(17) After the first half of the twin trifecta and prior to the running of the second half of the twin trifecta, if the total number of scheduled starters become 6 or less, the second half race shall be cancelled. (c) After the maximum value of the jackpot pool has been reached and is capped, the net distributable pool of that performance's wagers on the twin trifecta will be distributed equally to holders of first half tickets correctly selecting the officially declared first 3 finishers, irrespective of any second half winning tickets.

(d) If there is no exact winning exchange ticket issued in the first half of the twin trifecta wager after the jackpot pool has been reached and capped, the net distributable pool of the total monies wagered on the twin trifecta will be distributed per sub. (7) (a) to (f).

(f) On the final program of the race meeting for the calendar year, if the jackpot pool has been reached and capped, it shall be distributed per sub. (7) (a) to (d).

**RACE 9.13 Pick (N) wagering.** (1) Each person participating in a Pick (N) pool shall select the winning animal in (N) consecutive races designated by the association. The number of contests so designated may be 4, 5, 6, 7, 8, 9 or 10. Once an association has decided the number of contests comprising the Pick (N), it may not change that number in the middle of a meet without prior approval of the board.
