

Auburn and Rock Prairie subzones which shall be treated as separate management subzones for other purposes.

(10) "Firearm season" means an open season for hunting with any of the following firearms loaded with a single slug or ball: rifle, muzzle-loader, shotgun or handgun for deer or bear hunting described in s. NR 10.09 (1) (c) 1. c..

(10m) "Fully automatic firearm" means any firearm which continues to fire or is manufactured to continue to fire as long as the trigger is depressed.

Note: This definition does not include a semi-automatic firearm which fires a single shot with each pull of the trigger, then ejects the spent cartridge case and reloads without effort on the part of the shooter.

(13) "Liquid" means a substance, neither solid or gaseous, that flows freely and takes the shape of its container at a temperature of 70°F.

(14) "Liquid scent" means any nonsolid material except honey.

(15) "Migratory game birds" means any bird which is migratory and on which an open season has been prescribed in this chapter and belonging to one of the following families:

(a) *Anatidae* (wild ducks, geese and brant),

(b) *Rallidae* (rails, coots and gallinules),

(c) *Scolopacidae* (woodcock and Wilson's snipe (jacksnipe)).

(16) "Molest" means any activity which results in physical damage or destruction of an object.

(17) For the purpose of hunting deer and bear, "muzzle-loader" means any smoothbore muzzle-loading firearm of not less than .45 caliber and any rifled muzzle-loading firearm of not less than .40 caliber, discharged from the shoulder.

(18) For the purpose of hunting wild animals other than deer and bear, "muzzle-loader" means any caliber of any muzzle-loading firearm discharged from the shoulder.

(19) "Nontoxic shot" means steel shot and copper, nickel, zinc chloride and zinc chromate plated steel shot with the plating not exceeding .0002 inches or 1% or less of shot by weight.

(19m) "Openly exposed" means to view by a person in a passing vehicle.

(20) "Open water" means any water beyond a natural growth of vegetation rooted to the bottom and extending above the water surface of such height as to offer whole or partial concealment for the hunter. Dead stumps and dead trees in water do not constitute a natural growth of vegetation.

(21) "Permanent abode" means a person's principal or ordinary home or dwelling place as distinguished from a temporary abode.

(22) "Possession limit" means the maximum number of a game species which may be reduced to a person's possession in 2 days or more.

(23) "Preservation facility" means any permanent abode, cold storage facility, locker plant, taxidermy establishment, hunting club or place of business which receives or possesses any game belonging to another person for the purposes of picking, cleaning, freezing, processing, storage or shipment.

(23m) "Shotgun" means a smoothbore barrelled firearm designed to shoot pellets. Rifled shotgun barrels of at least 18" in length are considered to be shotguns for the purpose of hunting deer or bear if they fire a single projectile and are of the following gauges: 10, 12, 16, 20, 28.

(24) "Shotgun season" means an open season for hunting with any of the following firearms, as provided in s. NR 10.09, loaded with a single slug or ball:

- (a) For hunting deer, muzzle-loader, shotgun and handgun; or
- (b) For hunting other game, muzzle-loader or shotgun.

(25) "Sight exposed bait" means any bait which can be seen from above the bait.

(25e) "Snare" means a non-spring activated noose used for catching furbearers.

(25m) "Tag authorized for use on the type of deer killed", for purposes of s. 29.40 (2), Stats., means a tag issued to the hunter killing the deer or an individual satisfying the provisions of s. 29.405, Stats., which, based on the approvals of the person tagging the deer, is valid for the type of deer killed.

(26) "Temporary abode" means a transient place of abode or dwelling such as a hunting club, or any clubhouse, cabin, tent, or trailer used as a hunting club, or any hotel, motel or roominghouse used during a hunting trip.

(27) "Unforked antler" means a polished antler consisting of a single spike without branches or tines.

(29) "Water set" means any trap which is set or staked in such a manner as to permit the trap or trapped animal to reach water at any point.

(30) "Waterfowl" means any migratory game bird of the family *Anatidae* including wild ducks, geese and brant.

(31) "Wild turkey hunting zone" means a zone established in s. NR 10.29.

