TO ALL TO WHOM THESE PRESENTS SHALL COME, GREETINGS:

I June L. Dahl, Ph.D., Chairman and custodian of the official records of said Board, do hereby certify that the annexed rule, relating to the addition of Parahexyl to Schedule I, removal of Loperamide hydrochloride from Schedule V, and addition of Triazolam to Schedule IV of Chapter 161, the Uniform Controlled Substances Act was duly approved and adopted by this Board on January 25, 1984.

I further certify that said copy has been compared by me with the original on file in this Board and that the same is a true copy thereof, and of the whole of such original.

IN TESTIMONY WHEREOF, I have hereunto set my hand at the State Capitol in the city of Madison, this 17th day of September, A.D., 1984.

June L. Dahl, Ph.D., Chairman

ORDER OF THE
CONTROLLED SUBSTANCES BOARD
CREATING RULES

Relating to placement of substances in the schedules of the Uniform Controlled Substances Act.

Analysis prepared by the Controlled Substances Board:

According to state law, s. 161.11(4), Stats., if any substance is designated, rescheduled, or deleted as a controlled substance under federal law, the Controlled Substances Board shall take similar action to control or decontrol the substance.

The federal government has altered the scheduling of three substances, including placement of Parahexyl (47 FR 52432) [a synthetic analog of delta-9-tetrahydrocannabinol (THC), an active hallucinogenic ingredient in marijuana] in schedule I, removal of Loperamide hydrochloride (47 FR 49849) (a synthetic antidiarrheal) from schedule V, and placement of Triazolam (47 FR 57693) [a member of the benzodiazepine (minor tranquilizer class of drugs)] in schedule IV.

Pursuant to s. 161.11(4), Stats., the Controlled Substances Board on January 25, 1984, took final action to similarly control and decontrol these substances under state law. In doing so, the Board concurred with and adopted the findings of the federal government with respect to the need to alter the scheduling status of each of the three substances in question. While the Board has and may in the future exercise its authority to require a different level of control over a substance than does the federal government, the Board has no reason to differ with the federal placement of these three substances at this time.

Therefore, pursuant to the authority vested in the Controlled Substances Board by s. 161.11(4), Stats., the Board hereby creates CSB 2.15 Wis. Adm. Code, as follows:

Chapter CSB 2.15 Addition of Parahexyl to schedule I; removal of Loperamide hydrochloride from schedule V; addition of Triazolam to schedule IV.

SECTION 1. Paragraph (mn) of subsection (4), section 161.14, Stats., is created to read:

(mn) Parahexyl

SECTION 2. Paragraph (a) Loperamide hydrochloride of subsection (3), section 161.22, is repealed.

SECTION 3. Paragraph (nm) of subsection (2), section 161.20, Stats., is created to read:

(nm) Triazolam

This order shall take effect on the first day of the month following publication in the Wisconsin Administrative Register.

Dated: September 17, 1984

Gary L. Poulson, Assistant Revisor
Revisor of Statutes Bureau
Wisconsin Administrative Code
411 West, State Capitol
Madison, WI 53702

Dear Gary:

On behalf of the Controlled Substances Board, I am submitting the enclosed ORDER OF THE CONTROLLED SUBSTANCES BOARD CREATING RULES (CSB 2.15) for publication in the next Wisconsin Administrative Register.

It is my understanding from our telephone conversation that there is no statutory provision for an effective date coincident with the publication date of the Register, and that the effective date is the first day of the month following publication in the Register, which in this case will be November 1, 1984.

Thank you for your assistance.

Sincerely,

David E. Joranson
Controlled Substances Policy Specialist
Staff, Controlled Substances Board
Bureau of Community Programs
