Affected Chapter 20 Appropriations

Assumptions Used in Arriving at Fiscal Estimate

Annually the department establishes migratory game bird hunting seasons based on a federal framework that is presented to Wisconsin by the US Fish & Wildlife Service. This rule order establishes the 2009 season lengths and bag limits. The 2009 season framework is not significantly different than the migratory game bird seasons in previous years.

Ducks - The state is divided into two zones each with 60-day seasons. The daily bag limit is expected to be six ducks including no more than: four mallards, of which only one may be a hen, one black duck, one pintail, three wood ducks, and two redheads. For scaup, 45 days with a 2 bird bag limit and 15 days with a 1 bird bag are recommended. The canvasback season is closed.

Canada geese - The state is apportioned into three goose hunting zones: Horicon, Collins, and Exterior. Other special goose management subzones within the Exterior Zone include Brown County, Burnett County, Rock Prairie and the Mississippi River. Season lengths are expected to be as follows:

- Collins Zone - 66 days - Horicon Zone - 92 days
- Exterior Zone - 85 days - Mississippi River Subzone - 85 days

FISCAL IMPACT: This proposed migratory bird season rule is similar to the season in previous years and will not result in any significant changes in spending or revenue. There are no new government costs anticipated due to the provisions of this rule.

Long-Range Fiscal Implications

None