- (1) Opossum, skunk and weasel.
- (2) Starlings, English sparrows, coturnix quail and chukar partridge.
- (3) Any other wild animal not specified in this chapter.

Register, January, 1994, No. 457

(a) *Zone restrictions.* On any land within the Horicon intensive management subzone established in s. NR 10.31 (5) and on private land, unless leased by the department for public hunting, within the Theresa zone established in s. NR 10.31 (5), no person may hunt geese except from a blind unless they are a disabled person located no more than 20 feet from the blind and in possession of a class A permit issued by the department.

(b) *Hunter limits.* No more than 2 hunters may occupy any blind at one time nor may any person hunt waterfowl from a blind placed within 200 yards of any other blind occupied by one or more waterfowl hunters or within 100 yards of the property boundary on which the blind is located.

(c) *Game retrieval.* Downed game birds may be retrieved outside blinds with the aid of guns and dogs or by hand.

(5) **TAKING METHODS.** No person shall hunt any migratory bird:

(a) *Guns and devices.* With a trap, snare, net, rifle, pistol, crossbow other than in s. 29.104, Stats., swivel gun, punt gun, battery gun, machine gun, fishhook, poison, drug, explosive, stupefying substance or shotgun of a larger bore than a no. 10 gauge.

Note: The s. 29.104, Stats., reference disabled persons under department permit to hunt any migratory bird on which an open season is established in s. NR 10.01 (1) with crossbows meeting s. 29.104., Stats., standards.

(b) *Shotgun capabilities.* With any automatic-loading or hand-operated repeating shotgun capable of holding more than 3 shells the magazine of which has not been cut off or plugged with a one-piece filler incapable of removal without disassembling the gun so as to reduce the capacity of said gun to not more than 3 shells at one time in the magazine and chamber combined.

(c) *Legal means.* By any means other than a shotgun fired from the shoulder or a bow and arrow, or by falconry.

(d) *Non-toxic shot requirements.* While hunting waterfowl and coot within any area of the state, no person may:

1. Take, catch, kill or pursue waterfowl and coot with any shotshell loaded with any material other than nontoxic shot.

2. Possess any shotshell loaded with any material other than nontoxic shot.

Note: Muzzle-loading firearms are not restricted by this rule because shotshells are not part of their mechanism.

(6) **TAGGING.** No person may give, put or leave migratory game birds at any place, other than at that person's permanent abode, or in the custody of another person unless the birds are tagged individually or collectively with tags bearing the following information:

- (a) The hunter's signature,
- (b) The hunter's address,
- (c) The total number of birds tagged, by species, and
- (d) The dates the birds were killed.

Note: Tagging is required if the birds are being transported by another person for the hunter, or if the birds have been left for cleaning, storage (including temporary storage), shipment, or taxidermy services.

(7) **DRESSING.** No person may completely dress any migratory game bird and then transport the bird from the field. The head or one fully feathered wing shall remain attached to all migratory game birds being transported from the field to the person's permanent abode or a preservation facility.

(8) **SHIPMENT.** No person may ship migratory game birds unless the package is marked on the outside with:

- (a) The name and address of the person sending the birds,
- (b) The name and address of the person to whom the birds are being sent, and
- (c) The number of birds, by species, contained in the package.

(9) **IMPORTATION.** (a) One fully-feathered wing shall remain attached to all migratory game birds being transported between the port of entry and the possessor's permanent abode or to a preservation facility.

(b) No person may import migratory game birds belonging to another person.

(10) **WATERFOWL STAMP.** No person 16 years of age and older may hunt for waterfowl without a valid state waterfowl stamp with the signature of the licensee written in ink across its face and firmly affixed by its own adhesive to the back of a valid small game or sports license unless the person is carrying a valid conservation patron license, senior citizen recreation card, free military small game license or first-year hunter education certificate.

Note: Violation of state migratory game bird regulations is also a violation of federal regulations. Importation restrictions do not prohibit the importation of legally taken, fully feathered migratory game birds for mounting purposes by a taxidermist holding a valid federal permit and licensed by the U.S. department of agriculture to decontaminate birds.

NR 10.125 Canada goose hunting. (1) PERMIT REQUIREMENTS. (a) Permit possession required. No person may hunt Canada geese in any area of the state without having on his or her person a valid Canada goose hunting permit.

