

**ORDER OF THE
DEPARTMENT OF CORRECTIONS
TO ADOPT PERMANENT RULES**

CR 17-026

INTRODUCTORY CLAUSE

The Wisconsin Department of Corrections proposes an order to amend DOC ss. 306.10 (3), 308.04 (12) (a), 309.466 (1), 313.02 (2) (c), 313.05 (2) (a), 313.07 (7), 324.04 (1), 324.05 (4), 324.13 (7), 325.07 (2) (d), 326.04 (1), 327.05 (4), 327.05 (8), 327.06 (8), 327.08 (4), 330.03 (4), 330.08, 333.04 (1) (d), 333.06 (2), 333.10 (2); and to repeal and recreate chapter DOC 302, relating to inmate classification, sentence and release provisions.

RULE SUMMARY

- A. **Statutes interpreted:** ss. 301.03 (2), 302.04, 302.07, 302.08 and 302.11 (2), Stats.
- B. **Statutory Authority to Promulgate the Rule:** ss. 227.11 (2), Stats.

 6. Promulgates a rule provision requiring the department to set prison population limits under s.301.055 Stats.
 7. In keeping with current correctional practice and to more accurately describe the differences between the department's intake and inmate classification process, renames "Assessment and Evaluation" or "A&E" as "Initial Classification" or "IC".
 8. In keeping with current correctional practice and to more accurately describe department's recurring inmate classification process, renames "Program Review" or "PR" as "Reclassification" or "RC".

F. **Summary of, and Comparison with, Existing or Proposed Federal Statutes and Regulations:** There are no federal statutes or regulations that regulate the activities addressed by the proposed rule.

G. **Comparison of similar rules in adjacent states:**

1. Illinois

Illinois rules concerning classification and transfers apply to both adult and juvenile inmates of the Illinois Department of Corrections. (20 ILAC 503.10) Wisconsin has a separate set of rules which addresses incarcerated juveniles.

Illinois rules require evaluation of inmates for placement and classification purposes at a reception and classification center for initial assignment to a correctional facility or program. The process includes an evaluation of the following factors: criminal, educational and employment history, health care condition, and any other information deemed relevant to placement. The Director determines an inmate’s initial placement based on the classification center’s recommendation. The rules require that an inmate’s classification or program be reviewed at regular intervals. (20 ILADC 503.20) Similarly, Wisconsin rules require that an inmate’s classification and placement be initially determined at intake. Wisconsin rules consider similar factors in determining classification and placement. Unlike Illinois, Wisconsin rules

require that the classification procedure be determined during a hearing and then reconsidered during incremental re-hearings.

Illinois rules permit that an inmate may be administratively transferred to any of the department's facilities or programs or as otherwise permitted by law. (20 ILADC 503.120) Illinois rules permit that an inmate may be transferred for discipline as the result of an adjustment committee decision. (20 ILADC 503.140) Illinois rules permit that an inmate may be transferred for mental health purposes by emergency or after a hearing and review process. (20 ILADC 503.150) Wisconsin rules require that permanent changes in custody or institution placement of an inmate requires a reclassification hearing. Wisconsin rules permit a temporary placement following a rule violation or for medical emergencies.

Illinois rules concerning sentence computations apply to both incarcerated adults and juveniles. The rules do not apply to persons committed as delinquents, as a result of a finding of contempt, or to those serving sentences of periodic imprisonment. (20 ILADC 107.100) Wisconsin has a separate set of rules which addresses incarcerated juveniles. Wisconsin rules do not distinguish between those committed due to contempt or period imprisonment.

Wisconsin rules require the department to calculate an inmate's sentence and inform the inmate in writing of parole eligibility, projected release, and projected discharge dates. Illinois does not have a similar rule.

