**Court decisions directly relevant:** None

**Related statute or rule:** N/A.

**Plain language analysis:**

2009 Wisconsin Act 160 requires the department to prescribe the qualifications for school nurses by rule. To meet the requirements under the Act, the department is modifying Chapter PI 34, relating to Teacher Education Program Approval and Licenses, by creating a definition of "school nurse" under s. PI 34.01 (52m) and by modifying the school nurse licensing information under s. PI 34.31 (2).

The DPI school nurse license which requires completion of a school nurse practicum and an institutional endorsement, is still an optional license and is not required for a nurse to work in a school. In the past, a school nurse only had to hold a license as a registered nurse under the Department of Regulation and Licensing. The rule will require a school nurse to hold a bachelor's degree as well.

An individual employed by, or under contract with, a school board, a CESA, a CCDEB, or charter school as a school nurse on or before January 1, 2011, shall be considered a school nurse, regardless of whether or not that individual holds a bachelor's degree.

To coincide with the Act's effective date, the rule will become effective January 1, 2011.

**Summary of, and comparison with, existing or proposed federal regulations:** N/A.

**Comparison with rules in adjacent states:**

Iowa does not have rules relating to the qualification of school nurses.

Illinois and Minnesota require a school nurse to be a registered professional nurse with a bachelor's degree.

Michigan requires that a professional school nurse be a registered professional nurse with a bachelor's degree.

Michigan also offers a standard school nurse certificate requiring the applicant to be a registered nurse.

**Summary of factual data and analytical methodologies:**

2009 Wisconsin Act 160 clarifies that a nurse may be employed by a school district without being “certified” by the department but rather “meets the qualifications prescribed by the department.” The DPI school nurse license under s. PI 34.31 (2) requires the applicant to have, in part, a school nursing practicum and an institutional endorsement. This DPI license is optional and is not required for a nurse to work in a school. The Act removes the department’s certification requirement and replaces it with the qualifications for school nurses prescribed by the department in rule. The qualifications specified in this rule will better reflect current practice without reducing the qualifications of the state’s school nurses.
