NR 20.03 Season tables; open and closed seasons, size and bag limits and measurements. (1) The open seasons specified in the following table apply to fishing in open waters and fishing through the ice, except that the department shall close the season for fishing through the ice in any inland waters when it finds after scientific investigation and study that continued fishing through the ice in specified waters would result in a depletion of the supply of game fish and that a closed season is necessary to conserve the fish supply and insure the citizens of this state continued opportunities for good fishing. The closed seasons shall be put into effect by posting a notice on or in the vicinity of the shore of the waters affected. Posting is deemed by the department to be the most feasible way of notifying the public that a closed season is in effect. The closed seasons shall remain in full force and effect so long as the waters are covered with ice and so long as posting is continued. The department may also, following scientific investigation and study, establish bag limits and size limits on the individual inland waters when it finds that the taking of fish will aid in management of the fishery and insure the citizens of this state additional opportunities for good fishing. Such special regulations shall become effective only after public informational meetings are held. The department may also establish an urban fishing program by posting the open and closed seasons on specified waters. For open seasons in specified waters see s. NR 20.04. The possession limit for each species of fish, except trout as specified in sub. (5), shall be double the daily bag limit specified in this chapter except that no person may have in possession or under control more than the daily bag limit while on the ice or waters or while fishing in the state of Wisconsin unless the person holds a permit issued by the department under this section and s. NR 19.05 for restocking of fish caught in a fishing tournament or holds a permit or license which authorizes possession of a greater number under s. 29.135, 29.513, 29.52 or 29.535, Stats. The measurement of all fish taken shall be in a straight line from the tip of the snout to the utmost end of the tail fin fully extended.

(7) REGULAR SEASON DROUGHT RESTRICTIONS FOR TROUT IN CERTAIN WATERS. (a) *Zero bag limit during regular season.* Notwithstanding the bag limits for trout set out in sub. (5) (c) and Table 1, during the open season beginning May 4, 1991 through September 30, 1991, the daily bag limit for trout is zero fish in the waters of Columbia, Florence, Forest, Grant, Iowa, Lafayette, Langlade, Lincoln, Marathon, Marinette, Menominee, Oconto, Oneida, Richland, Sauk, Shawano and Vilas counties. All trout caught shall be immediately returned to the water. This paragraph does not apply to Wisconsin - Michigan boundary waters, to streams that flow into Lake Michigan from their mouths upstream to the first dam or lake, or to inland lakes and ponds which contain trout and which are not natural springs or spring ponds.

(b) *Gear restrictions during regular season.* Notwithstanding sub. (5) (e) and Table 1, beginning May 4, 1991 through September 30, 1991 no person may take or catch trout or fish for trout in the waters to which par. (a) applies by any means other than the use of an artificial fly by the method commonly known as "fly fishing" or with the use of artificial lures.

NR 20.035 Alternate size and bag limits. (1) PURPOSE. Notwithstanding any provision of ch. NR 21, 22, 23 or this chapter, for all or part of any inland, boundary or outlying water, the department may apply the alternative size limits, bag limits or both under this section for fish species identified in this section in order to provide for better use and management of the fishery resource of the water to which the proposed alternate limit would apply.
