ORDER OF THE STATE OF WISCONSIN NATURAL RESOURCES BOARD

CREATING RULES

Pursuant to the authority vested in the State of Wisconsin Natural Resources Board by sections 147.25(8) and Chapter 227, Wisconsin Statutes, the State of Wisconsin Natural Resources Board hereby creates rules as follows:

NR 160.07 (1m) of the Wisconsin Administrative Code is created to read:

(1m) Sanitary sewer collection systems eligible under the Federal Water Pollution Control Act, with final construction plans approved by the state prior to October 18, 1972, in a metropolitan sewerage district existing prior to January 1, 1975, to serve an unsewered developed municipality, as defined in s. 144.01 (12), Wis. Stats., existing as of October 18, 1972, whose initial dry weather sanitary sewage flow is at least equal to the total proposed initial dry weather sanitary sewage flow from a previously sewerd municipality to the new treatment plant proposed to be constructed by the metropolitan sewerage district can be funded as part of a cluster project. For sewer projects funded under this section, the sewer system cost in the unsewered municipality to provide one-half of the total initial dry weather flow to the new treatment plant may be funded at the same time as the plant is funded, while the other portion of the sewer system cost may be funded out of the next year's federal allocation. However, no more than one-half of the sanitary sewer system shall be funded the first year.

The foregoing rules were approved and adopted by the State of Wisconsin Natural Resources Board on January 22, 1976.

The rules contained herein shall take effect upon publication.
