Stats. and sections PI 3.03 (2), (3), (4), (5) and (6), Wis. Adm. Code. The permit is recognized as a substandard instrument given to an unqualified person.

(1) No permit may be issued to any person for the school year 1964-65 or thereafter who has secured credits for less than 4 semesters of work as prescribed by a college offering an accredited 2 year professional education course.

(2) A permit may be granted only upon the written request of the employing official and/or the county or district administrator.

(a) Such request shall state that a satisfactory qualified person is not available.

(b) A permit shall be limited to a certain position and may not exceed one school year.

(c) All permits shall expire as of June 30 or sooner of the school year for which they are issued.

(d) No permit may be renewed unless there shall be a continued shortage of available satisfactorily recommended qualified teachers, and at least 6 semester hours of credit have been gained during the school year or the summer preceding the school year for which the permit is to be issued. These credits must be acceptable to the college at which the permit teacher is working toward her next diploma or degree.

(e) All permit teachers must have their credits evaluated and a suitable pattern of procedure established by the proper college authority.

(f) The state superintendent may issue or decline to issue permits at his [her] discretion.

(g) A permit to be known as an intern license may be given to a person working in an internship program which is approved by the state superintendent of public instruction. An intern who is paid by a board of education must hold such a license. PI 3.03 Licenses. A license is a 1, 2 or 3 year instrument which indicates that the holder is fully qualified to teach the subjects or at the grade levels endorsed on the license. Licenses are given to persons who are recommended by the proper college authorities and who have completed a program approved by the state superintendent of public instruction. Approved programs must meet the minimum requirements set by the state superintendent but they may go beyond these minimums as determined by each teacher preparation institution and as approved by the state superintendent. (b) Such preparation shall include the following experiences:

A degree-holding upper elementary teacher may be licensed at the ninth grade

Graduates of 4 year degree courses of out-of-state accredited colleges and universities are eligible for licenses providing they meet our state requirements. Graduates of 2 and 3 year courses in out-of-state colleges and universities are not eligible for regular licensing in Wisconsin based upon such preparation. The use of proficiency examinations in professional education and in subject areas may be substituted in part in lieu of regularly earned college credits. The method and extent of the use of such examinations shall be based upon the prior holding of a baccalaureate degree and upon the recommendation or recommendations of examining committees cooperatively established by the proper authorities of degree-granting colleges and universities accredited for the preparation of public school teachers in Wisconsin. Such recommendations as well as the plans and procedures involving the establishment of the examining committees and the overall methods of procedure must have the approval of the state superintendent before their acceptance for certification purposes.

(a) Degree-holding elementary teachers are expected to have a good general education background. It is strongly recommended that they acquire one or more subject matter areas of concentration.

The use of proficiency examinations in professional education and in subject areas may be substituted in part in lieu of regularly earned college credits. The method and extent of the use of such examinations shall be based upon the prior holding of a baccalaureate degree and upon the recommendation or recommendations of examining committees cooperatively established by the proper authorities of degree-granting colleges and universities accredited for the preparation of public school teachers in Wisconsin. Such recommendations, as well as the plans and procedures involving the establishment of the examining committees and the overall methods of procedure, must have the approval of the state superintendent before their acceptance for certification purposes.

(a) High school teachers of all subjects shall have secured a good general education background for graduation from college. Colleges in Wisconsin preparing teachers for public high schools shall file their pattern of general education with the state superintendent in 1961 and at 4 year intervals thereafter. Applicants graduating from college shall have completed plan 1, plan 2, plan 3, or plan 4 below:

Role and importance of resource use planning for the future. Public and private schools of higher education, where section 40.43 applies, shall submit a syllabus of the course of instruction in the conservation of natural resources or a listing of units if the preparation in conservation is integrated in other courses. Time allotments must be indicated unless conservation of natural resources is offered for credit. In which case credit earned must be indicated.

6. Only those majors and minors that meet the standards of the college as to credits and pattern will meet the state requirements. These standards are those established by the college of graduation or the college in which the work in professional education is taken.

7. In all cases in which the college authorities recognize high school courses or other proof of proficiency by permitting advanced standing, such credit will be recognized in meeting the minor or the major when a statement of such recognition and placement is indicated upon the official transcript of the student or through an official note attached to the transcript.

8. College and university authorities are urged not to include as teaching majors those subjects which are not recognized as good secondary teaching fields in Wisconsin high schools.