(b) *Maximum allowable harvest.* The total number of Canada goose permits and carcass tags issued by the department annually under this section and under s. NR 19.84 shall be based upon the maximum allowable harvest assigned by the U.S. fish and wildlife service. The assigned harvest shall be distributed within established zones and by time periods based upon historical data on the distribution of geese within the state and hunter success rates.

(c) *Validity.* All permits are valid only in the zones and for the time periods specified on the permit during the open season established for Canada geese. The department shall use the following procedure when specifying the permit zones:

1. If the maximum allowable harvest is 160,000 birds or less, all permits shall be restricted to one zone.

2. If the maximum allowable harvest is between 160,000 and 210,000 birds, the department may:

a. Issue Horicon and Collins zone permits that are also valid for the exterior zone during a time period specified by the department.

b. Issue exterior zone permits that are also valid for the Horicon zone during a time period specified by the department.

c. Establish a permit processing deadline for exterior zone permits receiving the 2 zone authorization described under subpar. b.

3. If the maximum allowable harvest exceeds 210,000 birds, all permits shall be valid in any zone.

(d) *Permit validation procedures.* When a Canada goose is killed and before it is carried by hand or transported in any manner, the hunter shall validate the permit by slitting, tearing or punching holes in the permit in the manner indicated by the department. Failure to follow the validation procedure invalidates the permit and renders any goose in the person's possession illegal.

(2) APPLICATION AND ISSUANCE REQUIREMENTS (a) *Forms.* Applications shall be on forms supplied by the department.

(b) *Deadlines.* 1. All applications for the Horicon and Collins zones and the early goose hunt subzone shall be postmarked no later than the deadline dates indicated on the forms or received by the department license section no later than 4:30 p.m. on that date to be considered for selection. The annual application deadlines may not be sooner than July 1.

Note: The department conducts extensive publicity on the application deadlines beginning several months prior to any deadline. Application deadline dates are published in news re-

leases, license outlet handouts, and pertinent regulation pamphlets. The license section address is 101 South Webster, Box 7924, Madison, WI 53707.

2. Exterior zone permit applications may be obtained by mail or in person at department district and area offices during normal office hours throughout the open season.

Note: Normal office hours are 8:00 a.m.-4:30 p.m. Monday through Friday.

(c) *Application limitations.* 1. No person may submit more than one application per year except that:

a. Persons who submitted an invalid permit application for the Collins or Horicon zones may reapply, provided the goose season is open, for an Exterior zone permit.

b. Persons applying for an early goose hunt subzone permit may also apply for a Collins, Horicon, or Exterior zone permit.

2. Group applications. If 2 or more persons wish to hunt together in the Collins or Horicon zones, each shall fill out an application form and submit them together in one envelope clearly marked "group application" on the outside. A group application shall be considered one application.

(d) *Selection preference.* When applications exceed the number of permits available, successful applicants shall be randomly selected with first preference given to persons who unsuccessfully applied for a permit during the previous year.

(e) *Undersubscribed zones.* If the number of permit applications is less than the number of permits available for any time period, the department may issue the remaining permits to successful applicants by random selection.

(f) *Permit limits.* The department may not issue more than 425 permits for any time period for the Collins zone.

(3) SPECIAL REQUIREMENTS. Unless otherwise directed by the department, the following requirements apply to the Horicon and Collins zones:

(a) *Tagging.* When a Canada goose is killed within Horicon and Collins zones, the hunter shall:

1. Completely attach and seal the permit, utilizing its own adhesive, to the neck of the goose before it is carried by hand or transported in any manner.

2. Keep the permit attached to the goose until the meat has been processed for cold storage or human consumption.

(b) *Possession.* No person may possess or transport a dead wild Canada goose unless it is tagged with a validated permit.

(c) *Transportation restrictions.* The hunter shall transport any tagged goose in a motor vehicle so that the permit attached to the goose cannot be handled or manipulated by any occupant of the vehicle.

(4) REPORTS. (a) *Harvest reports.* 1. The department may require each successful applicant to complete and submit a harvest report on forms supplied by the department within 48 hours of harvesting a goose.
