ANALYSIS

Statutes interpreted: s. 447.056, Stats.

Statutory authority: ss. 15.08 (5) (b) and 447.02 (1) (f), Stats.

Explanation of agency authority:

15.08 (5) (b) Each Examining Board shall promulgate rules for its own guidance and for the guidance of the trade or profession to which it pertains, and define and enforce professional conduct and unethical practices not inconsistent with the law relating to the particular trade or profession.

Plain language analysis:

Dentists are required to complete 30 credit hours of continuing education every biennium. This rule will require 2 credit hours, of the 30 credit hours, to be in the topic of responsible prescribing of controlled substances for the treatment of acute dental pain. This requirement will be in place for the next two bienniums.

Summary of, and comparison with, existing or proposed federal regulation: None

Comparison with rules in adjacent states:

Illinois: Illinois does not require continuing education in the topic of responsible prescribing of controlled substances for the treatment of acute dental pain or in a topic which is substantially equivalent.

Iowa: Iowa does not require continuing education in the topic of responsible prescribing of controlled substances for the treatment of acute dental pain or in a topic which is substantially equivalent.

Michigan: Michigan requires 3 continuing education credits, in each 3 year renewal period, in pain and symptom management, which may include courses in behavior management, psychology of pain, pharmacology, behavior medication, stress management, clinical applications and drug interactions.

Minnesota: Minnesota does not require continuing education in the topic of responsible prescribing of controlled substances for the treatment of acute dental pain or in a topic which is substantially equivalent.

Summary of factual data and analytical methodologies:

The Dentistry Examining Board is responding to the current opioid epidemic. The Dentistry Examining Board considered the approaches of the Medical Examining Board and the Board of Nursing relating to specific required continuing education addressing the prescribing of controlled substances. In addition, the Dentistry Examining Board evaluated how to best achieve the goal of continuing education on this topic without creating a burden on the dentist.

Analysis and supporting documents used to determine effect on small business or in preparation of economic impact analysis:

The rule was posted for economic comments and none were received. The rule does not change the number of continuing education credits required, therefore, it has a neutral fiscal impact on licensees.
