ADMINISTRATIVE RULES

Fiscal Estimate & Economic Impact Analysis

The federal regulations that govern the U.S. armed forces are included under Title 32 of U.S. Code of Federal Regulations.

18. Compare With Approaches Being Used by Neighboring States (Illinois, Iowa, Michigan and Minnesota)
Comparison with rules in adjacent states:

Illinois: The Illinois Department of Financial and Professional Regulation is responsible for the licensure and regulation of the practice of medicine in Illinois, with input from the Illinois State Medical Board. The Illinois Department is also responsible for the promulgation of rules to implement certain sections of the Illinois Medical Practice Act of 1987. This Act contains requirements for applications, licensure, and discipline for physicians [225 Illinois Compiled Statutes ch. 60]. The rules in the Illinois Administrative Code include requirements for education programs, visiting physician permits, and disciplinary proceedings, among others. [Illinois Administrative Code Title 68, ch. 7, s. 1285]. Neither the Illinois statutes nor the administrative rules for medical practice include requirements for military medical personnel. The Illinois Service Member Employment and Reemployment Rights Acts includes general provisions for employment for all military personnel, but none are specific to medical or healthcare practice [330 Illinois Compiled Statutes ch. 61].

Iowa: The Iowa Board of Medicine is responsible for the licensure and regulation of medicine and surgery in Iowa. Chapter 148 of the Iowa Code includes statutory requirements for licensure, composition and powers of the Iowa Board, and discipline for physicians [Iowa Code ch. 148]. The Iowa Administrative Code includes rules relating to medical practice. These requirements also include rules on military service and veteran reciprocity. Military service members can apply to have their service and training counted for credit toward licensure as a medical physician or surgeon, osteopathic physician or surgeon, or licensed acupuncturist. Veterans can apply for provisional licensure to service members who are licensed in another jurisdiction with a credential that is not substantially equivalent to an Iowa license. This provisional license allows for that Veteran to obtain the additional experience or education needed for a regular Iowa license. Iowa also has rules for reciprocal licensure for veterans and their spouses that are licensed in other jurisdictions and that license is substantially equivalent to an Iowa license [653 Iowa Administrative Code ch. 18]. The Iowa statutes and rules for medicine and surgery do not include requirements specifically for military medical personnel supervision and practice.

Michigan: The Michigan Board of Medicine is responsible for the licensure and regulation of medical practice in Michigan. Act 368 Article 15 Part 170 of the Michigan Compiled Laws includes the regulations for medicine in Michigan, among several other occupations. Some of the requirements in this part include those for licensure, informed consent, and duties of the Michigan Board. This part of the Michigan rules also includes requirements for physician assistants and genetic counselors in addition to physicians. [Michigan Compiled Laws ss. 333.17001-333.17097]. The Michigan rules for medicine do not include requirements specifically for military medical personnel supervision and practice.

Minnesota: The Minnesota Board of Medical Practice is responsible for the licensure and regulation of medicine in Minnesota. Part 6800 of the Minnesota Administrative Code includes requirements for licensure, continuing education, and hearings before the Minnesota Board. [Minnesota Administrative Rules part 5600]. Chapter 147 of the Minnesota Statutes, or the Minnesota Medical Practice Act, also includes requirements for licensure, practice, and discipline for physicians [Minnesota Statutes ch. 147]. Chapter 197 of the Minnesota Statutes includes requirements for expedited licensing processing and temporary licensure for former and current military personnel. The expedited licensing process is for those service members who are otherwise qualified to obtain licensure in an efficient manner. The temporary license process allows certain qualified service members who are licensed in another state to practice while waiting for a regular license to be granted [Minnesota Statutes ch. 197]. The Minnesota statutes and rules for medicine do not include requirements specifically for military medical personnel supervision and practice
