| <input type="checkbox"/> Create New Appropriation | |

- Increase Costs — May be possible to absorb within agency's budget.
 Yes No
- Decrease Costs

Local: No Local Government Costs

1. Increase Costs
 Permissive Mandatory
2. Decrease Costs
 Permissive Mandatory

3. Increase Revenues
 Permissive Mandatory
4. Decrease Revenues
 Permissive Mandatory

5. Types of Local Governmental Units Affected:
 Towns Villages Cities
 Counties Others
 School Districts WTCS Districts

Fund Sources Affected

- GPR FED PRO PRS SEG SEG-S

Affected Chapter 20 Appropriations

Assumptions Used in Arriving at Fiscal Estimate

Summary:

The proposed rule revisions are designed to make Wisconsin's ambient air quality standards for ozone and lead consistent with the federal national ambient air quality standards (NAAQS) and to reflect current health science. These proposed rule revisions would adopt the 2008 8-hour ozone NAAQS and EPA's revised NAAQS for lead which will provide greater public health protection and welfare. This consistency between federal and state air quality standards is required under s. 285.21(1)(a), Stats.

The proposed rules will not have any direct economic impact on the private sector. If, in the future, EPA were to designate any areas in the state as non-attainment areas for either of the proposed ambient air quality standards, it could become necessary to develop rules to control emissions of ozone precursors or lead. If such rules become necessary, any potential economic impact to the private sector will be evaluated at that time.
