Medical examination report review

[Driver medical concerns](#)[Driving with a disability](#)[Driving with a medical condition](#)[Reporting an unsafe driver](#)[State medical waivers for CDL drivers](#)[Driver license/ID cards](#)[Commercial license](#)[Teen drivers](#)[Vehicles](#)

What happens after you provide a Medical Examination Report to the DMV?

The DMV will review the information to determine your eligibility for licensing.

- Many drivers who file a Medical Examination Report [MV3644](#) or Certificate of Vision Examination by Competent Authority [MV3030V](#) are found to meet medical standards for licensing. The exam must be current (within the past 90 days, unless otherwise stated) and complete. If the report satisfies our concerns, this may be all that is required.
- Sometimes drivers may be asked for periodic follow-up reports if there is a progressive condition that may change their ability to operate over time.

- DMV may also require drivers to complete an examination of their driving ability by requiring sign, [□ knowledge](#) and [□ skills](#) tests. These tests may result in restrictions being added to the license such as "20 mile radius of home" or "no freeway or interstate highway."
- Drivers who no longer meet medical standards for licensing or who are unable to pass the driving tests will have their driving privilege canceled. Drivers may file updated medical reports at any time for reconsideration.

Please note: Your diagnosis alone is not as important as how the condition affects your ability to function as a driver.
