Statement Explaining Need for Rule

This rulemaking is needed to make technical updates to ETF rules by removing obsolete language, adjusting language to account for changes in Federal and Wisconsin law, and correcting references to repealed or renumbered statutes.

Analysis Prepared by the Department of Employee Trust Funds

1. Statutes interpreted:
Sections 40.02 (48m) and (48r), 40.05 (4), 40.23, 40.63, 40.65, and 40.95 Stats.
2. Statutory authority:
Sections 40.03 (2) (i) and 227.11 (2) (a), Stats.
3. Explanation of agency authority:
By statute, the ETF Secretary is expressly authorized, with approval by the Employee Trust Funds Board, Teachers Retirement Board and Wisconsin Retirement Board to promulgate rules that are required for the efficient administration of the fund or of any of the benefit plans established by ch. 40 of the Wisconsin Statutes.

In addition, each state agency may promulgate rules interpreting the provisions of any statute enforced or administered by the agency if the agency considers it necessary to effectuate the purpose of the statute.

4. Related statutes or rules:

There are no other related statutes or administrative rules directly related to this rule.

5. Brief summary of the proposed rule:

The objective of this rule is to make technical updates to existing ETF rules, delete obsolete language in ETF rules, and make other minor substantive changes. ETF rules are modified by:

- Updating the code to be consistent with required minimum distribution provisions of the federal Setting Every Community Up for Retirement Enhancement (SECURE) Act, SECURE 2.0 Act and 2021 Wisconsin Act 245.
- Updating the definition of “guardian” to be consistent with changes in the child guardianship law.
- Removing obsolete sections related to Social Security wage reporting requirements because the Social Security Administration no longer has authority to collect those reports.
- Adding a reference to the Chapter 244 definition of “incapacity” to power of attorney requirements.
- Clarifying that sick leave must be earned during participating employment to be used in the calculation of accumulated sick leave credits. Examples of situations where clarity is needed include when a rehired annuitant comes back to non-participating employment in which they earn sick leave and certain employees who earn sick leave for non-participating employment but eventually move to participating employment. When such employees terminate, only the sick leave earned in participating employment should be certified for the sick leave programs in order to ensure those programs are adequately funded.
- Amending the code to round an annuity applicant’s age to the nearest month, rather than the nearest quarter year for annuity option conversion purposes.
- Deleting a reference to the private employer health care coverage program and board because that program and board do not currently exist.
- Providing for the termination of a disability annuity for fraud, misrepresentation, error, or mistake; this language is consistent with the text in ETF 50.56 (2), which relates to Long Term Disability Insurance (LTDI) benefits.
- Clarifying the effective date of the suspension of LTDI benefits when a recipient exceeds the earnings limit.
- Clarifying that an employee who did not meet any qualifying criteria prior to retirement, and who never returned to work after their date of injury, qualifies for duty disability benefits under the “reduction in position” eligibility provision.
- Deleting obsolete, minor provisions related to duty disability applications filed prior to May 3, 1988, and January 1, 1995; and
- Making the code consistent with statutory language regarding duty disability appeals being filed with the division of hearings and appeals in the department of

administration.

6. Summary of, and comparison with, existing or proposed federal statutes and regulations:
The required minimum distribution (RMD) provisions of the of the federal SECURE Act are codified at 26 U.S.C. § 401 (a) (9). Recent amendments change the required beginning date for RMDs. The Wisconsin Retirement System is a qualified plan under the federal Internal Revenue Code and must comply with 26 U.S.C. § 401 (a) (9).
7. Comparison with rules in adjacent states:
As the changes proposed are technical updates to correct obsolete language and make ETF rules consistent with recent changes in Wisconsin law, there is no directly applicable comparison to adjacent states. Periodically, similar agencies in adjacent states promulgate technical rules to update existing administrative rules.
8. Summary of factual data and analytical methodologies:
Due to changes in Federal and Wisconsin law, the ETF rules contain obsolete regulatory provisions, terms, and cross-references. The proposed technical changes would allow ETF rules to be consistent with recent changes in Federal and Wisconsin law, rather than continuing with outdated language in the code. Additionally, correction of obsolete terms will make the ETF rules more accurate and prevent confusion by those subject to the rules.
9. Analysis and supporting documents used to determine effect on small business or in preparation of economic impact analysis:
This rule does not have an effect on small businesses because private employers and their employees do not participate in, and are not covered by, the Wisconsin Retirement System. Please see attached economic impact analysis.
10. Effect on small business:
The rule has no effect on small businesses.

