9. Policy Problem Addressed by the Rule As required by 2013 Wisconsin Act 143, these rule revisions establish a registration process for electricians who were born on or before January 1, 1956; and who have at least 15 years of experience in installing, repairing, or maintaining electrical wiring. This process includes submitting proof of having this age and experience – and includes exemption from the following licensing requirements that the Department applies to other electricians: initial examination, continuing education, credential renewal, being supervised, and having someone else be responsible for some of the electrical work. The process also includes allowing these registered electricians to do any electrical work that is otherwise limited to master electricians, such as supervising other electricians and being responsible for the work of other electricians.	
10. Summary of the businesses, business sectors, associations representing business, local governmental units, and individuals that may be affected by the proposed rule that were contacted for comments. The Department posted the proposed rule revisions on the Internet for 14 days along with a notice to provide any comments within that period about any potential economic impacts. No resulting comments were received from these parties.
