Chapter N 6

CERTIFICATION OF NURSE-MIDWIVES

N 6.01 Authority and intent. (1) The rules in this chapter are adopted pursuant to authority of ss. 15.08(5), 227.014 and 441.15, Stats.

(2) The intent of the board of nursing in adopting rules in this chapter, interpreting s. 441.15, Stats., is to specify the requirements for obtaining certification as a nurse-midwife; the scope of practice of nurse-midwifery; and the types of facilities in which such practice may occur.

History: Cr. Register, December, 1981, No. 312, eff. 1-1-32.

N 6.02 Definitions. As used in this chapter:

(1) “Board” means board of nursing.

(2) “Bureau” means bureau of nursing within the department of regulation and licensing, located at 1400 East Washington avenue, Madison, Wisconsin 63702.

(3) “Complications” means those conditions which jeopardize the health or life of the newborn or mother and which deviate from normal as defined in the formal written agreement and as recognized in the nurse-midwife profession, including but not limited to: hemorrhage, heart disease, diabetes, infection, hypertension of pregnancy and hemolytic disease of the newborn.

(4) “Formal written agreement” means an agreement between the supervising physician and the nurse-midwife which is permanently recorded, dated and signed by both parties, is available for inspection upon reasonable request, and consists of at least the following: framework of mutually approved protocols including conditions of supervision and referral, clearly delineated lines of referral in the event the supervising physician is not available, health care facilities to be used and evidence of annual review.

(5) “General supervision by a physician” means the assumption of responsibility, by a physician trained in obstetrics, of medical procedures which are or may be required in the course of nurse-midwifery practice. General supervision shall not be construed to mean the physical presence of the supervising physician. Supervision includes, but is not limited to:

(a) Participation in the construction of written protocol;

(b) Availability for consultation or collaborative management of deviations from normal.

(6) “Nurse-midwife” means a nurse-midwife certified by the board.

Register, March, 1984, No. 399
"Refer to the supervising physician" means consultation with the
supervising physician which may lead to co-management or assumption
of the patient's care by the physician.

History: Cr. Register, December, 1981, No. 312, eff. 1-1-82.

N 6.03 Qualifications for certification. An applicant for certification as a
nurse-midwife shall be granted certification by the board, provided that
the applicant:

(1) Has completed an educational program in nurse-midwifery ap-
proved by the American college of nurse-midwives;

(2) Holds a certificate issued by the American college of nurse-mid-
wives; and,

(3) Is currently registered to practice as a professional nurse in Wis-
consin.

History: Cr. Register, December, 1981, No. 312, eff. 1-1-82.

N 6.04 Application procedures for certification. (1) An applicant for certi-
fication to practice as a nurse-midwife shall file a completed, notarized
application on a form provided by the bureau. The application shall in-
clude:

(a) Signature of the applicant;

(b) Fee specified under s. 440.05(1), Stats.;

(c) Evidence of certification of completion of an educational program
in nurse-midwifery from the American college of nurse-midwives;

(d) Identification of current registration as a professional nurse in Wis-
consin, to include registration number and renewal information.

(2) A separate certificate shall be issued by the board for the practice of
nurse-midwifery.

(3) Renewal of a certificate to practice nurse-midwifery shall be con-
ducted as a separate procedure from the renewal of the nurse's certificate
of registration as a professional nurse; however, the time for renewal of
each certificate shall be the same. The applicant for renewal shall inform
the board whether the certificate issued to him or her by the American
college of nurse-midwives has been revoked or suspended.

N 6.05 Scope of practice. (1) The scope of practice is the overall man-
agement of care of a woman in normal childbirth and the provision of
prenatal, intrapartal, postpartal and nonsurgical contraceptive methods
and care for the mother and the newborn.

(2) The nurse-midwife shall practice under the general supervision of a
physician with training in obstetrics pursuant to a formal written agree-
ment with that physician.

(3) The nurse-midwife shall immediately refer to the supervising phy-
sician a patient with any complication discovered by the nurse-midwife.

Register, March, 1984, No. 339
N 6.06 Limitations on the scope of practice. (1) The nurse-midwife shall not be involved in the independent management of patients with complications and shall refer those patients to the physician.

(2) The nurse-midwife may not perform deliveries by mechanical means or by Caesarean section.

(3) The nurse-midwife may not assume responsibilities, either by physician-delegation or otherwise, which he or she is not competent to perform by education, training or experience.

(4) Following notification of a physician as required by s. 441.15(4), Stats., a nurse-midwife may continue to manage the delivery when complications occur if emergency measures are required and the physician has not yet arrived.

N 6.07 Certification and exception. (1) No person may practice or attempt to practice nurse-midwifery or use the title or letters “Certified Nurse-Midwife” or “C.N.M.”, “Nurse-Midwife” or “N.M.”, or anything else to indicate that he or she is a nurse-midwife unless he or she is certified under this chapter.

(2) Nothing in this chapter shall be construed either to prohibit or to require a certificate under this chapter for any person lawfully practicing professional nursing within the scope of a certificate of registration granted under ch. 441, Stats.

N 6.08 Health care facilities where practice shall occur. A health care facility where the practice of nurse-midwifery may occur is one that has adequate equipment and personnel for conducting and monitoring the normal scope of practice and that has available methods for referral to or communication with a higher level care facility if the need arises.

(2) Deliveries may be arranged for only in a facility which has adequate sanitation, thermal regulation, staffing, communication systems and medical back-up.

(3) The above limitations do not apply to care given in emergency circumstances.

History: Cr. Register, December, 1981, No. 312, eff. 1-1-82.
