Statement Explaining Need for Rule

This rule-making is needed to close the Long-Term Disability Insurance program (LTDI) to new claims and re-open the Wis. Stat. §40.63 Disability Annuity Program (40.63) to all eligible employees effective January 1, 2018. This is part of the department’s effort to streamline, simplify and modernize the disability programs offered to Wisconsin Retirement System members.

Analysis Prepared by the Department of Employee Trust Funds

1. Statutes interpreted:
Sections 40.63, Stats.
2. Statutory authority:
Sections 40.03 (1) (i), 40.03 (2) (i) and 227.11 (2) (a), Stats.
3. Explanation of agency authority:

By statute, the ETF Secretary is expressly authorized, with approval by the Employee Trust Funds Board, to promulgate rules that are required for the efficient administration of the fund or of any of the benefit plans established by ch. 40 of the Wisconsin Statutes. Also by statute, the Employee Trust Funds Board may determine that some or all of the disability annuities and death benefits provided from the Wisconsin retirement system shall instead be provided through group insurance plans to be established by the group insurance board either as separate plans or as integral parts of the group life and income continuation insurance plans established under ch. 40 of the Wisconsin Statutes. By this rule, the ETF Board has determined that disability benefits claimed after December 31, 2017, shall no longer be provided through the Long-Term Disability Insurance group insurance plan that was established by the Group Insurance Board.

In addition, each state agency may promulgate rules interpreting the provisions of any statute enforced or administered by the agency if the agency considers it necessary to effectuate the purpose of the statute.

4. Related statutes or rules:

There are no other related statutes or administrative rules directly related to this rule.

5. Plain language analysis:

The purpose of this rule is to close the Long-Term Disability Insurance program (LTDI) to new claims and re-open the Wis. Stat. §40.63 Disability Annuity Program (40.63) to all eligible employees effective January 1, 2018. Closing the LTDI program entails moving oversight of the program's runout from the Group Insurance Board to the Employee Trust Funds Board.

6. Summary of, and comparison with, existing or proposed federal statutes and regulations:

There are no existing or proposed federal regulations that directly pertain to this proposed rule.

7. Comparison with rules in adjacent states:

Minnesota State Retirement System. General employees disability benefit is calculated the same as retirement benefits, with no reduction in benefit if under normal retirement age. To qualify for disability benefits, employee must meet the definition of disability and have three years of service; five years if hired on or after June 30, 2010. The disability benefit will end in the month of death unless survivor coverage is selected.

Iowa Personnel System. Regular disability benefits equal the amount of the retirement benefit earned at the time employment was terminated, without reduction for retiring before normal retirement age. To qualify for disability benefits an employee must be vested; have ended all IPERS-covered

employment and must be receiving Social Security Disability or Railroad Retirement benefits.

Illinois State Employee Retirement System. Non-occupational disability benefits are 50% of final average compensation or monthly rate of pay, whichever is greater for employees hired before 1/1/2011. Disability benefits are 50% of final average compensation for employees after 12/31/2010.

Occupational Disability benefits are 75% of final average compensation or monthly rate of pay, whichever is greater for employees hired before 1/1/2011.

Occupational Disability benefits are 75% of final average compensation for employees hired after 12/31/2010. To qualify for non-occupational disability benefits an employee must have 18 months of creditable service, must use all accrued sick days, and must be on a medical leave of absence. To qualify for occupational disability benefits an employee must be a member of SERS, must not be working, and must file a claim for Workers' Compensation.

Michigan Civil Service Commission. For full-time employees, long-term disability benefits equal 66.6667% of monthly rate of basic earnings. Bonuses, overtime pay and other extra compensation are not included. For less than full-time employees, the gross monthly payment is based on the number of basic hours paid in the prior fiscal year. Employees must wait 14 calendar days from the date of disability.

8. Summary of factual data and analytical methodologies:

ETF evaluated the programmatic implications of continuing to operate both the LTDI and 40.63 Disability Annuity and concluded that the option most beneficial to ETF and Wisconsin Retirement System members is to close the LTDI program to new claims. In addition, ETF's disability actuary, Milliman, Inc., analyzed the impact of closing the LTDI program.

9. Analysis and supporting documents used to determine effect on small business or in preparation of economic impact analysis:

This rule does not have an effect on small businesses because private employers and their employees do not participate in, and are not covered by, the Wisconsin Retirement System. Please see attached economic impact analysis.

10. Effect on small business:

The rule has no effect on small businesses.

Regulatory Flexibility Analysis:

The proposed rule has no effect on small businesses because only governmental employers and their employees may participate in the benefit programs under ch. 40 of the statutes administered by the Department of Employee Trust Funds.

Fiscal Estimate and Economic Impact Statement:

Please see the attached Fiscal Estimate and Economic Impact Statement.

<p>10. Policy Problem Addressed by the Rule ETF is currently administering five disability programs for state and local government employees, including two long-term disability programs, where only one long-term program is needed. ETF currently administers the Disability Annuity (40.63) program, the Long-Term Disability Insurance (LTDI) program, the Duty Disability (40.65) program, and the State and Local Income Continuation Insurance (ICI) programs. The goal of the LTDI closure is to streamline the administration of disability benefits, reduce duplication, reduce costs, and reduce complexity and confusion for employers and employees.</p>

<p>14. Benefits of Implementing the Rule and Alternative(s) to Implementing the Rule Streamline the administration of disability benefits, reduce duplication, reduce costs, and reduce complexity and confusion for employers and employees.</p> <p>An alternative to closing LTDI to new claims would be to continue to run out the 40.63 program and eventually leave LTDI as a remaining long-term disability benefit for WRS members. However, it is difficult to estimate how long 40.63 will take to run out, as it is a lifetime benefit and it is still approving claims from the approximately 33,000 members that</p>	

ADMINISTRATIVE RULES Fiscal Estimate & Economic Impact Analysis

remain eligible for the benefit. It has been 23 years since LTDI was created and it will likely take even longer to completely run out 40.63 benefit payments. For example, a member, aged 45 applying for 40.63 today, who lives to age 90 will be on the benefit for 45 years. When survivor benefits are included, the runout period gets even longer. LTDI, on the other hand, will take approximately 37 years to run out because benefits will cease once a claimant reaches age 65, if not sooner.

Maintaining LTDI in its current form will necessitate development in the department's new Benefit Administration System (BAS/myETF), which is currently being constructed. And it will require ETF to continue to request bids from outside vendors to administer the program. ETF estimates that this contracted amount will cost at least \$1.2 million annually. There is also a concern with obtaining competitive bids for program administration if LTDI is bid out with the ICI program. The 40.63 program, on the other hand, is already administered in-house as a part of ETF's current systems and as a result will be part of the BAS/myETF development.

A similar alternative to maintaining the status quo also includes maintaining the current LTDI program but bringing administration of the program in-house rather than contracting for its administration. This alternative will require additional development in BAS/myETF. ETF estimates that this alternative would save approximately \$1.2 million annually in TPA fees, but it raises the same issues with running out the 40.63 program as the previous alternative and also includes additional BAS/myETF development costs.

15. Long Range Implications of Implementing the Rule
Eventually operating one long-term disability program for Wisconsin Retirement System members.

16. Compare With Approaches Being Used by Federal Government
The Federal Employee Retirement System offers a disability retirement benefit in the form of an annuity.

17. Compare With Approaches Being Used by Neighboring States (Illinois, Iowa, Michigan and Minnesota)
All neighboring states offer disability benefits to public employees.
