

Report to  
Legislative Council Rules Clearinghouse  
NR 10, Wis. Adm. Code  
Natural Resources Board Order Number WM-06-15

Wisconsin Statutory Authority

The chapter on wild animals and plants, in s. 29.014, “rule making for this chapter”, establishes that the department shall maintain open and closed seasons for fish and game and any limits, rest days, and conditions for taking fish and game. This grant of rule-making authority allows the department to promulgate rules related to migratory game bird hunting.

Special regulations on the taking of certain wild animals are authorized under s. 29.192, including specific language that authorizes rules related to Canada goose hunting.

The establishment of migratory game bird refuges is authorized in s. 23.09(2)(b) relating to the department’s ability to designate locations reasonably necessary for the purpose of providing safe retreats in which birds may rest and replenish adjacent hunting grounds.

Wisconsin’s boundary waters with other states are popular waterfowl hunting locations. Specific authority to regulate hunting in and on all interstate boundary waters and outlying waters is established in s. 29.041.

Sections 23.11 and 29.014, Stats. allow for the protection of natural resources, establish general department powers on lands it manages including migratory bird refuges, and authority to establish hunting and trapping regulations on department managed lands.

Federal Authority

Migratory game bird hunting is regulated by the United States Fish & Wildlife Service (USFWS), in 50 CFR part 20. Under international treaty and Federal law, migratory game bird seasons are closed unless opened annually through the USFWS regulations process. As part of the federal rule process, the service annually evaluates migratory game bird populations and breeding habitat in cooperation with state provincial agencies and the Canadian Wildlife Service. After considering recommendations from the flyway councils of states and the guidance of cooperatively developed harvest strategies, the USFWS establishes annual frameworks within flyway or bird populations regions. States can then establish hunting seasons within the sideboards for each species and region. As a result, the hunting seasons of neighboring states are similar to Wisconsin migratory game bird hunting regulations because they are subject to the same federal frameworks.

Comparison with Adjacent States

Since migratory bird species are managed under federal law, each region of the country is organized in a specific geographic flyway which represents an individual migratory population of migratory game birds. Wisconsin along with Minnesota, Michigan, Illinois and Iowa are members of the Mississippi Flyway. Each year the states included in the flyways meet to discuss regulations and guidelines offered to the flyways by the USFWS. The USFWS regulations and guidelines apply to all states within the Flyway and therefore the regulations in the adjoining states closely resemble the rules established in this rule order, and only differ slightly based on hunter desires, habitat and population management goals. However, these variations fall within guidelines and sideboards established by the USFWS.

Court Decisions Directly Relevant

None

Analysis of the Rule - Rule Effect - Reason for the Rule

This permanent rule order will establish the seasons and regulations for both the early teal-only season and extension of the mourning dove hunting season and other bag limit and season date modifications necessary to make the regular duck and goose hunting seasons consistent with the federal framework.

Agency Procedures for Promulgation

The agency will hold hearings in August and request adoption by the Natural Resources Board. The agency will then obtain the governor's signature and submit the rules to the legislature for review.

Description of any Forms (attach copies if available)

None.