Illinois rules establish a process to review inmates serving indeterminate sentences. The rules require those inmates to appear before a prison review board prior to parole eligibility after serving a minimum sentence or 20 years, whichever is less, less applicable statutory good time, compensatory good time, and day for day credit. If an offender must serve the maximum indeterminate sentence, he or she shall be released after serving the maximum of the sentence, less statutory good time, compensatory good time, and day for day credit. (20 ILADC 107.110)

Illinois rules require that an inmate serving a determinate sentence shall be released after serving his determinate sentence, less any applicable credit awarded. (20 ILADC 107.110)

Wisconsin rules establish a process to review inmates serving indeterminate sentences. Wisconsin rules require that an inmate serving an indeterminate sentence shall be eligible for parole when 25% of the sentence imposed, or 6 months, whichever is greater, less all credit which the inmate is entitled to by statute, has been served. An inmate is not eligible for parole consideration for at least 60 days following admission to DAI. If an inmate has more than one sentence, the inmate shall be eligible for parole on each non-bifurcated sentence. If an inmate has received consecutive sentences, the non-bifurcated sentences shall be computed as one continuous sentence for purposes of determining parole eligibility.

Illinois rules establish a process for determining when an inmate serving indeterminate sentences may receive statutory good time, compensatory time, and supplemental sentence credit. Illinois rules require that compensatory good time be prorated for those inmates serving indeterminate schedules at a rate also provided by a table, and normally at the rate of 7.5 days for each month in custody. Offenders are not eligible to receive compensatory good time for any month during which they are reported by their work or program supervisor for carelessness, negligence, or refusal to work if so recommended by the facility's Adjustment Committee and approved by the Chief Administrative Officer. Inmates in segregation or confinement for a period of 3 days or more are not awarded compensatory good time for that month pursuant to a hearing before an adjustment committee. If an offender is on investigative status, an offender earns compensatory good time for that month if the investigation findings indicate the offender did not commit a violation. Awarded compensatory good time may not be revoked. (20 ILADC 107.120)

Illinois rules permit offenders who enroll in full-time substance abuse program, industries assignment, other programs, behavior modification programs, life skill courses, or re-entry plans to be eligible for additional credit.

Illinois rules require that inmates found guilty of misconduct or rules violations may lose statutory good

time, day for day credit, statutory sentence credit, supplemental credit, or program sentence credit (20 ILADC 107.150) The Director also has discretion to revoke statutory good time, day for day credit, statutory sentence credit, supplemental sentence credit, and program sentence. (20 ILADC 107.150) Illinois rules permit the restoration of statutory good time, day for day credit, statutory sentence credit, supplemental sentence credit, and program sentence credit either by his own action or upon recommendation of an administrative review board, adjustment committee, or a deputy director. (20 ILADC 107.160)

Wisconsin rules permit offenders to waive good time, mandatory release or extended supervision. Illinois rules do not have a similar provision.

Wisconsin rules permit inmates eligible to earn extra good time for performing above average in vocational, education, or job assignment are involuntary assigned, or are in a status of administrative confinement, observation, temporary lockup, or out of the institution for a court or medical appointment and were earning extra good time immediately prior to the placement. Wisconsin rules permit inmates to earn one day of extra good time credit for every six days in an eligible status.

Illinois rules permit participation in an Impact Incarceration Program. (20 ILADC 460.10) Illinois rules require that upon successful completion of the program, inmates serve a term of mandatory supervised release. (20 ILADC 460.10) Wisconsin rules permit inmates to participate in a challenge incarceration program. In Wisconsin, upon completion of the program, the Department either advises the parole board or the sentencing court of the inmate's completion for those bodies to determine the effect on the inmate's sentence.

Wisconsin rules permit inmates who meet extraordinary health conditions or geriatric petitions to request a modification of their bifurcated sentence upon review by a committee and hearing. Illinois does not have a similar rule.

2. Iowa

Iowa has a statute that provides that the department of corrections may develop and utilize an inmate classification system. ICA s. 904.202 provides that the department may utilize a classification system to aid in the rehabilitation of the inmates and requires that the trial judge, prosecuting attorney, and presentence investigators furnish the department's director with any previously authorized presentence investigation report and a full statement of facts and circumstances attending the commission of the offense so far as known or believed by them. Wisconsin also requires a review of similar information in determining inmate classifications.

Iowa does not have a comparable administrative code concerning classification, sentence computations, or release provisions.

