DHS 105.01 Introduction. (1) PURPOSE. This chapter identifies the terms and conditions under which providers of health care services are certified for participation in the medical assistance program (MA).

(2) DEFINITIONS. In this chapter:

(a) “Group billing provider” means an entity which provides or arranges for the provision of medical services by more than one certified provider.

(b) “Provider assistant” means a provider such as a physical therapist assistant whose services must be provided under the supervision of a certified or licensed professional provider, and who, while required to be certified, is not eligible for direct reimbursement from MA.

(3) GENERAL CONDITIONS FOR PARTICIPATION. In order to be certified by the department to provide specified services for a reasonable period of time as specified by the department, a provider shall truthfully, accurately, completely and in a timely manner do all of the following:

(a) Affirm in writing that, with respect to each service for which certification is sought, the provider and each person employed by the provider for the purpose of providing the service holds all licenses or similar entitlements as specified in chs. DHS 101 to 108 and required by federal or state statute, regulation or rule for the provision of the service;

(b) Affirm in writing that neither the provider, nor any person in whom the provider has a controlling interest, nor any person having a controlling interest in the provider, has, since the inception of the medicare, medicaid, or title 20 services program, been

convicted of a crime related to, or been terminated from, a federal–assisted or state–assisted medical program;

(c) Disclose in writing to the department all instances in which the provider, any person in whom the provider has a controlling interest, or any person having a controlling interest in the provider has been sanctioned by a federal–assisted or state–assisted medical program, since the inception of medicare, medicaid or the title 20 services program;

(d) Furnish the following information to the department, in writing:

1. The names and addresses of all vendors of drugs, medical supplies or transportation, or other providers in which it has a controlling interest or ownership;

2. The names and addresses of all persons who have a controlling interest in the provider; and

3. Whether any of the persons named in compliance with subd. 1. or 2., is related to another as spouse, parent, child or sibling;

(e) Execute a provider agreement with the department; and

(f) 1. Accept and consent to the use, based on a methodology determined by the investigating or auditing agency, of statistical sampling and extrapolation as the means to determine amounts owed by the provider to MA as the result of an investigation or audit conducted by the department, the department of justice medicaid fraud control unit, the federal department of health and human services, the federal bureau of investigation, or an authorized agent of any of these.

2. The sampling and extrapolation methodologies, if any, used in the investigation or audit shall be generally consistent, as applicable, with the guidelines on audit sampling issued by the statistical sampling subcommittee of the American institute of certified public accountants. Extrapolation, when performed, shall apply to the same period of time upon which the sampling is derived.

3. The department and the other investigative agencies shall retain the right to use alternative means to determine, consistent with applicable and generally accepted auditing practices, amounts owed as the result of an investigation or audit.

4. Nothing in this paragraph shall be construed to limit the right of a provider to appeal a department recovery action brought under s. DHS 108.02 (9).

In this section, “sufficient number of medicare–certified beds” means a supply of beds that accommodates the demand for medicare beds from both the home county and contiguous counties so that no dual eligible recipient is denied access to medicare SNF benefits because of a lack of available beds. In this subsection, “dual eligible recipient” means a person who qualifies for both medical assistance and medicare.

(2) **MEDICARE BED OBLIGATION.** Each county shall have a sufficient number of skilled nursing beds certified by the medicare program pursuant to ss. 49.45 (6m) (g) and 50.02 (2), Stats. The number of medicare–certified beds required in each county shall be at least 3 beds per 1000 persons 65 years of age and older in the county.

(3) **PENALTY.** (a) If a county does not have sufficient medicare–certified beds as determined under sub. (1), each SNF within that county which does not have one or more medicare–certified beds shall be subject to a fine to be determined by the department of not less than \$10 nor more than \$100 for each day that the county continues to have an inadequate number of medicare–certified beds.

(b) The department may not enforce penalty in par. (a) if the department has not given the SNF prior notification of criteria specific to its county which shall be used to determine whether or not the county has a sufficient number of medicare–certified beds.

(d) A skilled nursing facility located within a county determined to have an inadequate number of medicare–certified beds and which has less than 100 beds may apply to the department for partial exemption from the requirements of this section. An SNF which applies for partial exemption shall recommend to the department the number of medicare–certified beds that the SNF should have to meet the requirements of this section based on the facility’s analysis of the demand for medicare–certified beds in the community. The department shall review all recommendations and issue a determination to each SNF requesting a partial exemption.

Each office the department finds to be necessary shall submit a separate application under this subsection and shall independently satisfy all requirements for certification set forth in this section, except that the requirements under s. DHS 105.17 (1e) (b), (1g) (a) and (b), (1n), and (1w) (h) may be satisfied by policies and practices that are adopted by the entity that owns or controls the agency, and that are applicable to all required offices of the agency. (b) *Recommendation for certification.* 1. Following receipt of a complete application for MA certification or for a change in certification when there has been a change in the ownership of a personal care agency, the department shall review the application,

and investigate the applicant and principals to determine the applicant's ability to comply with this section and s. DHS 107.112.

2. Within 90 days after receiving a complete application, the department shall either approve or deny the application. Approval will be effective for a 1-year period from the date a complete application was submitted to the department.

3. The applicant shall submit a written request to the department for an on-site survey within 9 months of the date the application was approved.

4. The applicant shall show that the agency has served at least 5 clients requiring personal care services during the period of the approved application. At the time of the on-site survey, the applicant or its personnel shall demonstrate provision of personal care services to at least 2 clients.

5. If the applicant does not submit a written request for an on-site survey within 9 months of the date the application was approved, the application will no longer be valid.

6. Within 90 days following completion of an on-site survey, the department shall either recommend certification or not recommend certification of the applicant to the department's division of medicaid services.

(c) *Non approval.* The department may not approve certification for an applicant who does not comply with any provision of this chapter, s. DHS 107.112, or ch. 50, Stats., or who is not fit and qualified as specified in DHS 105.17 (1e) (e), or who has failed to pay any fee or any outstanding amounts due to the department.
