Wisconsin Department of Transportation

March 11 · 🇺🇸

With daylight saving time and clocks set ahead one hour, many people will find their sleep disrupted. Drowsiness is a form of impaired driving.

Lack of sleep slows reaction time, impairs judgement and situational awareness, increases lapses in attention, risk-taking and the danger of dozing off behind the wheel. Teens and young adults are involved in more than half of all drowsy driving crashes. Take a break, drive awake.

Marcia Walters Lindemann Then why don't we STOP this ridiculous ritual of turning the clocks??? HOW can we make it stop.

14w

Don Blackburn Just pass out an hour earlier, problem solved!
