3. Liability adjustments and offsetting assets are determined as of the date of the balance sheet.

(b) A grain dealer may deduct the following liabilities under par. (a):

(3) A fee of \$100 per business location in excess of one business location.

(4) A surcharge of \$500 if, within 365 days before submitting the license application, the applicant operated as a grain dealer without a license in violation of s. 126.11 (1), Stats. (6) A surcharge of \$100 if the applicant was licensed as a grain dealer for the last preceding license year but failed to file a license renewal application before the annual license expiration date of August 31. This subsection does not apply to a grain

dealer who is exempt from licensing under s. 126.11 (2), Stats., but is voluntarily licensed.

(3) **DEFERRED PAYMENT ASSESSMENT.** A contributing grain dealer shall pay a deferred payment assessment equal to the amount the grain dealer reports under s. 126.11 (9) (b), Stats., in the grain dealer's license application for that license year multiplied by rates determined as follows:

(a) If the fund balance attributable to grain dealers is greater than \$6 million on May 31, the rate is 0.000875 for deferred payment contracts entered into anytime during the following license year.

(b) If the fund balance attributable to grain dealers is not more than \$6 million on May 31, the rate is 0.0035 for deferred payment contracts entered into anytime during the following license year.

(4) **REDUCED ASSESSMENT.** A contributing grain dealer's annual fund assessment under sub. (1) is reduced by the following applicable amounts:

ATCP 99.13 Fund assessment temporarily affected by merger or acquisition; partial refund. (1) **PARTIAL REFUND OF ASSESSMENT.** The department may refund part of an annual fund assessment paid by a contributing grain dealer under s. 126.15, Stats., if all of the following apply:

(a) The grain dealer paid the full amount of the assessment, including any late payment penalties that apply under s. 126.15 (7) (d), Stats.

(b) The grain dealer is the surviving entity in a merger under s. 179.77, 180.1101, 183.1201 or 185.61, Stats., or has acquired property pursuant to a sale of assets under s. 180.1202, Stats.

(c) The assessment was based on the grain dealer's financial statement for the fiscal year in which the merger or acquisition under par. (b) took effect.

(d) The grain dealer's financial statement, for the fiscal year in which the merger or acquisition under par. (b) took effect, caused the sum of the grain dealer's current ratio assessment rate under s. 126.15 (2), Stats., and debt to equity ratio assessment rate under s. 126.15 (4), Stats., to increase by at least 100% compared to the preceding license year.

(e) The grain dealer's annual financial statements, for the fiscal years immediately preceding and immediately following the fiscal year in which the merger or acquisition under par. (b) took effect, show positive equity, a current ratio of at least 1.25 to 1.00 and a debt to equity ratio of no more than 3.0 to 1.0.

(f) In the license year immediately following the license year for which the grain dealer paid the assessment, the sum of the grain dealer's current ratio assessment rate under s. 126.15 (2), Stats., and debt to equity assessment rate under s. 126.15 (4), Stats., declines by at least 50% compared to the license year for which the grain dealer paid the assessment.

(g) The grain dealer requests the refund in writing, by September 1 of the grain dealer's next license year.

(2) **REFUND AMOUNT.** The amount of the refund under sub. (1) shall equal 75% of the difference between the assessment amount paid by the grain dealer and the assessment amount required of the grain dealer in the next license year.

(3) **REFUND PAID AS CREDIT AGAINST NEXT YEAR'S ASSESSMENT.** (a) The department shall pay the refund under sub. (1) as a credit against the grain dealer's assessment for the next license year. The department shall apportion the credit, pro rata, against the quarterly assessment installments required of the grain dealer under s. 126.15 (7), Stats., in that next license year. If the credit exceeds the total assessment required of the grain dealer in that next license year, the department shall credit the balance in the same fashion against assessments required of the grain dealer in subsequent consecutive license years, except that the department may not grant a credit in more than 4 subsequent license years.

(b) The department may not pay any refund under sub. (1), except in the manner prescribed in par. (a). The department may

not pay the refund to any person other than the grain dealer who paid the original assessment on which the refund is given.

ATCP 99.135 Reduced fund assessment for contributing grain dealers who also maintain security. (1) VOLUNTARY SECURITY. A licensed grain dealer may at any time file security with the department, regardless of whether the grain dealer is required to file security. Except as provided in sub. (2), a voluntary security filing under this subsection does not relieve a grain dealer of any other obligation to file security or pay fund assessments.

Note: A grain dealer who files voluntary security under sub. (1) may be eligible for a reduction in fund assessments under sub. (2), and may be able to make a more favorable disclosure to producers under s. ATCP 99.14 (2).

(2) REDUCED ASSESSMENT. If, for the duration of a license year, a contributing grain dealer maintains security under sub. (1) in an amount that is at least equal to the grain dealer's estimated default exposure less the maximum fund reimbursement amount, the contributing grain dealer's annual fund assessment under s. ATCP 99.126 (1) for that year is reduced by an amount that is determined as follows:

(a) Subtract the maximum fund reimbursement from the grain dealer's estimated default exposure.

(b) Divide the result in par. (a) by the grain dealer's estimated default exposure.

(c) Multiply the result in par. (b) by the amount of the grain dealer's annual fund assessment under s. ATCP 99.126 (1), disregarding any assessment reduction under s. ATCP 99.126 (4) (a).

(d) Subtract, from the result in par. (c), the amount of any assessment reduction given under s. ATCP 99.126 (4) (a).

The grain dealer shall make the disclosure, in the form prescribed under sub. (2), in a written document given to the producer or producer agent. The disclosure shall be clear and conspicuous, and shall be set apart from every other writing. The grain dealer shall make the disclosure to a producer or producer agent at all of the following times:

(a) The first time the grain dealer procures producer grain from that producer or producer agent.

(b) The first time the grain dealer procures producer grain from that producer or producer agent during each license year.

(c) The first time the grain dealer procures producer grain from that producer or producer agent following a change in circumstances that requires a different disclosure statement under sub. (2).

(2) FORM OF DISCLOSURE. A disclosure under sub. (1) shall consist of a verbatim copy of one of the following statements, as applicable:

Subchapter III — Grain Warehouse Keepers

ATCP 99.20 General requirements. A grain warehouse keeper shall comply with applicable requirements in ch. 126, Stats.

History: CR 02-113: cr. Register April 2003 No. 568, eff. 5-1-03.

ATCP 99.22 Grain warehouse keeper licensing. (1) GRAIN WAREHOUSE CAPACITY. (a) The capacity of a grain warehouse, for purposes of ch. 126, Stats., is the sum of the capacities of the grain bins comprising that grain warehouse. To calculate the capacity of each grain bin, divide the number of cubic feet in that bin by 1.244 cubic feet per bushel and then multiply the result by the appropriate pack factor under par. (b). If not all walls of the grain bin are vertical, calculate the capacity of each vertical foot of the bin and add those capacities to obtain the total capacity of the bin.

(b) The pack factor under par. (a) is shown in the following table, based on the shape of the grain bin as viewed from above and the bushels per foot calculated according to par. (c). If not all walls of the grain bin are vertical, determine the pack factor for each vertical foot of the grain bin based on the bushels per foot for that vertical foot and the horizontal cross-sectional shape of the grain bin at that level.
