Summary Prepared by the Department of Natural Resources

Statutory Authority: ss. 23.091, 23.09(2)(intro), 23.11(1), 23.28(3), 23.293, 27.01(2)(j), 27.01(10)(b) and (f) and 227.11(2)(a), Stats.

Statutes Interpreted: ss. 23.091, 23.09(2)(intro.), 23.11(4), 23.17, 23.175, 23.28(3), 23.293, 27.01(2)(i) and (j), 27.01(10)(f) and 28.04(2), Stats.

Explanation of Agency Authority: In addition to the general authority granted by s. 227.11(2)(a), Stats., to implement and interpret its statutory authority, the Department of Natural Resources has specific grants of rule making authority in chs. 23 and 27, Stats., to manage its properties.

Related statute or rule: None. All Wisconsin DNR property management regulations are found in this chapter.

Plain Language Analysis: Chapter NR 45 is the principal rule governing the conduct of visitors to properties and facilities owned, acquired by easement, or leased by the Department. This chapter is reviewed and revisions proposed by staff on a regular basis. This rule revision contains a number of fee and policy changes relative to camping and other uses of Department land. The increased fees are needed to address the continued costs of providing quality services.

A rule has been created to clarify the purpose and management standards of State Ice Age trail areas.

The annual State trail pass is increased from $15 to $20. An amendment to an existing rule clarifies which trails are designated as State trails. New additions to the State trails system are included, as is clarification regarding allowed uses on State trails.

A rule has been amended to allow non-permanent employees of the department to serve as director or officer of a Friends’ group.

The definitions, for purposes of use on department lands, of off-road motorcycle, dual sport motorcycle, and small off-road motorcycle have been updated and requirements governing their use are added. Inaccurate language governing the operation of motorcycles on department properties is repealed.

Definitions of “Yurt” and “Tepee” are added and a rule is created to allow the department to charge a fee for yurts and tepees.

Hours of operation are established for Lakeshore State Park and a permit requirement has been created to allow the possession or consumption of alcohol only at organized events at Lakeshore State Park.
The spring season ban on drinking or possessing intoxicating liquor or fermented malt beverages that existed on certain department property types has been eliminated.

An amendment to a rule clarifies the existing prohibition for operating an ATV on a non-designated area.

A new rule prohibits the use of electric personal assistive mobility devices ("Segways") on department lands unless authorized in the property’s master plan or posted open for their use.

Pets are not permitted inside any department rental tent, tepee, or yurt and pets must be on a leash at Point Beach State Forest.

An existing rule is amended to clarify which property types and areas allow small fires for the purpose of cooking and warming outside of established fire rings or fire pits.

Limits are placed on the butchering of large game animals at state park or state forest campsites or campgrounds to within a camping unit.

A new group camp area at the Turtle Flambeau Scenic Waters Area required a camping permit, reservation, and payment of a daily fee.

A rule is created to define the required length of stay during certain three day holiday periods.

A rule is created to add a new fee area (Old Veterans Lake) at the Peshtigo River state forest.

The rule permitting additional weekend and holiday family camping fees for Type A and B campgrounds has been amended to eliminate fee differences based on time of year, and Castle Mound Campground at the Black River state forest has been added to the list of campgrounds subject to the potential for an increased fee on an annual basis.

Seven properties are added to the list of properties that charge an additional $3.00 fee for camping due to local market conditions and the fee differential is now applied year-round for the listed properties.

Certain reservation periods are now aligned with family camping reservation. This change allows the public to reserve picnic areas, shelters, auditoriums, amphitheaters, tepees and yurts up to 11 months in advance.

A rule is created to codify regulations pertaining to Inch Lake Natural Area as required under the terms of the acquisition of the property.

The list of allowable uses at Bong State Recreation Area has been updated to reflect current terminology and more accurately portray existing permitted uses.

Federal Regulatory Analysis:  N/A

Comparison with Adjacent States:

Illinois:
- Family campsite fees range from $10 per night to $20 per night
- Illinois pricing varies by location
- There is no mention of fee differentials due to market forces

Minnesota:
- Family campsite fees range from $12 per night to $18 per night
-Minnesota sets a range of pricing for different type of state parks
- Minnesota prices their "Familiar Favorites" campsites at the $18 fee.
Iowa:
- Family campsite fees in Iowa range from $11 to $16 per night
- Iowa charges a camping differential fee based on the time of the year

Michigan:
- Family campsite fees in Michigan range from $10 to $33 per night
- Campsite prices do not vary by season or day of the week

Summary of Factual Data and Analytical Methodologies:
Seven parks are added to the current eight state parks (all Tier 1 state parks) where fees will be raised by $3 per night for market conditions. The new state parks added to this list are: Copper Falls, Council Grounds, Governor Dodge, High Cliff, Newport, Pattison, and Potawatomi. A 2001 Future of Camping Study completed by the WDNR-Bureau of Parks and Recreation identified several significant “hot” spots in Wisconsin where camping demand often exceeds supply. These areas include the border areas near Illinois and Minnesota (Twin Cities area), Lake Michigan and Lake Superior properties, the Dells area, along major travel routes and near other major tourism areas. All seven parks and forests being adjusted are located in these markets, and all seven properties have continuously high rates of occupancy during the camping season. A survey of the markets surrounding the seven properties being adjusted for market conditions reveals that prices are much higher for non-state park campsites per night compared to state park and forest sites:

Anticipated Private Sector Costs: Fees are increased for certain uses of department lands and those increased costs will be incurred by the users. Because the fees correspond to activities that are for the most part, most commonly used on a relatively infrequent basis, and the increases are modest, the fee increases are not anticipated to be burdensome for most users.

Effect on Small Business: None Anticipated

Analysis and Documents supporting determination of Small Business Effect: No effects anticipated.