The Iowa department of corrections has issued policies and procedures which addresses offender classifications (Policy Number IS-CL-02 (eff. 8/2014)), classification rehearings (Policy Number IS-CL03 F-6 (eff. 10/2014)), program placement (Policy Number IS-CL-03 (eff. 2/2015)), and inter-institutional transfers (Policy Number IS-CL-08 (eff. 10/2014))

3. Michigan

Michigan rules requires that the department of corrections determine an inmate's classification to determine the level of confinement necessary for public safety and the safety and security of the facility. (Mich. Admin. Code R. 791.4401). The rules require that classification determinations be made based on safety and security concerns, including prevention of escape, maintenance of control and order, and medical and mental health care needs of the inmate. The rules provide that classification assignments will determine the placement of the inmate. This is similar to Wisconsin rules.

Michigan rules require that inmate classification be determined by a committee at each institution. (Mich. R. 791.4401(3)). Wisconsin rules require that inmate classification is determined by a hearing.

Michigan rules permit an inmate who objects to a reclassification decision to file a grievance. (Mich. R. 791.4401(4)). Similarly, Wisconsin rules permit inmates to request administrative review of classification decisions.

Michigan rules permit designation of an inmate to community status after serving a minimum sentence imposed by the court. Prison officials determine community status by reviewing the inmate's classification level, sentence, assaultive risk, health care needs, pending charges, or other special designation by the department. (Mich. R. 791.4410(1) & (2)). Wisconsin does not have a similar rule.

4. Minnesota

Minnesota statutes permit recordkeeping for inmate participation in substance abuse treatments. (MSA s. 241.416).

Minnesota rules create procedures for determining an inmate's sentence and release. (MN ADC 2940.1500). Inmates with indeterminate sentences may request a release date adjustment. Minnesota rules create a program review team tasked with reviewing requests and making recommendations to an executive officer of hearings for an inmate's release. (MN ADC 2940.1500).

Minnesota rules create a procedure to calculate an inmate's loss of good time or extension of imprisonment for disciplinary infractions. (MN ADC 2940.1600). The procedures are based upon an inmate's sentence structure and projected release date. Wisconsin similarly has rules in place to determine sentencing guidelines based upon sentence structure and adjustments based upon extensions for misconduct.

- H. **Summary of the factual data and analytical methodologies that DOC used in support of its determination of the rule's fiscal effect on small businesses under s. 227.114, Stats:** The department of corrections has determined that the rule will not have a significant economic impact on a substantial number of small businesses since the rule does not regulate small businesses as that term is defined in s. 227.114, Stats.
- I. **Analysis and supporting documents that the department of corrections used in support of the department's determination of the proposed rule's effect on small businesses or that was used when the department of corrections prepared an economic impact report:** Not applicable.
- J. **A copy of any comments and opinion prepared by the Board of Veterans Affairs under s. 45.03 (2m), Stats., for rules proposed by the Department of Veterans Affairs:** Not Applicable.
- K. **Effect on small businesses:** Not applicable.

RULEMAKING REPORT TO LEGISLATURE

BASIS AND PURPOSE OF PROPOSED RULE

The Wisconsin Department of Corrections proposes an order to amend DOC ss. 306.10 (3), 308.04 (12) (a), 309.466 (1), 313.02 (2) (c), 313.05 (2) (a), 313.07 (7), 324.04 (1), 324.05 (4), 324.13 (7), 325.07 (2) (d), 326.04 (1), 327.05 (4), 327.05 (8), 327.06 (8), 327.08 (4), 330.03 (4), 330.08, 333.04 (1) (d), 333.06 (2), 333.10 (2); and to repeal and recreate chapter DOC 302, relating to inmate classification, sentence and release provisions.

SUMMARY OF PUBLIC COMMENTS AND AGENCY RESPONSE TO THOSE COMMENTS, AND AN EXPLANATION OF ANY MODIFICATION MADE IN THE PROPOSED RULE AS A RESULT OF PUBLIC COMMENTS OR TESTIMONY RECEIVED AT A PUBLIC HEARING

Public Comment or Testimony

Department Response

Change title "Ambiguity in Sentence" to "Sentence Clarification."

Accepted. Change made to 302.23.

Identify inmates eligible for compassionate release and assist them with the completion of the petition.

