

BEFORE THE  
DEPARTMENT OF NATURAL RESOURCES

NOTICE OF PUBLIC HEARINGS  
AM-34-07

NOTICE IS HEREBY GIVEN that pursuant to ss. 227.11(2)(a) and 285.11(1) and (16), Stats., interpreting ss. 227.11(2)(a), 227.14(1m)(b), 285.11(1) and (16), Stats., the Department of Natural Resources will hold public hearings on revisions to chs. NR 405, 407, 408 and 484, Wisconsin Administrative code, relating to major source definition and affecting small business. The State Implementation Plan developed under s. 285.11(6), Stats., is revised.

The proposed rules will amend the definition of "major stationary source" in s. NR 405.02(22)(a), such that ethanol production facilities that produce ethanol by natural fermentation are not included in the Chemical Processing Plant category of the North American Industry Classification System. The other changes are to ss. NR 405.07(4)(a)20., 407.02(4)(b) and 408.02(21)(e), which will state that fugitive emissions from these ethanol production facilities will no longer be included in determining whether a facility is considered a major source. This rule package is initiated because of similar federal rule changes published May 1, 2007.

In addition, a federal rule clarifying two elements of the major source permitting program was promulgated on January 6, 2004. The first is the additional of a definition of replacement unit and the second clarifies a component of the emission calculation used when determining emissions under a plantwide applicability limitation (PAL). U.S. EPA has required permitting agencies to add these elements during the next reopening of the permit program regulations.

NOTICE IS HEREBY FURTHER GIVEN that pursuant to s. 227.114, Stats., it is not anticipated that the proposed rule will have an economic impact on small businesses. The Department's Small Business Regulatory Coordinator may be contacted at [SmallBusiness@dnr.state.wi.us](mailto:SmallBusiness@dnr.state.wi.us) or by calling (608) 266-1959.

NOTICE IS HEREBY FURTHER GIVEN that the Department has made a preliminary determination that this action does not involve significant adverse environmental effects and does not need an environmental analysis under ch. NR 150, Wis. Adm. Code. However, based on the comments received, the Department may prepare an environmental analysis before proceeding with the proposal. This environmental review document would summarize the Department's consideration of the impacts of the proposal and reasonable alternatives.

NOTICE IS HEREBY FURTHER GIVEN that the hearings will be held on:
