The 21st Century Cures act requires the department to take action to maintain federal funding and compliance with federal expecations. Alternatively, the department could choose not to enforce this and face a fiscal penalty and falling out of compliance with Section 12006(a) of the 21st Century Cures Act, 42 USC 1396b. The state would be subject to incremental FMAP reductions (upon all services requiring EVV) up to 1% per year.

16. Long Range Implications of Implementing the Rule

As described in our response in Box 15, the Department must implement the rule or fall out of compliance with Section 12006(a) of the 21st Century Cures Act. The state would be subject to incremental FMAP reductions (upon all services requiring EVV) up to 1% per year.

17. Compare With Approaches Being Used by Federal Government

The federal government enacted the 21st Century Cures Act, directing the Department to establish a requirement that personal care and home health agencies utilize an electronic visit verification (EVV) system. This administrative rule is intended to enforce federal requirements in the state of Wisconsin.

18. Compare With Approaches Being Used by Neighboring States (Illinois, Iowa, Michigan and Minnesota) Illinois and Iowa have promulgated administrative rules to establish authority to require and enforce EVV. Minnesota's legislature passed state statute to require and enforce EVV. Michigan has not established any requirements yet.
