(a) The board initially issues a license to practice optometry to the optometrist on or after August 1, 2006.

(b) The department issued a certificate to the optometrist under s. 449.17, 2003 Stats.

(2) **LICENSES ISSUED BEFORE AUGUST 1, 2006.** (a) The board shall certify an optometrist to use topical ocular diagnostic pharmaceutical agents if the optometrist was issued a license to practice optometry before August 1, 2006, and the optometrist satisfies the education requirements under par. (b) and successfully completes the examination required under par. (c).

(b) In addition to the requirements under par. (c), the board may issue certificates under par. (a) only to optometrists who successfully complete 60 classroom hours of study in general and ocular pharmacology as it relates to optometry with particular emphasis on the use of topical ocular diagnostic pharmaceutical agents. At least 30 of the 60 classroom hours of study shall be in ocular pharmacology and shall emphasize the systemic effects of and reactions to pharmaceutical agents, including the treatment of any adverse reactions that may occur. The course of study shall be offered by an institution approved by the board and accredited by a regional or professional accrediting organization which is recognized by the Council for Higher Education Accreditation or its successor or the federal department of education, and shall be

completed prior to entering the examination required under par. (c).

(c) The board may issue certificates under par. (a) only to optometrists who successfully complete an examination approved or conducted by the board on the subject of general and ocular pharmacology as it relates to optometry with particular emphasis on the use of topical ocular diagnostic pharmaceutical agents, including the treatment of adverse reactions to such pharmaceutical agents. The examination shall be prepared or approved by the board. The board shall periodically review the validity, reliability, and appropriateness of the examination. The board may do any of the following:

1. Prepare, administer, and grade the examination.

(d) No fee may be charged for a certificate issued under this subsection. A certificate issued under this subsection or s. 449.17, 2003 Stats., remains in effect while the optometrist’s license to practice optometry remains in effect unless the certificate is suspended or revoked by the board.

(3) **ADVERSE REACTION PLAN.** Topical ocular diagnostic pharmaceutical agents may be used only by optometrists who have established a plan for the referral of patients who experience adverse reactions from the application of those agents to appropriate medical services.

(4) **USE OF DIAGNOSTIC PHARMACEUTICAL AGENTS.** An optometrist who is allowed under sub. (1) to use diagnostic pharmaceutical agents may not use any pharmaceutical agent that he or she is prohibited from using under ch. SPS 10.
