Assumptions Used in Arriving at Fiscal Estimate

The Division of Safety and Buildings within the Department of Commerce is responsible for administering and enforcing safety and health rules relating to the construction and inspection of dwellings, public buildings and places of employment. In the administration and enforcement of those rules, the Department provides numerous services such as plan examination, inspection and certification. The Department, by rule promulgate under chapter 227 of the Wisconsin Statutes, is required to fix and collect fees which should, as closely as possible, equal the cost of providing those services.

The Department estimates that current, annual revenues are \$15,814,400. Annualized costs for the period FY09 – FY12 (July 1, 2008 – June 30, 2012) are estimated at \$17,659,000. In order to generate sufficient revenue to cover these anticipated costs, the Department proposes to increase fees such that annual revenue generated during the four-year period would be \$18,730,100, a 18.44% increase, and would cover anticipated costs during that time. Costs and revenue have been estimated for each of the Division's programs, such that each program is covering its own costs. These programs include:

Amusement Rides
Passenger Ropeways
Boilers, Gas Systems, Mechanical Refrigeration Systems
Commercial Buildings
Elevators
Plumbing
Swimming Pools
Private Onsite Wastewater Treatment Systems
Rental Weatherization
Soil Erosion/Stormwater Management
1&2 Family Dwellings/Manufactured Homes
