Ath 3.14 Scoring. (1) **MARK SCORE AT END OF EACH ROUND.** Judges and referees shall mark their cards at the end of each round.

(2) **CRITERIA.**

(a) In accordance with the rules, the decisions of the referee and judges are based on 4 items to be scored in the following order:

1. Clean hits.
2. Effective aggressiveness.
3. Defense.
4. Ring generalship.

(b) Sportsmanship should be taken into consideration by the officials and the condition of the boxer at the end of the bout.

(c) The items listed do not have the same scoring value. Clearly, a man who hits his opponent and is aggressive throughout the contest is entitled to more credit than the one who is merely defensive and shows ring generalship.

(3) **METHOD; TEN POINT MUST SYSTEM.** The method of scoring by referee and judges for professional boxing matches and exhibitions is as follows:

(a) The winner of each round shall receive 10 points. The loser of each round shall receive a score of 1 to 9 points. If a round is even, each contestant shall receive 10 points. Ten points are scored for the boxer winning the round by a bare shade while 9 points are scored for the loser.

(b) When the round is a clear victory, 10 points shall be credited to the winner, 8 points to the loser.

(c) If a round is one-sided, the winner shall receive 10 points and the loser may receive 7 points or less, depending upon the number of knockdowns and the margin of punishment inflicted upon the loser of the round.

(d) A penalty is imposed upon the boxer who commits a foul. The referee shall be the sole judge when a foul is detected and shall determine the number of points to be deducted. He must give serious consideration as to whether or not the foul was deliberate and to the damaging effect of the foul. He may deduct 1, 2 or 3 points, and he

will notify each judge and the commission of the number of points he has penalized the boxer. It will be the duty of each judge to penalize the boxer this number of points. Deduction of points for fouls shall be made immediately upon the termination of the round in which the foul was committed. For example, if a boxer has won a round he normally would be entitled to 10 points, but if he committed a foul for which the referee has penalized him 2 points, he will receive only 8 points. If a boxer has lost a round where he received 9 points and the referee has penalized him 2 points, he then would receive 7 points. There must be a notation made on the score card at the round in question of the foul penalty.

(e) The boxer receiving the decision of 2 or more officials shall be declared the winner, but the bout is a draw if 2 or more officials call it a draw.

(4) **Fouls.** The following shall be considered fouls:

(a) Hitting below the belt.

(b) Hitting an opponent who is down or who is getting up after being down.

(c) Holding an opponent with one hand and hitting with the other hand.

(e) Butting with the head or shoulder or using the knee.

(f) Hitting with inside or butt of the hand, the wrist or the elbow.

(g) Hitting or "flicking" with the open glove.

(h) Wrestling or roughing at the ropes.

(i) Purposely going down without being hit.

(j) Striking deliberately at that part of the body over the kidneys.

(k) Use of the pivot, backhand and rabbit punch.

Ath 3.15 Knockdowns. (1) **DEFINITION.** A contestant shall be deemed "down" when:

(a) Any part of his body other than his feet is on the floor; or

(b) He is hanging helplessly over the ropes; or

(c) He is rising from a "down" position.

(2) **TEN SECONDS TO GET UP.** If contestant fails through weakness, or is knocked down, he must get up unassisted, 10 seconds being allowed him to do so. Should the contestant who is down arise before the count of 10 is reached and again go down without being hit, the referee shall continue to keep counting where he left off.

(3) **OPPONENT TO NEUTRAL CORNER.** The other contestant must return to the furthest corner and remain there until his opponent can get up. The referee may stop counting at any time if this is not complied with. The count, however, is to continue where it left off.

(4) **MANDATORY 8 COUNT.** When a boxer is cleanly knocked down in the opinion of the referee, he shall be required to take a count of "8", whether or not he has regained his feet before the count of "8" has been reached. This rule shall apply to amateur and professional boxers.

(5) **KNOCKED OUT OF RING.** If a contestant who has been knocked or has fallen out of the ring during a contest, fails to return immediately, the referee shall count him out as if he were "down", allowing 20 seconds.

(a) The commission, when it deems is necessary, may assign a knockdown timekeeper.

(b) When a contestant is down or goes down, the knockdown timekeeper shall immediately arise and count off the seconds audibly as they elapse, indicating each count by a downward motion of the hand.

