16. Long Range Implications of Implementing the Rule The long range implication of implementing the rule is updated references and terminology and reflecting current pharmacy practice.		
17. Compare With Approaches Being Used by Federal Government		

ADMINISTRATIVE RULES Fiscal Estimate & Economic Impact Analysis

None

18. Compare With Approaches Being Used by Neighboring States (Illinois, Iowa, Michigan and Minnesota) Illinois: Statutes outlining Illinois' Pharmacy Practice Act are found under 225 ILCS 85 and codified under IL 68/1330 for the Pharmacy Practice. Specifically, IL 68/1330.610 outlines the standards for pharmacy structure/equipment standards. The section does require a locked area for drugs. However, Illinois does not identify professional service area square footage requirements or signage requirements.

Iowa: The complete Iowa Board of Pharmacy rules are contained in 657 Iowa Administrative Code. The Iowa Pharmacy Practice Act is codified under administrative code chapter 155A, specifically related to licensed pharmacies under s. 155A.13. Rules do require a locked area for drugs. However, there are no comparable requirements for professional service area square footage or signage.

Michigan: Michigan administrative code MCL 338.536 for housing of pharmacies specifically requires pharmacies to have a prescription department that is devoted primarily to the practice of pharmacy that occupies not less than 150 square feet of space, and that it includes a prescription counter that provides not less than 10 square feet of free working surface. For each additional pharmacist on duty, workspace must be increased by not less than 4 square feet and pharmacies that occupy less than the entire area of the premises owned, leased, used, or controlled by the licensee must be permanently enclosed by partitions from the floor to the ceiling of substantial construction and must be securely lockable. There do not appear to be requirements for signage.

Minnesota: The Minnesota Administrative Code chapter 6800 related to pharmacies and pharmacists, provides the rules for the standards for pharmacies. Specifically, Minnesota Administrative Code section 6800.0700 provides minimum requirements for pharmacies. The pharmacy space requirements include the pharmacy must: contain more than 250 square feet in the dispensing and drug storage area; maintain a prescription dispensing counter at least 18 inches deep that provides 2 linear feet; maintain an aisle behind the prescription dispensing counter at least 36 inches wide, extending the full length of the counter; be surrounded by a continuous partition or wall extending from the floor to the permanent ceiling; and contain doors capable of being securely locked. There do not appear to be requirements for signage.
