ANALYSIS

Statutes interpreted:

Section 440.03 (4m), Stats.

Statutory authority:

Sections 15.08 (5) (b) and 448.40 (2) (c), Stats.

Explanation of agency authority:

Section 15.08 (5) (b), Stats., provides an examining board “shall promulgate rules for its own guidance and for the guidance of the trade or profession to which it pertains. . .”

Section 448.40 (2) (c), Stats., requires the Medical Examining Board to promulgate rules “[e]stablishing continuing education requirements for renewal of a license to practice perfusion under s. 448.13 (2).”

Related statute or rule:

None.

Plain language analysis:

A comprehensive review of ch. Med 22 was conducted to ensure the rules are consistent with current standards for drafting style and format and applicable Wisconsin statutes. As a result, the following updates have been made:

- Sections Med 20.03 and 22.04 are revised to remove requirements for applications submitted prior to January 1, 2004.
- Revisions to s. Med 22.04 (3), (4), and (6) are made to, as required under s. 448.05 (6) (a), Stats., specify the passing score for the Perfusion Basic Science Examination, the Clinical Applications in Perfusion Examination, the statutes and rules examination, and the oral examination.
- Section Med 22.04 (9) is revised to clarify the requirement to complete further professional training or education before retaking an exam after a third failure does not apply to the Perfusion Basic Science Examination or the Clinical Applications in Perfusion Examination.
- Section Med 22.07 (5m) is created to void the application of an applicant who uses a recording device when reviewing an examination, and requires the applicant to reapply for licensure. A provision is created under s. Med 22.04 (5) that will allow the Board to require an applicant who has violated s. Med 22.07 (5m) to complete an oral examination.
- Section Med 22.10 (5) is revised to comply with s. 440.03 (4m), Stats., as created by 2017 Wisconsin Act 59. Under this provision, the Board may require a credential holder to submit proof of completing continuing education programs or courses only if a complaint is made against the credential holder.
- Other provisions throughout ch. Med 22 have been updated to provide clarity and conform to current standards for drafting style and format.

Summary of, and comparison with, existing or proposed federal regulation:

None.

Comparison with rules in adjacent states:

Illinois:

Rules of the Illinois Department of Financial and Professional Regulation address the practice of perfusion in Illinois (68 Ill. Adm. Code 1335.10 to 1335.100). Although underlying statutes authorize the Department to establish rules requiring 30 hours of continuing education per 2-year license renewal cycle (225 ILCS 125/75 – Perfusionist Practice Act), the rules currently do not have such a requirement.

Iowa:

Iowa rules and statutes do not specifically address the practice of perfusion.

Michigan:

Michigan rules and statutes do not specifically address the practice of perfusion.

Minnesota:

Minnesota rules and statutes do not specifically address the practice of perfusion.

Summary of factual data and analytical methodologies:

The proposed rules were developed by reviewing the provisions of ch. Med 22 for consistency with current standards for drafting style and format and applicable Wisconsin statutes and obtaining input and feedback from the Medical Examining Board.

Analysis and supporting documents used to determine effect on small business or in preparation of economic impact analysis:

The proposed rules were posted for a period of 14 days to solicit public comment on economic impact, including how the proposed rules may affect businesses, local government units, and individuals. No comments were received.

Fiscal Estimate and Economic Impact Analysis:

The Fiscal Estimate and Economic Impact Analysis document is attached.