(c) The referee shall see first that the opponent retires to the farthest corner and then, turning to the knockdown timekeeper, pick up the count, announcing the seconds to the boxer on the floor.

(d) Should the boxer on his feet fail to stay in the corner, the referee shall request the knockdown timekeeper to cease counting until he has so retired.

(e) If a round shall terminate during a knockdown, the knockdown timekeeper shall stop counting and announce the count.

(7) **PHYSICIAN MUST ATTEND CONTESTANT KNOCKED OUT.** When a boxer has been knocked out he shall not be touched or moved except by direction of the ringside physician. He shall personally attend the fallen boxer.

Ath 3.16 Failure to answer bell. (1) **CONTESTANT LEAVING RING.** Should a contestant leave the ring during the one-minute period between rounds and fail to be in the ring when the gong rings to resume boxing, the referee shall declare his opponent the winner.

(2) **INABILITY TO ANSWER BELL.** Should a contestant finish any one round of a contest and fail for any one of numerous reasons such as cuts, injuries or admission of overwhelming superiority to answer the bell for the succeeding round, the proper termination of the bout is by a technical knockout in the round for which he failed to answer the bell.

For instance, both contestants have finished round 6. One of them fails to answer the bell for round 7 or indicates to the referee that he will not answer the bell. It is a "TKO-7."

Ath 3.17 Timekeeper. (1) **DUTIES.** (a) He must be seated outside the ring, close to the gong.

(b) He shall indicate the beginning and ending of each round by striking the gong.

(c) Ten seconds before the beginning of each round he shall give warnings to the seconds of contestants by the blowing of a whistle, when seconds must immediately vacate the ring.

(d) Should a glove come off or become untied during a contest, he shall take time out while such adjustments are being made.

Ath 3.18 Seconds. (1) **NUMBER.** In all matches or exhibitions not more than 3 seconds shall attend or assist a contestant, and no more

than 2 will be permitted to enter the ring, and the official inspector shall enforce this rule.

(2) **DUTIES.** (a) Seconds shall leave ring enclosure at the sound of timer's whistle 10 seconds before the beginning of each round. They shall leave ring platform and remove all obstructions, buckets, stools, etc., promptly when the gong sounds for the beginning of each round.

(b) Fans may be used between rounds, the swinging of towels being prohibited.

(c) Violations of the above provisions shall be followed by the ejection of offenders from the ring corner, and may result in the disqualification of their principal by the referee.

(3) **RESTRICTIONS.** (a) There shall be no coaching by the seconds or any other person, and the seconds must remain seated and silent during the round and must not rise from their seats until the bell announces the termination of the round.

(b) The seconds shall not throw or splash any water on the boxer during the contest or between the rounds, or throw or cast a towel in the ring as a signal of defeat.

All licensed clubs shall not employ any announcer until he shall have at first obtained the necessary permit from the commission.

The ropes must not be less than one inch in diameter and must be wrapped in soft material. The floor of the ring shall extend beyond the lower ropes for a distance of not less than 2 feet. Hooks must be properly padded and the ring floor padded at least 2 feet outside the ropes, and extend over the edge of the platform with a felt or soft material not less than 1½ inches in thickness, under a canvas covering to be approved by the commission.

When the floor of the boxing ring is not elevated at least $3\frac{1}{2}$ feet above the floor of the building, there shall be a clear space of 4 feet on all sides of the ring from the posts.

(2) GONG. A gong, not less than 12 inches in diameter, shall be fastened to one of the posts of the ring for the timekeeper; such bell must not be on a post in the corner occupied by a contestant and his seconds.

(2) DRESSING ROOMS RESTRICTED. Only contestants, managers, physician, promoter, commission inspectors and representatives of the press will be permitted in dressing or examination rooms.

Ath 3.23 Commission controls all officials at all contests. In all boxing or sparring matches or exhibitions, contestants, referee, timekeepers, seconds, managers and examining physician shall at all times be under the control and direction of the commission.

Ath 3.24 Contest may be stopped by commission or referee in certain cases. If the referee or the commission shall decide, at any time, that either contestant did not enter into a contest in good faith, or if the commission or said referee discovers at any time that either contestant is not performing his part in good faith or is guilty of persistent foul tactics or of faking or of violating any rule of the commission, said referee or commission may stop said contest.
