Assumptions Used in Arriving at Fiscal Estimate

Although the rules will newly result in review of documentation relating to issuing grants to businesses for outsourcing work to rural municipalities, the number of these reviews and grants is expected to be too small to result in significant changes in the Department's costs for administering its business development programs. Therefore, the proposed rules are not expected to have any significant fiscal effect on the Department.

The proposed rules are not expected to impose any significant costs on the private sector, because the rules address only voluntary submittal of documentation relating to grants for outsourcing work to rural municipalities.

Long-Range Fiscal Implications
