Gentlemen:

Wisconsin Administrative Code section Ins 2.07
page 16

We would appreciate having the captioned page of our administrative rules reprinted to incorporate the underscored words in the first sentence of the first paragraph of the Note. The remainder of the note is to remain unchanged.

Note: It is the position of the department that the changing of a policy to one with lower cash values is replacement if the freed premium dollars are to be used to purchase additional life insurance in either the original company or another company. This position . . .

Very truly yours,

Charles Manson
Commissioner of Insurance
