Analysis of Proposed Rules

Statutory Authority: s. 101.055 (3), Stats.

Statutes Interpreted: s. 101.055 (3), Stats.

The Department of Commerce is responsible for adopting standards to protect the safety and health of public employees in the state of Wisconsin. The adopted standards must provide protection at least equivalent to that afforded to private sector employees under standards administered and enforced by the federal Occupational Safety and Health Administration (OSHA). Chapter Comm 32 currently contains general safety and health standards for all public employees through the incorporation by reference of several OSHA standards. Chapter Comm 32 also contains requirements that add to or modify the OSHA standards.

The proposed rules consist of revisions in chapter Comm 32, including the incorporation by reference of the new OSHA standards issued since the last chapter update in 2002. Those standards cover illness and injury reporting; signs, signaling and barricades; shipyard employment; exit routes, emergency action plans and fire prevention plans; and materials handling and storage.

The proposed rules also contain new requirements that more clearly articulate the need for the development and implementation of a safety and health program.

The proposed rules have been developed with the assistance of the Public Safety Advisory Council. The members of that citizen advisory council are as follows:
