| Complete one form for each business location. Business location means any place from which a commercial application business operates on a regular basis as a commercial applicator for hire, including a location at which orders for pesticide applications are regularly taken. This does not include motorized vehicles containing mobile telephone units used to take pesticide orders. | | Point of Clarification: A business which receives payment or advertises as a provider of pesticide applications is a commercial application business, as is any commercial applicator who acts as an independent contractor on behalf of the aforementioned business. Example: a farm supply location that takes a pesticide application order, bills the customer and subcontracts with an independent applicator to apply the pesticide. In this case, both parties are required to be licensed separately and each pays the \$70.00 fee. Mixing/Loading Sites: Each site where a commercial application business mixes or loads at least 1,500 pounds of pesticide active ingredient during a license year (excluding active ingredient that is applied at or immediately adjacent to the mixing or loading site), must be licensed as a Commercial Pesticide Application Business. If a licensee operates two or more mix/load sites within 0.5 mile of each other, they are considered a single site, requiring one license. | | |
| Fee\$70.00 ACCP surcharge: Variable based on ACCP fund balance on May 1 of each year.....\$0.00 Late Fee. If you held a License the previous year AND you are paying after December 31\$14.00 | | | | |
