ADMINISTRATIVE RULES Fiscal Estimate & Economic Impact Analysis

The federal government does not regulate the process for approving a transfer of trustee of a care fund or preneed trust fund.

18. Compare With Approaches Being Used by Neighboring States (Illinois, Iowa, Michigan and Minnesota)

Illinois: Illinois statute requires that the trustee notify the Comptroller (a state officer) no less than 28 days prior to the effective date of the trustee change. The provision does not specify whether the transferring or the new trustee needs to inform the Comptroller. (815 ILCS 390/16 (b)).

Iowa: Iowa law does not generally restrict the transfer of care funds from one financial institution to another. (IA Stats. s. 523I.810 4.). Preneed trust funds can be transferred from one financial institution to another if notice is provided to the commissioner within 30 days of the transfer of the trust funds. The party that is required to submit the notice is not specified. (IA Stats. s. 523A.202 4.).

Michigan: Michigan allows cemeteries to change the trustee of care funds at any time, subject to the consent of the commissioner and subject to the terms of the cemetery's agreement with the trustee. (MI Stats. s. 456.536 (16) (4)). Cemetery preneed sellers or trustees can change the depository or escrow agent of a preneed account at any time, without cause, and without the approval of any other party. The contract purchaser must be notified, however, if the depository or escrow agent is changed. (MI Stats. s. 328.224 (14) (3)).

Minnesota: Minnesota law gives cemetery authorities the ability to appoint multiple trustees to invest their care and improvement fund. Trustee appointments may be revoked by the board of the cemetery authority at any time by a two-third vote of its members. Seven days before any portion of the fund is transferred or withdrawn, the board of the cemetery authority must notify the county auditor of the activity and the destination of the funds withdrawn or transferred. (Minn. Stats. s. 306.77).