(b) A license covering the broad field of science will be granted from 1960 to 1963 inclusive based on a major in science of at least 45 semester credits in science subjects with a minor of at least 20 semester credits in one science subject and at least one full year course of at least 8 semester credits in the other three courses. Certification in broad field social studies will permit teaching in only the concentration and the fusion courses, not in all social studies subjects. (The fusion courses are those drawn from several of the social studies disciplines and, therefore, require a composite preparation in social studies. Fusion courses include civics, social problems, American problems, area studies, vital issues, etc.)

(d) A license covering the broad field of music education will be granted in 1963 and thereafter upon a minimum of 54 semester hours in the field of music exclusive of methods. The pattern shall be approved by the state superintendent.

Certificates are given to persons who are recommended by the proper college authorities and who have completed a program approved by the state superintendent of public

Register, December, 1975, No. 240

instruction. Approved programs must meet the minimum requirements set by the state superintendent but they may go beyond these minimums as determined by each teacher preparation institution and as approved by the state superintendent.

(1) Five-year non-renewable certificates may be issued to graduates of recognized 2 year elementary teacher courses at the expiration of the 2 year license described in Wis. Adm. Code section PI 3.03 (4). The issuance of the renewal certificate shall be based upon proof of success as reported by superintendents, supervisors and principals and upon proof of the applicant having secured at least 6 semester credits of college work toward the bachelor's degree acceptable to the state superintendent. For any further certification the bachelor's degree in elementary education will be required. This rule shall take effect with the 2 year graduates of 1961.

(2) Since the graduate from a 2 year professional course in elementary education is allowed a total of 7 years to secure a degree in elementary education, the graduate of a 3 year course may have the same length of time after completing a 2 year course or the second year of a 3 year course. Term certificates will be issued upon graduation from the 3 year course in elementary education in accordance with the amount of time left within the above-mentioned period. For further certification the bachelor's degree in elementary education will be required. This rule shall take effect with the 3 year graduates of 1962.

(a) *Life certificates.* The unlimited or life certificate issued under date of July 1, 1962 or thereafter, for all types of certification, will be valid so long as the holder remains actively in the public school teaching profession. The credential shall become invalid if for 5 or more consecutive years the holder is not actively employed in a position in public education requiring the holding of a valid license. A person substituting for one-half of a school year shall be considered actively employed for that year. Such nullified credential may be renewed under regulations in force at the time of the application for renewal.

(b) *High school teachers.* They must hold a bachelor's degree and must have met the pattern of preparation approved by the state superintendent. Life certificates may be granted only in the major subject or subjects of preparation and such other subjects that have been taught successfully in Wisconsin public junior or senior high schools for at least three years and which were endorsed on a regular Wisconsin license during that period of time. At least 1 of the 3 years shall have been within the 3 year period prior to the application for the life certificate. Proof of success shall be furnished as requested by the state superintendent.

(c) *Elementary teachers.* They must have met the pattern of preparation approved by the state superintendent and must be properly recommended graduates of a degree course or its equivalent in elementary education from a college or university accredited to offer a degree in the preparation of elementary teachers. This requirement is effective for all who receive initial licenses on the basis of a minor after June 30, 1974.

(3) SUPERVISOR OR COORDINATOR. A supervisor or coordinator under this rule is a person employed by a public school board of education, a county handicapped children's education board, or a cooperative educational service agency as a general supervisor, special education supervisor, director of instruction, or special education director within any district, city school system, county handicapped children's education board, or cooperative educational service agency. All general supervisors, coordinators, and directors of instruction shall hold supervisors' licenses or certificates. In the case of special education supervisors, coordinators, and directors this regulation shall take effect as of the school year 1966-67 and thereafter.

(a) A supervisor or coordinator in any public school system in Wisconsin must hold or be eligible to hold a license to teach in Wisconsin at the level of supervision and must have had at least 3 years of public school teaching experience at that level. Such license shall become invalid when the holder no longer holds or is eligible to hold a valid Wisconsin teacher's credential. The months and years of employment as an active supervisor or coordinator licensed in Wisconsin as such may be counted for renewal licensing purposes, as both teaching and supervising or coordinating time.

1. To obtain a license to act as supervisor or coordinator, the applicant must be at least 24 years of age and must be a citizen of the United States. He must hold a master's degree with graduate courses in the areas of curriculum; supervision; measurements; guidance; and child and/or adolescent development. Note that this master's degree may be in any field but must contain the pattern shown in this paragraph.

2. If employed to act as supervisor or coordinator of both elementary and secondary fields, this person must have successfully completed courses at the graduate level in elementary supervision and curriculum if licensed to teach in high school or in secondary supervision and curriculum if licensed to teach in elementary schools. Supervision and curriculum courses covering both the elementary and secondary fields will be accepted.