Rejected. Currently, inmates are advised of s. 302.113 (9g), Stats. upon admission to DOC. Inmates with extraordinary health conditions in the care of DOC health staff are routinely evaluated for application of s. 302.113 (9g), Stats. Direct assistance by DOC personnel in completion of a petition, presupposes the role of the program review committee in s. 302.113 (9g) (cm), Stats. Resources other than DOC personnel to assist in completion of a petition are available to the inmate.

Prioritize offenders for programming who are parole eligible.

Rejected. Priority for placement and programming for a single class of offender, for example, those who are "parole eligible" is not required by statute and is more appropriately addressed by DOC policy rather than in administrative rule. Justification for parole releases is not a subject of DOC 302

Complains regarding justification DOC uses for revocation of probation and resulting incarceration sentence imposed.

Rejected. Justification for revocation and sentencing is not a subject of the repeal and recreation of DOC 302. No specific suggestions provided relative to proposed DOC 302 repeal and recreation.

Suggests the Community Residential Confinement statute (Wis. S. 301.046(3)(d)/DOC 327) should be altered to apply inmates serving a bifurcated sentence -- not just parole eligible.

Rejected. Administrative Rule making does not permit changes to Wisconsin statute.

Suggests early release from the confinement portion of a bifurcated sentence should be moved from the "trial courts" to "the Earned Release Review Commission and the DOC".

Rejected. Administrative Rule making does not permit changes to Wisconsin statute.

Suggests adding transition/educational programs, community, education, skills, rehabilitation.	Rejected. Establishment of new correctional programs is not a subject of DOC 302 or this process.
Various issues including tax payer funds, treatment alternatives, mass incarceration, human rights, public safety.	Rejected. No specific suggestions provided relative to proposed DOC 302 repeal and recreation.
Focus on DOC 303 and PAC 1. Various issues including overcrowding, availability of programming, Truth in Sentencing, rehabilitation, treatment, punishment for mentally ill, sex offenders.	Rejected. No specific suggestions provided relative to proposed DOC 302 repeal and recreation.
Seeking a change in laws to better support inmates and families, both within DOC and the community, more generally.	Rejected. No specific suggestions provided relative to proposed DOC 302 repeal and recreation.
Seeking work to be done to release inmates under the old law. Start programs today that will get these inmates ready for release tomorrow.	Rejected. Dissatisfaction with a Parole decision is not a subject of DOC 302.
Seeking a decrease in the prison population by facilitating early release programs, dispel program requirements such as SO-2 classes and the 10 modules for successful re-entry, do not place low level offenders on a public registry, make an effort to move low level offenders into minimum security facilities where job opportunities can be accomplished, reclassify low level sex offenders, notify all inmates what date they are eligible for early release, and employ additional social workers to facilitate positive movement instead of hiring unnecessary correctional officers	Rejected. The number of DOC program providers facilitating programming is not a subject of DOC 302. Disagreements with application of criteria utilized for early release mechanisms or placement are not supported. Who is required to register on the sex offender registry is not a subject of DOC 302.
Complains regarding TIS laws and "dysfunctional" parole system.	Rejected. No specific suggestions provided to proposed DOC 302 repeal and recreation.
Writer requests finding ways to ensure parole-eligible inmates complete their requirements for release and those who no longer are a threat to society are given compassionate release	Rejected. No specific suggestions provided relative to proposed DOC 302 repeal and recreation.
Concern the language permits prison limits to be exceeded indefinitely under the auspice of an emergency. Wants to ensure emergencies 302.03(22) are not conflated with disturbances 302.03(20).	Accepted, in part. This section is modified to include "disturbances" along with emergencies as this was overlooked by DOC as a reason to exceed prison population limits. The DOC does not "continually remain under emergency status to exceed stated capacities...contrive emergencies...or intentionally create hostile work conditions."

Factors the department may consider in custody assignment: The writer asserts DOC and Parole do not act independently and parole decisions lack appropriate justification. The writer asserts that is the parole commission won't release and inmate, DOC should.

Rejected. Inmate Classification and Parole are administratively independent in their business process and decisions; and give due consideration to each other's assessments in their independent business processes. It is reasonable for inmate classification to include consideration parole commission decisions as one of the factors in assigning custody. DOC has limited statutory options for release of inmates that are described in other sections of this rule.

