The alternative to implementing this rule is that the statute will leave open interpretations regarding the use of telehealth and licensing, technology, and other practices for audiologists and speech-language pathologists and hearing aid specialists in Wisconsin.</p>	
<p>16. Long Range Implications of Implementing the Rule The long range implications of implementing the rule improved are improved practice for audiologists, speech-language pathologists, and hearing aid specialists as a result of having rules for the profession in place.</p>	
<p>17. Compare With Approaches Being Used by Federal Government None.</p>	
<p>18. Compare With Approaches Being Used by Neighboring States (Illinois, Iowa, Michigan and Minnesota) Illinois:</p>	

## ADMINISTRATIVE RULES

### Fiscal Estimate & Economic Impact Analysis

In the Illinois Compiled Statutes Chapter 225, the Telehealth Act provides a definition for “Health care professional” which includes speech-language pathologists, audiologists, and hearing instrument dispensers. This Act also provides a definition of “Telehealth” as “the evaluation, diagnosis, or interpretation of electronically transmitted patient-specific data between a remote location and a licensed health care professional that generates interaction or treatment recommendations. ‘Telehealth’ includes telemedicine and the delivery of health care services provided by way of an interactive telecommunications system, as defined in subsection (a) of Section 356z.22 of the Illinois Insurance Code.” If the patient being treated is in Illinois, then the healthcare professional providing treatment via telehealth must be licensed to practice in Illinois (225 ILCS 150).

Illinois Executive Order 2020-09 expanded the definition of “Telehealth Services” to include provision of healthcare to a patient in any location through electronic or telephonic methods, in response to the COVID-19 pandemic for the duration of the Illinois Gubernatorial Disaster Proclamation. Executive Order 2021-14 re-issued Executive Order 2020-09 and extended it through at least July 24, 2021.

Iowa:

The Iowa Administrative Code Chapter 300, rule 645.300.2 includes that the provision of speech pathology or audiology services in Iowa via telephonic, electronic, or other methods, requires an Iowa license (IAC 645.300.2(147)).

Michigan:

The Michigan Compiled Laws, Chapter 333, Act 368 provides that Telehealth is defined as long-distance health care through telecommunication technologies. Telehealth may include telemedicine, which is defined in MCL 500.3476 (MCL 300.26283). Act 368 includes Michigan laws relating to the practice of speech-language pathology and audiology.

Minnesota:

The practice of speech-language pathology and audiology are provided for in Minnesota Statutes ss.148.511 to 148.5198. Telehealth, telemedicine, or telepractice is not specifically mentioned.

The Minnesota Department of Health provides the following definition related to Telehealth: “The provision of speech-pathology or audiology services in Minnesota through telepractice, electronic, or other means, regardless of the location of the speech-language pathologist or audiologist, shall constitute the practice of speech-language pathology or audiology and shall require Minnesota licensure.” (source:
