

Species	A	B	C
	Green Bay	Lake Michigan	Lake Superior
(a) Lake trout	No open season	No open season	December 1 to September 30, subject to ss. NR 25.06(1)(a) and 25.07(1)(a)
(b) Siscowet	No open season	No open season	At all times in waters greater than 55 fathoms in depth
(c) Whitefish	December 1 to October 25	December 1 to October 25	December 1 to September 30.
(d) Chubs	No open season	April 1 to December 31, subject to ss. NR 25.06(2)(a), 25.07(2)(a) and 25.09	At all times
(e) Yellow perch	July 1 to April 9 except 1. Commencing May 20, 1984, gill nets may be used from May 20 to April 9; 2. From January 1 to April 9 only commercial ice fishing is legal; 3. All to be subject to ss. NR 25.06(2)(b) and 25.07(2)(b)	June 11 to April 9	No open season
(f) Northern pike	May 20 to March 9	No open season	No open season
(g) Alewives, bullheads, burbot, catfish, gizzard shad, suckers, menominees, smelt, white bass	At all times	At all times	At all times
(gm) Carp	No open season except by permit issued under s. 29.625, Stats.	No open season except by permit issued under s. 29.625, Stats.	At all times
(h) Lake herring	No open season	No open season	At all times
(i) Walleye, sauger	No open season	No open season	No open season
(j) Others	No open season	No open season	No open season

(2) SIZE LIMITS. Except as otherwise expressly provided in this chapter, no fish of a length or size less than that specified for each variety of any of the following varieties may be possessed or under control. The measurement of the length of a fish within the meaning of this chapter shall be taken in a straight line in a natural position without manipulation from the tip of the snout to the end of the fully extended tail fin. The measurement of length shall apply without allowance made for the shrinkage of the fish.

Species	A Green Bay	B Lake Michigan	C Lake Superior
(a) Lake trout			17 inches
(b) Siscowet			No size limit
(c) Whitefish	17 inches	17 inches	17 inches
(d) Yellow perch	8 inches in north- ern Green Bay, 7½ inches in southern Green Bay	8 inches	
(e) Walleye	18 inches		
(f) Northern pike	20 inches	20 inches	
(g) Catfish	16 inches	16 inches	
(h) Others	No size limit	No size limit	No size limit

(3) **POSSESSION LIMITS.** Except as otherwise provided, no person may possess species of fish for which there is no open season. The possession limit for species of fish for which an open season is provided and a quota has been established shall be the individual quota established by commercial fishing boards for the person possessing such fish.

History: Cr. Register, September, 1976, No. 249, eff. 10-1-76; emerg. am. (1)(d) and cr. (3), eff. 5-16-79; am. Register, October, 1979, No. 286, eff. 11-1-79; am. NR 25.06 Quotas and catch fees. (1) LAKE SUPERIOR. (a) *Lake trout.* The total allowable annual harvest of lake trout by commercial methods during the open season in Wisconsin waters of Lake Superior shall be determined by the natural resources board based upon recommendations from the department, the U.S. fish and wildlife service and the Great Lakes fishery commission.

1. The total allowable commercial harvest for any license year may not exceed 180,000 pounds of lake trout.

2. That quantity of lake trout to be harvested by non-Indian licensed commercial fishers from the waters of Lake Superior may not exceed 80,000 pounds annually.

3. Eligible members of the Red Cliff and Bad River bands of Lake Superior Chippewas as determined by the respective tribal councils may harvest under permits issued by their respective tribal councils 100,000 pounds of lake trout from Wisconsin waters of Lake Superior annually. Copies of the permits will be provided to the department at the time of issue.

4. All lake trout and siscowet shall be tagged in accordance with sub. (3).

(b) *Harvest of fish from Lake Superior for home use by Lake Superior Chippewas.* Members of the Bad River and Red Cliff bands of Lake Superior Chippewas may harvest species of fish for which there is an open season during said season, under home use permits issued by their respective tribal councils.

1. Home use permits will be issued to the heads of households only, and only one permit will be issued to an individual.

Register, March, 1985, No. 351

2. Permittees are restricted to the use of no more than 350 feet of gill net and sale of fish pursuant to these permits is prohibited. These fishing activities shall be restricted to waters adjacent to the reservations of the Bad River and Red Cliff bands.

(2) LAKE MICHIGAN AND GREEN BAY. (a) *Chubs*. The total allowable annual commercial harvest of chubs in Wisconsin waters of Lake Michigan shall be determined by the natural resources board based on recommendations from the department.

1. The total allowable commercial harvest for any license year may not exceed 3,000,000 pounds, not including incidental catches allowed elsewhere in this chapter.

2. No more than 350,000 pounds of the total allowable commercial harvest for any license year may be taken in the northern chub fishing zone.

3. No more than 2,550,000 pounds of the total allowable commercial harvest for any license year may be taken in the southern chub fishing zone.

4. The department reserves 100,000 pounds of the total allowable annual commercial harvest of chubs to be used for special assessment.

(b) *Yellow perch*. The total allowable annual commercial harvest of yellow perch in Wisconsin waters of Green Bay shall be determined by the natural resources board based on recommendations from the department.

1. The total allowable commercial harvest in Green Bay for any license year may not exceed 350,000 pounds.

(3) TAGGING OF FISH. All fish species or subspecies required to be tagged in accordance with this section shall be tagged with tags furnished or authorized by the department before being brought to any dock or shore when fishing in open water and before being transported when fishing with nets under ice. Such fish shall be individually tagged.

(b) Untagged fish may not be left unattended.

(c) Untagged fish may not be transferred between watercraft.

(d) Tags shall be locked and remain attached to fish until prepared for final consumption. Tags shall remain with smoked or filleted fish until sold to final consumers. Commercial fishers of the outlying waters or licensed wholesale fish dealers shall not be considered final consumers and must be in possession of tags for smoked and filleted fish.

(e) Tags provided or authorized by the department for tagging fish may not be transferred.

(f) No person may possess or use tags furnished or authorized by the department for tagging fish which have been modified or tampered with.

(4) ALLOCATION. The harvest quotas established shall be allocated to individual commercial fishing licensees in accordance with s. NR 25.07.

(5) CATCH FEES. Catch fees to be charged for commercial harvest of fish species whose populations are sustained or supplemented through stocking shall be determined and assessed as follows:

(a) The department shall determine catch fees annually for each fish species population subject to this subsection and shall provide this information upon request by February 15 of each year.

(b) The catch fee for a given fish species population shall be equivalent to the department's direct cost in providing those fish for commercial harvest.

(c) Catch fees shall be charged on a per fish harvested basis.

(d) Catch fees shall be collected through the sale of fish tags furnished or authorized by the department in accordance with sub. (3) at offices indicated on the quota applications provided under s. NR 25.07 (3). The total number of tags that may be purchased by an individual licensee shall be equivalent to that licensee's individual catch quota as determined in accordance with s. NR 25.07.

(e) Unused fish tags purchased in accordance with par. (d) shall be returned by the licensee to the department at the office where purchased within 15 days of the end of the open season for that fish species population. The department shall return the catch fees paid by that licensee for those unused fish tags.

NR 25.07 Individual licensee catch quotas. (1) LAKE SUPERIOR. The allotment of harvest quotas as established in s. NR 25.06 (1) to individual licensed commercial fishers on Lake Superior shall be by the Lake Superior commercial fishing board upon application in accordance with sub. (3), and as follows:

(a) *Lake trout.* 1. Each licensed commercial fisher shall receive an equal share of the annual lake trout harvest quota established under s. NR 25.06 (1) (a) 2.

2. Allocation of the lake trout quota to individual licensees shall be by issuance of appropriate tags by the department. The number of tags issued to each individual licensee shall be based on the average dressed weight of individual lake trout commercially harvested during the previous year.

(2) **LAKE MICHIGAN AND GREEN BAY.** The allotment of harvest quotas as established in s. NR 25.06 (2) to individual licensed commercial fishers on Lake Michigan and Green Bay shall be by the Lake Michigan commercial fishing board upon application in accordance with sub. (3), as follows:

(a) *Chubs.* 1. Chub fishing permits and individual licensee catch quotas shall be issued to all applicants meeting the following criteria:

a. Presently licensed commercial fishers;

Register, June, 1985, No. 354

b. Ownership of a boat of 35 feet in overall length or longer which shall be used by the applicant in fishing under their chub permit;

c. The boat shall be equipped with a powered net lifter.

2. All permittees under subd. 1. who select the northern chub fishing zone under sub. (3) (d) shall be subject to the following limitations:

a. In the northern chub fishing zone, no more than 125,000 pounds of chubs may be harvested during each of the 3-month periods encompassed by the months of July, August and September, and the months of October, November and December, and for the period from April 1, 1983 to July 1, 1985, no more than 100,000 pounds of chubs may be harvested during the 3-month period encompassed by the months of April, May and June.

Note: This subpar. allows the harvest of chubs in the northern chub fishing zone during the months of April, May and June for a period not to extend beyond July 1, 1985. During that period, the fishery in the zone will be closely monitored and evaluated. If found necessary, the department will propose appropriate amendments prior to July 1, 1985.

b. The department shall notify all permittees to cease fishing upon receipt of information that 85% of the 3-month quota as established in subpar. a. has been harvested except that all nets in the water shall be lifted under s. NR 25.09 (2) (a) 9., and the legal fish therein harvested.

c. The quota for the following 3-month period shall be adjusted based on the actual reported catch of the previous periods within a given license year, except that no more than 100,000 pounds of chubs may be harvested during the 3-month period encompassed by the months of April, May and June.

3. All permittees under subd. 1. who select the southern chub fishing zone under sub. (3) (d) shall be subject to the following limitations:

a. In the southern chub fishing zone, 90% of the harvest quota established in s. NR 25.06 (2) (a) 3. shall be allotted to 32 individual permittees as follows:

Fisher Rank	Percent of Allotted Quota
1-5	3.94
6-10	3.64
11-15	3.34
16-20	3.04
21-25	2.74
26-30	2.44
31-32	2.15

1) The fisher rank of each individual permittee shall be based on their individual authorized regular season chub harvest from April 1, 1981 through December 31, 1982. This harvest determination shall be based on the permittee's reported catch during that period adjusted to the legal amount under subd. 1. b. 4) and 5), Register, June, 1981, No. 306. The highest resulting number shall be assigned the fisher rank of 1, and the following numbers assigned sequential ranks until the 32 individual quota allotments are all assigned. If there are any ties for a given fisher rank, a public drawing will be conducted by the department and the permittee selected will receive that fisher rank. The permittee or permittees not selected will go to the next lower fisher rank. Additional drawings

will be conducted as needed to resolve all ties. Any remaining permittees not receiving individual quota allotments shall fish under the provisions of subpar. b.

2) No individual quota allotted under subpar. a. may exceed 70,000 pounds, until each individual allotted quota equals 70,000 pounds. When the quota allotted to an individual permittee reaches 70,000 pounds, any additional harvest quota shall be divided equally among the remaining individual allotted quotas not equalling 70,000 pounds. When all individual allotted quotas each equal 70,000 pounds, for a total of 2,240,000 pounds, any further increases shall be divided equally among the individual quota allotments. Quota allotments shall be made in whole pound increments.

Note: If 90% of the harvest quota established in s. NR 25.06 (2) (a) 3. equaled 1,890,000 pounds, permittees in fisher rank 1-5 would have individual quotas of 74,466 pounds. The excess over 70,000 pounds for each would be totalled, being 22,300 pounds, and divided equally among the remaining 27 individual quotas, 826 pounds each.

3) Whenever a vacancy occurs in the number of permittees allotted an individual quota, those permittees ranking below the vacancy shall automatically advance in rank to fill the vacancy. Any vacancy at fisher rank 32 may be filled by the permittee fishing under the provisions of subpar. b. who has the highest total reported regular season chub harvest for the previous 2 license years.

b. In the southern chub fishing zone, 10% of the harvest quota established in s. NR 25.06 (2) (a) 3. shall be allotted to permittees who do not receive individual allotted quotas under subpar. a.

1) No more than 10% of this allotment may be taken by any one permittee during the license year.

2) No permittee may take more than 40% of the maximum established in subpar. b. 1) during any of the 3-month fishing periods encompassed by the months of July, August and September, the months of October, November and December, and the months of April, May and June respectively.

3) Whenever the total amount of chubs allocated under subpar. b. 1) does not equal the amount provided in subpar. b., the surplus shall be divided equally among permittees under subpar. b.

c. No more than the amount of one maximum individual quota allotted under subpar. a.1) and 2) may be taken on any one boat in the southern chub zone during the license year except as provided under subpar. d. If it is necessary to transfer a chub fishing permit to another boat, this limit shall be applied in total on the boats involved.

d. Any permittee with an individual chub quota allotment under subpar. a.1) and 2) may transfer up to 50% of their allotted chub quota to another permittee with an individual chub quota allotment under subpar. a.1) and 2).