Factors the department may consider in custody assignment: The writer opines the External Classification Risk Tool alone determines custody.

Rejected. A variety of factors are used in assigning custody. Including use of assessments or instruments as one of the factors in custody assignment is reasonable.

Questions the validity of risk assessment instruments in identifying needs and associated treatment. Questions training staff utilizing these instruments.

Rejected. It is reasonable to utilize results of assessments and screening instruments to assist with identification of program needs.

"There is no opt out for those reassigned previously completed programs."

Rejected. Inmates may choose not to enroll [see 302.14(2)]

Opines inmates are not permitted minimum or community custody if they refuse a program.

Rejected. Inmate that refuse a program are not necessarily denied minimum or community custody. "Refusal may affect custody classification [see 302.14(2)].

Complains the administrative review request requires proof of the use of erroneous information during inmate classification and an original signature and limited to 500 words not to exceed 2 pages.

Rejected. Classification decisions are within the authority of DOC. A standard of requiring an allegation of the use of erroneous information in arriving at a classification decision to request an administrative is reasonable rather than allowing a review simply because of disagreement with a DOC inmate classification decision. Requiring an original inmate signature is reasonable in ensuring the identity of the submitter. The limit of 500 words and 2 pages provides sufficient room for alleging erroneous information.

The concern is that street time should count for offenders on extended supervision. The DOC should give credit for "Street Time" because not giving it leads to "Endless Supervision" time.

Rejected. Service of credit is determined by statute and not the DOC. Per statute 302.113(9)(am) If a person released to extended supervision under this section violates a condition of extended supervision, the reviewing authority may revoke the extended supervision of the person. If the extended supervision of the person is revoked, the reviewing authority shall order the person to be returned to prison for any specified period of time that does not exceed the time remaining on the bifurcated sentence. The time

remaining on the bifurcated sentence is the total length of the bifurcated sentence, less time served by the person in confinement under the sentence before release to extended supervision under sub. (2) and less all time served in confinement for previous revocations of extended supervision under the sentence. The order returning a person to prison under this paragraph shall provide the person whose extended supervision was revoked with credit in accordance with ss. 304.072 and 973.155. 302.113(9)(c) A person who is subsequently released to extended supervision after service of the period of time specified by the order under par. (am) is subject to all conditions and rules under sub. (7) and, if applicable, sub. (7m) until the expiration of the remaining extended supervision portion of the bifurcated sentence. The remaining extended supervision portion of the bifurcated sentence is the total length of the bifurcated sentence, less the time served by the person in confinement under the bifurcated sentence before release to extended supervision under sub. (2) and less all time served in confinement for previous revocations of extended supervision under the bifurcated sentence.

CHANGES TO RULE ANALYSIS AND FISCAL ESTIMATE

No changes were made to the rule analysis or the fiscal estimate and economic impact analysis.

RESPONSE TO LEGISLATIVE COUNCIL RULES CLEARINGHOUSE REPORT

Legislative Council Comment/Suggestion

Department Response

The rule summary should cite any specific statutory authority the department has for promulgating the rule, such as ss. 301.055 and 302.04 (2), Stats., in addition to the general statutory authority provided under s. 227.11 (2), Stats. [s. 1.02 (2m), Manual.]

Agree. Corrected.

Section DOC 302.05 should be revised to specify a formula or some other method of identifying applicable prison population limits in the rule, as required by s. 301.055, Stats.

Rejected. The Department carefully considered this suggestion, but determined a formula would be best dealt with in policy.

