MARCH 7, 1958 AMENDING RULE A-E 1.04 (2)

"Pursuant to the authority invested in the Wisconsin Registration Board of Architects and Professional Engineers by Sections 101.31 and 101.315 - Wisconsin Statutes, the Wisconsin Registration Board amends, effective May 1, 1958, without public hearing according to procedure set forth in Section 227.02 (1) (e), Wisconsin Statutes Rule A-E 1.04 Registration Seals (2) by adding:

'While it is necessary that each sheet of unbound plans, design sheets and specifications carry the seal and signature of the Architect or Professional Engineer in responsible charge of their preparation it is proper and reasonable to require that for bound volumes of plans, design sheets and specifications the seal and signature of the Architect or Professional Engineer in responsible charge of their preparation need be affixed only to one sheet of each bound volume, provided the sheet to which they are affixed clearly identifies by number and title all the other sheets comprising the bound volume and the date of the seal and the signature.

'A bound volume cannot be added to or portions of it deleted unless such revision is clearly set forth in a statement giving additions or deletions to the original as sealed and signed and that statement bear the seal and signature of the Architect or Professional Engineer in responsible charge of their preparation and the date the seal and signature was affixed, which statement together with the revision covered becomes a part of the original bound volume. The statement of revision must be placed on the sheet bearing the original seal and signature, or it may be attached to it provided the revision is identified by title and date on the sheet bearing the original seal and signature.'"