1) Such a quota transfer shall be in effect only during the current license year, and shall be subject to sub. (6).

2) The total amount of chubs harvested from the boat designated under subd. 1.b. by the transferor may not exceed the amount remaining in that individual chub quota allotment after this transfer.

3) This subparagraph shall be in effect until January 1, 1986, and shall be reviewed while in effect by the Lake Michigan commercial fishing board.

e. The department shall notify permittees to cease fishing upon receipt of information that 85% of their allotment as established in subds. 3.a. and b. has been harvested except that all nets in the water shall be lifted under s. NR 25.09 (2) (a) 9., and the legal fish therein harvested.

4. Each permittee shall submit weekly fishing reports on forms provided by the department. The weekly fishing reports shall be mailed to the department at the address provided on the forms and shall be post-marked no later than the Monday following the weekly report period during the open season. Weekly fishing reports shall be filed by each permittee regardless of whether the permittee fished or not.

(b) *Yellow perch*. 1. Green Bay yellow perch fishing permits and individual licensee catch quotas shall be issued to all applicants:

a. Holding a valid commercial fishing license issued under s. 29.33, Stats., and

b. Who reported a commercial harvest of yellow perch legally taken while operating under their commercial fishing license issued under s. 29.33, Stats., from the Wisconsin waters of Green Bay between January 1, 1979 and December 31, 1982, and

c. Who applied for and received a Green Bay yellow perch fishing permit for the license year preceding the license year for which the permit application is presently being made, unless unavoidable circumstances prevented application for or receipt of that previous permit. Those circumstances shall be reviewed by the Lake Michigan commercial fishing board which in these cases shall approve or deny the pending permit application.

d. Any licensee who fails to apply for and receive a permit under this paragraph is not eligible for future Green Bay yellow perch fishing permits under this paragraph until the provisions of subd. 2.c. are applicable.

2. The individual licensee catch quota issued to each permittee shall be determined as follows:

a. Each permittee shall receive a percentage of the total allowable annual commercial harvest as established by s. NR 25.06 (2) (b) 1. That percentage shall be calculated by dividing the total commercial harvest of yellow perch from the Wisconsin waters of Green Bay reported under that license during the period from January 1, 1979 through December 31, 1982, by the overall total reported commercial harvest of yellow perch from those waters during that period, and multiplying the result by 100. The resulting percentage shall be rounded off to 2 decimal places or to hundredths of a percent. Any resulting percentage of less than 0.01% shall be considered 0.01% for allocation of an individual licensee catch quota. The individual licensee catch quotas will be allocated in whole pound increments.

Note: If during the base catch period (January, 1979 — December 1982), a permittee reported catching a total of 20,200 pounds of perch and the overall total reported perch harvest was 1,600,000 pounds, that permittee's individual license catch quota percentage would be

1.26%. If the total allowable annual commercial harvest was set at 100,000 pounds, that permittee's individual licensee catch quota would be 1,260 pounds.

b. If the number of eligible permittees is inadequate to utilize the total allowable commercial harvest as established by s. NR 25.06 (2) (b) 1. and as allocated under subpar. a., the surplus will be divided among the eligible permittees based on the percentages calculated for each permittee under subpar. a.

c. Any future increase of the total allowable annual commercial harvest as established by s. NR 25.06 (2) (b) 1. that exceeds 521,285 pounds will be divided equally among all licensed commercial fishers who apply for Green Bay yellow perch fishing permits, regardless of past yellow perch harvest records.

3. Fishing under permits issued under subd. 1. may be done from any boat listed on the permittee's commercial fishing license or through the ice.

4. Each permittee shall submit weekly fishing reports on forms provided by the department.

a. The weekly fishing reports shall be carried while fishing under the permit and the catch information for that day's fishing shall be recorded on the weekly fishing report before bringing the catch to dock or shore. This requirement does not include the weighed total catch.

b. The weekly fishing reports shall be mailed to the department at the address provided on the forms and shall be postmarked no later than the Monday following the weekly report period during the open season. Weekly fishing reports shall be filed by each permittee regardless of whether the permittee fished or not.

5. Based on the information received in the weekly fishing reports, the department shall notify individual permittees when 75% of their catch quota, as allocated under subd. 2., has been harvested.

(3) APPLICATION. (a) Applications for individual licensee catch quotas and fishing permits under this section shall be made annually on forms provided by the department.