<p>Statutory citations appearing throughout the rule should be checked for punctuation and capitalization, so that they uniformly appear as “s. 123.45, Stats.”. See, for example, ss. DOC 302.03 (32), 302.34 (3) (d), and 302.40 (2). [s. 1.07 (2) (Table), Manual.]</p>	<p>Agree. Corrected.</p>
<p>In s. DOC 302.17 (5) and (6), the provisions relate to recommendations by the reclassification committee (presumably at the conclusion of the hearing), while subs. (7) to (9) relate to running the hearing itself. Should subs. (5) and (6) be moved after sub. (9) so that provisions regarding the hearing can be grouped together and actions will be chronological?</p>	<p>Agree. Corrected.</p>
<p>In s. DOC 302.20 (4), the references to “sub. 1” and “sub. 2” should include parentheses, as they do in sub. (3). [s. 1.03 (1) (Example), Manual.]</p>	<p>Agree. Corrected.</p>
<p>In SECTION 7, the strikethrough of the reference to s. DOC “302.31 (4) to (6)” is incomplete and should be corrected.</p>	<p>Agree. Corrected.</p>
<p>In SECTIONS 8 and 20, the SECTIONS state they are “amending” ss. DOC 324.03 (4) and 333.03 (11). However, SECTIONS 8 and 20 substitute an entirely new definition for the existing definition with no strikethroughs or underscoring. The SECTIONS should each be changed to state the action is one to “repeal and recreate”. The introductory clause should also be changed to reflect that ss. DOC 324.03 (4) and 333.03 (11) are being repealed and recreated.</p>	<p>Agree. Corrected.</p>
<p>Section DOC 302.24 (2) requires the sentencing court to determine sentence credit, but the department does not have the authority to require another agency to take any action. Is it intended that the department must apply to the sentencing court for a determination of sentence credit, or will in some other manner apply a sentence credit as determined by the sentencing court?</p>	<p>Agree. Corrected.</p>
<p>The use of subsection titles within lengthier code provisions would make the provisions more readable. For example, s. DOC 302.34 could include subsection titles like “(1) RELEASE OF INMATES TO RELIEVE OVERCROWDING. In accordance with s. 304.02...”, (2) ELIGIBILITY. To be eligible for special action release consideration...”, (3) EXCEPTIONS TO ELIGIBILITY CRITERIA. An inmate is eligible..., (4) WAIVER OF SAR. An inmate may waive eligibility..., and (5) REQUIREMENTS FOR SAR REFERRAL. The</p>	<p>Agree. 306.16,302.17, 302.34 and 302.35 changed.</p>

following steps shall be taken in preparing a SAR referral...". See also, in particular, ss. DOC 302.17 and 302.35.

The effective date provision should be revised to adequately inform a reader how to determine the date upon which the proposed rule will be effective. The effective date could be identified in one of the following manners: as the first day of the month following publication; as a specifically identified later date; or as a date to be identified in a statement that will be filed with the final rule when the final rule is submitted for publication in the Administrative Register. [s. 227.22 (2) (b), Stats.; s. 1.02 (4), Manual.]

This is how it is identified.

In s. DOC 302.34 (5) (d), the reference to "under sub. (5)" is not clear and should be more specifically identified. Also, in sub. (5) (i), it appears that a reference is missing and should be added.

Agree. Corrected.

In s. DOC 302.35 (4), the word "subsection" should replace the word "paragraph". [s. 1.03 (1) (Example), Manual.]

Agree. Corrected.

The word "their" appearing throughout the rule is used to refer to a singular inmate, and should be changed to "his or her". See, for example, ss. DOC 302.03 (19) and 302.27 (1) (a).

Agree. Corrected.

In s. DOC 302.02 (2), the word "includes" should be singular ("include").

Agree. Corrected.

In s. DOC 302.03 (1), the line should end with a period.

Agree. Corrected.

In s. DOC 302.03 (3), the comma following "DAI" should be deleted.

Agree. Corrected.

In s. DOC 302.03 (29), the definition of "in custody" means any time an offender spent confined in connection with "the violation". Does "the violation" refer to the course of conduct (the language in s. 973.155 (1), Stats.), or does it refer to something else?

Agree. Corrected.

In s. DOC 302.03 (54), there appear to be extraneous words at the end of the definition of "security classification". The definition refers to "degree of supervision of inmate supervision".

Agree. Corrected.

