NR 10.001 Definitions. (1) "Department" means the department of natural resources.

(2) For the purposes of this chapter, "bait" means honey and any solid or nonliquid material attractive to wildlife.

(3) "Open water" means any water beyond a natural growth of vegetation rooted to the bottom and extending above the water surface of such height as to offer whole or partial concealment for the hunter. Dead stumps and dead trees in water do not constitute a natural growth of vegetation.

(4) "Waterfowl" means any migratory game bird of the family *Anatidae* including wild ducks, geese and brant.

(5) "Migratory game birds" means any bird which is migratory and on which an open season has been prescribed in this chapter and belonging to one of the following families:

- (a) *Anatidae* (wild ducks, geese and brant),
 - (b) *Rallidae* (rails, coots and gallinules),
 - (c) *Scolopacidae* (woodcock and Wilson's snipe (jacksnipe)).
- (6) "Liquid scent" means any nonsolid material except honey.
- (7) For the purpose of hunting bear:

(a) "Hunter" means any person shooting, shooting at, taking, catching, killing or pursuing a bear and any person who aids, assists, abets or acts in concert with such a person in the pursuit of the bear whether or

NR 10

not such person possesses a weapon or other means capable of reducing a bear to possession.

(b) "Pursuit" means the activity by a person or persons in concert designed or for the purpose of overtaking and reducing a bear to possession.

(8) "Bow" means any bow, drawn and held by and through the effort of the person releasing it, but does not include crossbow.

(9) "Crossbow" means any device using a bow which, once drawn, is held solely by means other than the effort of the person firing it.

(10) "Molest" means any activity which results in physical damage or destruction of an object.

(11) "Firearm season" means an open season for hunting with any of the following firearms loaded with a single slug or ball: rifle, muzzle-loader, shotgun or handgun for deer hunting described in s. NR 10.09 (1) (c) 1. c..

(12) "Shotgun season" means an open season for hunting with either of the following firearms loaded with a single slug or ball: muzzle-loader or shotgun.

(13) For the purpose of hunting deer and bear, "muzzle-loader" means any smoothbore muzzle-loading firearm of not less than .45 caliber and any rifled muzzle-loading firearm of not less than .40 caliber, discharged from the shoulder.

(14) For the purpose of hunting wild animals other than deer and bear, "muzzle-loader" means any caliber of any muzzle-loading firearm discharged from the shoulder.

(15) "Daily bag" or "bag limit" means the maximum number of game species which may be reduced to the possession of a person in one day.

(16) "Possession limit" means the maximum number of game species which may be reduced to the possession of a person in 2 days or more.

(17) "Water set" means any trap which is set or staked in such a manner as to permit the trap or trapped animal to reach water at any point.

(18) "Water" in non-toxic shot zones means lakes, ponds, marshes, swamps, rivers, streams, and drainage ditches except for temporary sheet water. All county boundary waters and lakes partially within a non-toxic shot zone are totally included except the open water of Green Bay and Lake Michigan and the Wisconsin river outside Columbia county.

(19) "Non-toxic shot" means steel shot.

(20) "Goose zones and areas" means those established in s. NR 10.01 (1) (i) through (t).

(21) For the purposes of ss. 29.224 (2), 29.56, 29.565 (2), 29.57 (4) and 350.06, Stats., "enclosed within a carrying case" for firearms means completely contained in a gun case expressly made for that purpose which is fully enclosed by being zipped, snapped, buckled, tied, or otherwise fastened, with no portion of the firearm exposed.

Note: Subsection (21) does not remove the requirement of ss. 29.224 and 350.06, Stats., to enclose bows or crossbows in carrying cases. The rule does not apply to bows or crossbows

only because the natural resources board recognizes that certain designed bow cases may allow portions of the bow, for instance the handle, to be exposed and yet still render the bow inoperable.

(22) "Unforked antler" means a polished antler consisting of a single spike without branches or tines.