3. The original license for supervisor or coordinator shall be for 3 years. This license may be renewed upon satisfactory proof of successful work as supervisor or coordinator. A life certificate may be issued by the state superintendent to those successfully completing 2 post-master's degree courses in education of at least 2 credits each and by producing evidence of successful work as supervisor or coordinator for 3 or more years in Wisconsin public schools while holding a supervisor's or coordinator's license. This credential shall become invalid if for 5 or more consecutive years the holder is not actively employed as a supervisor or coordinator or director of instruction in public schools requiring the holding of a valid supervisor's license. Such nullified credentials may be renewed under regulations in force at the time of the application for renewal.

(b) To secure a special education supervisor's, coordinator's, or director's license, a person must meet the qualifications in sub. (a) 1 and must also hold an undergraduate, or master's degree, or certification in one area of exceptionality. In addition, a person must have completed a minimum core of 6 graduate credits in the area of supervision and administration of special education programs; field work or internship in the supervision and administration of special education; and/or seminar in the supervision and administration of special education programs. The state superintendent may also substitute equivalency credit upon the submission of evidence attesting to competence in this area.

1. The original license for a level B special education supervisor, coordinator, or director shall be for 3 years and shall be issued upon the recommendation of competence by a recognized training institution. This license may be renewed upon satisfactory proof of successful work as a supervisor, coordinator, or director in special education. A life license as a Level B special education supervisor, coordinator, or director may be issued by the state superintendent to those successfully completing 2 post-master's degree courses in special education of at least 2 credits each and by submission of evidence of successful work as a special education supervisor, coordinator, or director of 3 or more years in Wisconsin public schools while holding the appropriate Level B license.

2. A Level A special education supervisor's, coordinator's, or director's license shall be for 3 years and shall be issued upon the recommendation of competence by a recognized training institution to individuals attaining a Sixth Year Specialist's Degree, or its equivalent of one year's graduate work in special education beyond the master's degree. A minimum of 18 hours of post-master's level work in the broad areas of exceptionality shall be construed as meeting this requirement. A minimum of 12 hours of this graduate work shall be in areas other than the original area of specialization in special education. A life license as a Level A special education supervisor, coordinator, or director may be issued by the State Superintendent to those submitting evidence of successful work in this area for 3 or more years in Wisconsin public schools while holding the appropriate Level A license.

3. Individuals accepting new positions as supervisors, coordinators, or director of special education after the school year 1965-66 and thereafter must possess the proper certification. Those continuing in the position held in 1965-66 will be given until September 1, 1967, to

qualify and will be issued provisional one-year licenses to act in this capacity.

(c) General and special education supervisors, curriculum coordinators, and others classed as supervisors within the state department of public instruction, whose regular duties take them into public schools to work with teachers, administrators, or school boards may secure licenses as supervisors if qualified under PI 3.10 (3) (a) (b). They may become eligible for the life certificate as supervisor as in PI 3.10 (3) (a) (b) or by serving successfully for 3 years as a supervisor within the state department of public instruction.

If there are minor temporary deficiencies, one year administrative licenses may be issued which will be renewable if at least one of the course deficiencies is removed annually. After the minimum requirements are met, a regular 3 year certificate may be issued. After 3 years of successful administrative experience in Wisconsin public schools, while fully licensed, the life certificate may be granted to any administrator who holds the master's degree with the proper distribution of courses as indicated and who also has successfully completed a minimum of 2 courses of at least 2 graduate credits each at the post-master's level in subjects related to school administration, supervision or curriculum. This credential shall become invalid if for 5 or more consecutive years the holder is not actually employed as an administrator in Wisconsin public schools. To obtain a license to act as a school administrator, the applicant must be at least 24 years of age and must be a citizen of the United States. Administrators who have acquired tenure as principals in populous counties pursuant to section 40.42, Wis. Stats., need not qualify under this rule. All administrators included under subsections PI 3.10 (4) (a), (b), (c) and (d) must hold the proper license for an administrator. Such license shall become invalid when the holder no longer holds a valid Wisconsin teacher's credential. The months and years of employment as an active administrator licensed in Wisconsin as such may be counted, for renewal licensing purposes, as both teaching and administration time. Note that the master's degree for administrators may be in any field but that the prescribed pattern of graduate courses in education must be taken. All references in subsections (4) (a), (4) (b) and (4) (c) to elementary or secondary supervision or curriculum shall be considered as having been met if courses covering grades 1-12 have been taken.