In s. DOC 302.03 (55), the second period should be deleted	Agree. Corrected.
In s. DOC 302.03 (59), the definition of “staff” should refer to “a” permanent, project, contract, or limited-term employee.	Agree. Corrected.
In s. DOC 302.05, the provision states that requirements regarding establishing, computing, and exceeding system-wide limits and individual prison limits will be addressed in department policy. The term “system-wide” should be consistent in either using a hyphen or not using a hyphen.	Agree. Corrected.
In s. DOC 302.10 (1), the provision refers to “restrictive status housing”. Should this merely refer to “restrictive housing”, using the defined term in the chapter?	Agree. Corrected.
In ss. DOC 302.16 and 302.17, are inmates supposed to have the opportunity to attend the initial classification hearing? The sections do not state this explicitly, though several subsections refer to the presence of the inmate. For example, s. DOC 302.16 (5) allows use of technology if an inmate is unable to be physically present for an initial classification hearing and s. DOC 302.17 (4) (f) requires the report to note the reason for the inmate’s absence from the hearing.	Rejected. This concern is handled in DOC302.16 (3) (d) and 302.17(4)(c).
In s. DOC 302.16 (3), is the classification specialist supposed to complete the listed tasks before an initial classification hearing is conducted (similar to s. DOC 302.17 (3)), or simply complete the tasks at some unspecified point in time?	These are the chronological tasks of a classification specialist conducting a classification hearing. (7) to (9) completes the initial classification process.
In s. DOC 302.16 (3) (c), the provision requires the classification specialist to ensure that the inmate was informed of the reason “for review”. Does this apply to the initial classification?	Yes. If you mean "reclassification", this is addressed in DOC 302.17 (4) (a)
In s. DOC 302.16 (3) (f) 1., the line should end with a period.	Agree. Corrected.
In s. DOC 302.17 (5), the provision should read “a” unanimous recommendation, rather than “an”.	Agree. Corrected.
In s. DOC 302.20 (1) (b), the line should include the word “or” between “dental” and “mental health need”. Also, in sub. (4), should the phrase “clinical of	Agree. Corrected.

medical” be “clinical or medical”?	
In s. DOC 302.22 (3) (a) 3., should the provision refer to good time being credited beginning on the “day” following the inmate’s date of arrival?	Agree. Corrected.
In s. DOC 302.22 (3) (b) 1., the provision is phrased to state that “the projected mandatory release date shall be subject to...statutory or extra good time may not be earned”. This construction is awkward and should be rephrased.	Agree. Corrected.
In s. DOC 302.26 (1) (b), the provision should be revised to form a complete sentence.	Agree. Corrected.
In s. DOC 302.26 (3), the space after “custody” should be deleted, and there should be a period after “sub”.	Agree. Corrected.
In s. DOC 302.27 (3), the space after “custody” should be deleted, and there should be a period and comma following “s. 973.155, Stats”.	Agree. Corrected.
In s. DOC 302.35 (2), pars. (f) and (g) should begin with “The inmate is”, similar to the preceding paragraphs.	Agree. Corrected.
In s. DOC 302.35, sub. (3) should begin on its own line and par. (e) should also begin on its own line. It appears that pars. (a) to (h) should begin with “Whether the inmate...”.	Agree. Corrected.
In s. DOC 302.35 (7), the first word should be capitalized, “the” should be lowercase, and the line should end with a period.	Agree. Corrected.
In s. DOC 302.236, the provision states that “Inmates who are eligible to earn positive adjustment time between may petition the sentencing court...”. There appear to be dates missing after the word “between”. Alternatively, the word “between” could be deleted.	Agree. Corrected.
In s. DOC 302.236 (2), should the provision refer to the number of “days of” positive adjustment time earned?	Agree. Corrected.
In s. DOC 302.39 (1), the space appearing within the reference to s. “948.05 1”, Stats., should be deleted. In sub. (3) (c), the word “the” should be inserted before	Agree. Corrected.

“inmate”.

In s. DOC 302.40 (3), pars. (a) to (i) should each begin with the phrase “The inmate...”. Agree. Corrected.

In s. DOC 302.41 (8), there should be a comma after the phrase “During the hearing”. In sub. (9), there should be an “or” following “ in person”. Agree. Corrected.

In SECTIONS 21 and 23, the SECTIONS amend the term “PRC” so that it reads “RC”. However, under the newly created definition, “RC” is a process and not an entity. Should these references to “RC” be replaced with “reclassification committee”? Agree. Corrected.

FINAL REGULATORY FLEXIBILITY ANALYSIS

The department of corrections has determined that the rule will not have a significant economic impact on a substantial number of small businesses since the rule does not regulate small businesses as that term is defined in s. 227.1145, Stats.