Regulatory Flexibility Analysis:

The proposed rule has no effect on small businesses because only governmental employers and their employees may participate in the benefit programs under ch. 40 of the statutes administered by the Department of Employee Trust Funds.

Fiscal Estimate and Economic Impact Statement:

Please see the attached fiscal estimate.

CLEARINGHOUSE RULE 23-023

Comments

[NOTE: All citations to “Manual” in the comments below are to the Administrative Rules Procedures Manual, prepared by the Legislative Council Staff and the Legislative Reference Bureau, dated November 2020.]

1. Statutory Authority

a. It is not clear as to why the clarification provided under SECTION 3 is necessary. Please provide more context describing the need for the clarification. Which category of eligible employee may earn sick leave that is not creditable for health insurance premium purposes? If possible, provide examples of circumstances where employers or employees have attempted to use sick leave credits earned outside of participating employment in the calculation of health insurance premium credits.

b. It is not clear why ss. ETF 10.61 and 10.62 are being repealed in SECTION 4. Please explain why these sections are no longer necessary for the purposes of OASDHI reporting.

c. In SECTION 8, it is not clear why it is necessary to repeal the exclusion of documents transmitted in relation to the private employer health care coverage board. Is the board no longer active or may the documents now be received electronically for some reason?

d. Additional context for the provisions of the proposed rule deleting “obsolete language” and making other “minor substantive changes” would assist in the verification of the statutory authority for such modifications. Please consider adding individual descriptions of the need for each repeal and amendment.

2. Form, Style and Placement in Administrative Code

In SECTION 17, the term “full protective duty” is not defined elsewhere in the rule or in statute. This term should be defined in order to clarify its meaning. Note, however, that in subsequent correspondence, the agency indicated its intent to modify the provision to read, “after the date of their injury”, instead of the original language, “after their last day in full protective duty”. Such modification would rectify the issue.

Response to Legislative Council Staff Recommendations

ETF implemented all the Legislative Council Staff recommendations contained in the Clearinghouse Report. With respect to comment 2. regarding SECTION 17, the department initially proposed the following amendment:

SECTION 17. ETF 52.07 (3) (d) is amended to read:

ETF 52.07 (3) (d) The employer reduces the applicant's position. Assigning a formerly full-time employee to a part-time position or reducing a part-time employee's hours is considered a reduction of position for the purposes of this chapter. An employee who never returns to work after their last day worked in full protective duty is also considered to have received a reduction in position for the purposes of this chapter if they do not meet any other qualifying criteria prior to or other than retirement. Assigning the applicant to a position which does not satisfy the criteria under s. 40.02 (48), Stats., defining a protective occupation participant is a reduction of position. for the purposes of this chapter.

Upon further review, the department would like to change "after their last day worked in full protective duty" to "after the date of their injury" because an employee's last day in full protective duty may not be the same day as their date of injury. It could be after their date of injury. Although not common, there are scenarios in which an employee could return to full protective duty after their date of injury, and then later retire due to the injury. In this scenario, assuming they did not meet one of the other qualifying criteria prior to retiring, the employee's qualifying date should be their date of retirement.

16. Long Range Implications of Implementing the Rule

Implementation will bring the affected ETF rules into compliance with recent programmatic changes, update affected ETF rules to reflect current administrative practices and delete obsolete language from ETF rules.

17. Compare With Approaches Being Used by Federal Government

The required minimum distribution (RMD) provisions of the federal SECURE Act are codified at 26 U.S.C. § 401 (a) (9). It changes the required beginning date for RMDs from age 70½ to age 72. Recently, Congress again amended 26 U.S.C. § 401 (a) (9) to raise the required beginning date for RMDs from age 72 to age 73. The Wisconsin Retirement System is a qualified plan under the federal Internal Revenue Code and must comply with 26 U.S.C. § 401 (a) (9).

18. Compare With Approaches Being Used by Neighboring States (Illinois, Iowa, Michigan and Minnesota)

Periodically, retirement systems in adjacent states promulgate technical rules to update existing administrative rules.
