and 45.11(9) pertaining to housekeeping  
modifications to hunting, trapping, closed areas,  
refuge and state managed land regulations.

G-49-85

Analysis Prepared by Department of Natural Resources

1. Permit application deadlines are standardized for uniformity purposes.
2. Deer gun season frameworks for zones "B" and "F" and recodified for clarity and to correct rule oversights for Pepin and Pierce counties, certain state parks and unit 61C.
3. Special bow deer hunting restrictions for Chambers Island are eliminated responding to local support for creating forked buck hunting opportunities equal to gun hunter privileges. This resolves problems identified during 1985 legislative hearings.
4. Clarifying definitions and titles are created.
5. Type of game restriction authority is clarified for the Sandhill Wildlife Demonstration Area.
6. Fisher trapping restrictions are clarified by using county registration rather than units.
7. Trap placement restrictions are standardized at 15 feet from beaver houses and dams. Using 50 feet at certain times of year serves no useful purpose and is confusing to trappers.
8. Closed areas and refuges are modified or created in Adams, Brown, Clark, Fond du Lac, and Marathon counties. Local public support has been obtained.

9. Scientific collector restrictions are clarified.
  10. The canoe campsite definition and motor vehicle use on state lands are clarified.
