposed rule removes the corollary administrative rule provisions under the Office of the Commissioner of Insurance.

b. The rule summary’s listing of statutory authority should be revised to cite the specific statutory provision that granted rulemaking authority for the original rule. The statutory provision for the expedited rulemaking process, s. 227.26 (4), Stats., should not be cited, as that provision establishes the process and does not remove or confer rulemaking authority for the subject matter addressed in the proposed rule.

c. The rule summary’s explanation of agency authority should be updated to reflect any revisions made in accordance with the previous comment.

2. Form, Style and Placement in Administrative Code

a. The rule summary’s listing of statutes interpreted should be revised to cite the specific statute provision that was interpreted for administration and enforcement in the original rule. The citations to ss. 227.10 (2) and 227.26 (4), Stats., should be removed, as those provisions govern

administrative rulemaking procedures and do not identify a subject matter that is administered by the agency. [s. 1.02 (2m) (a) and (b), Manual.]

b. In the rule summary, a heading and entry should be inserted for related statutes or rules. [ss. 227.14 (2) (a) 1. and 227.26 (4) (b) 1., Stats.]