(b) Applications, if mailed, shall be postmarked no later than April 30 preceding the license year for which application is being made. If applications are submitted to the department other than by mail, they shall be received as indicated by a date stamp of the department, no later than April 30 preceding the license year for which application is being made.

(c) The applications shall be reviewed by the department and approved or denied no later than June 15 preceding the license year for which application is being made, unless there are circumstances that may prevent the applicant from being a licensed commercial fisher on July 1 of the license year for which application is being made. In those cases, the applicant shall be notified of the approval or denial of the application in conjunction with the notice of approval or denial of the license authorizing commercial fishing on the outlying waters.

(d) Applicants for Lake Michigan chub fishing permits and individual licensee catch quotas under sub. (2) (a) 1. shall select and designate on their application either the northern chub fishing zone or the southern chub fishing zone as the zone they wish to fish chubs in.

(4) **ASSESSMENT QUOTA.** Fish harvested under contract for the department for assessment purposes may not be considered part of nor deducted from an individual licensee catch quota.

(5) **PERIOD OF VALIDITY.** Individual licensee catch quotas and fishing permits determined and issued in accordance with this section shall be issued on a license year basis. They shall be valid only during the open season for the species of fish subject to the harvest quota and only while the quota holder or permittee holds a valid license authorizing commercial fishing in the waters to which the quota applies.

(6) **REINSTATEMENT OF QUOTA RIGHTS.** If the commercial fishing license of a quota holder is revoked under s. 29.33, Stats., the right to that quota and ranking, if any, shall be reinstated upon reinstatement of the revoked license and upon proper application.

NR 25.08 Transfer of individual licensee catch quotas. Individual licensee catch quotas allotted under s. NR 25.07 (1) (a), (2) (a) 3.a., and (2) (b) may be transferred by the licensee receiving the quota allocation to another valid licensee authorized to engage in commercial fishing in the waters to which the quota applies, who meets all criteria for receiving such a quota other than previous fishing history, subject to the conditions stated in this section.

(1) Application for individual licensee catch quota transfers shall be made on forms provided by the department.

(2) All or part of an individual licensee catch quota allotted under s. NR 25.07 (2) (a) 3.a. and (2) (b) may be permanently transferred by the quota holder. Such a transfer may occur in conjunction with the transfer of the quota holder's valid license authorizing commercial fishing in the outlying waters under s. NR 25.04.

(3) A licensee may designate on the application for their individual licensee catch quota a person to whom the licensee wishes that quota to be transferred in the event of the licensee's death or incapacity. This designation may be changed during the license year as requested in writing by the licensee. The designated person shall meet the criteria under this section for the transfer to occur.

(a) In the absence of such a designation, or a qualified transferee, or a transferee capable of accepting the transfer under this section, members of the immediate family of the licensee who meet the eligibility require-

ments of this section shall be offered the quota. The offer shall be made by the department in the following order:

1. Spouse;
2. Children, eldest first, then in order of age;
3. Parents;
4. Siblings, eldest first, then in order of age.

(b) Any transferee under this subsection who relies on commercial fishing gear of a deceased licensee to meet the eligibility criteria of this chapter, but such gear has not been distributed or assigned in accordance with appropriate probate procedures shall have 2 years from the date of acceptance of the transfer to meet those eligibility requirements. During that time, the quota shall be held in abeyance by the department.

(c) All offers of transfer under this subsection shall be accepted within 30 days from the date of offer or be considered refused.

(d) The provisions of this subsection shall apply to quotas granted for license year July 1, 1983 to June 30, 1984 and subsequent license years.

4. Individual licensee catch quotas may not be transferred if the quota holder or the recipient are charged with a violation of outlying waters commercial fishing laws under which conviction could cause revocation or suspension of their respective commercial fishing license. This subsection shall apply from issuance of the citation or complaint until the matter is adjudicated or dismissed.

(5) Individual licensee catch quota transfers shall be reviewed and approved or denied by the commercial fishing board of the body of water for which the quota applies. Such review and approval or denial shall occur no later than the next regular quarterly meeting of the appropriate commercial fishing board.

History: Cr. Register, January, 1985, No. 349, eff. 2-1-85.

NR 25.09 Commercial fishing gear. Licensed commercial fishers conducting commercial fishing operations may only use the following gear subject to the conditions stated in this section and in the areas designated:

(1) LAKE SUPERIOR. (a) *Gill nets*:

1. With a mesh size of not more than 1¾" stretch measure.
