Said vote to be at a regular meeting not less than one week after the proposed ordinance shall have been published in the official paper of the city; and provided, further, that no such bonds shall be issued, so that the amount thereof, together with all the other indebtedness of the city, less sinking funds on hand, shall exceed five per cent of the assessed valuation of such city at the assessment preceding the issue of such bonds. And provided, further, that all such bonds issued shall be payable in not less than five years and in not more than twenty years after their date, and shall bear interest not exceeding six per cent. per annum, payable semi-annually; provided further, that no bonds shall in any case be issued by said city for the advancement of manufactures, until the proposition for their issue shall have been submitted to the people of said city, and adopted by at least a two thirds vote of all the electors voting thereon.

SECTION 4. The mayor, city clerk and assessor shall constitute such board; provided, that the common council may, by ordinance, provide for an increase of the membership of said board by adding thereto not exceeding four members of the common council.

the description of the property or in the extension of the tax.

Second. When improvements on lots were considered in making the assessment roll, where the improvements did not exist at the time fixed by law for making the assessment.

Third. When the property is exempt by law from taxation.

Fourth. When a person has been assessed the same year for the same property in more than one ward or place.

SECTION 11. All special assessments shall be carried out on the tax roll in a separate column or columns opposite the lots or tracts upon which the same may be a lien, and the treasurer shall have the same authority with reference thereto as if the amount of such lien was a general tax.

## CHAPTER XVI.

### EMINENT DOMAIN.

Right of eminent domain.

SECTION 1. The city of Ashland shall have the power to condemn lands for streets, alleys, public grounds, parks, cemeteries, sites for school buildings and other public buildings, and lands to be used for purposes of drainage and water distribution and other public municipal purposes, not here enumerated, by the following proceedings:

Relating to laying out of streets.

SECTION 2. As to streets it shall be competent for any ten resident freeholders in any ward to petition the common council for the opening, widening, extension or change of any street in such ward, and if the land proposed to be taken for that purpose shall lie in two or more wards, then ten resident freeholders of each of the wards

shall be required to join in the petition. Such petition shall be addressed to the common council and shall designate in general terms the location, extent of the proposed laying out, widening, extension or change, but need not contain a particular description of the land proposed to be taken. For the purpose of such petition a person in possession of land under a contract of purchase and sale, or a bond for a deed, shall be deemed a freeholder.

**SECTION 3.** When such petition shall be presented to the common council it shall prior to the adoption of any resolution thereon be referred to the board of public works, and said board shall make a report to the common council, stating whether or not such petition is sufficiently signed, and if so, giving a particular description of each lot, parcel, or subdivision of land proposed to be taken, and a plat of the proposed street, widening, extension or change. Upon the coming in of such report the common council may, if the petition be reported sufficiently signed, by a vote of a majority of its members, adopt a resolution declaring that it is necessary to condemn the land designated in such petition and report, referring to them, for the purpose named in the petition, and direct the city attorney to commence and prosecute the proper proceedings for the condemnation and acquisition of said land.

Relating to  
condemnation  
of lots.

**SECTION 4.** As to alleys, a petition for the opening, widening, extension or change of an alley, may be made to the common council, by owner or owners of one-third or more of the land in the block in which the alley or proposed alley is situated, whether such owner or owners shall be residents of the city, or not. Land held under a land contract or bond for a deed, shall, for the purpose of such petition, be deemed to be owned by the person so holding it, and infants and others under guardianship, may petition by their guardians. Such petition shall, before any resolution upon it shall be adopted, be referred to the board of public works, who shall thereupon make and report to the common council, stating whether or not, the petition is sufficiently signed, and if so, giving a particular description of each lot, parcel or subdivision of land proposed to be taken, and a

to alleys.

plat of the proposed alley, as the same will be when laid out, widened, extended or changed. Upon the coming of such report, if it shall appear thereby, that the petition is signed by the owner or owners of one-third or more of the land in the block, the common council may adopt a resolution by a vote of the majority of its members, the same as in the case of a petition for the opening, widening, extension or change of a street, and like proceedings shall be had thereon. If it shall afterwards appear either in the case of a street or an alley, that such petition was not sufficiently signed, that fact shall not, in the absence of fraud, vitiate the petition, on the subsequent proceedings thereon.

May condemn  
land for public  
use.

SECTION 5. The common council may, without a petition, by a vote of four-fifths of its members, adopt a resolution declaring it to be necessary to condemn to the public use any land for the opening, widening, extension or changing of any street or alley, and directing the city attorney to commence and prosecute the proper proceedings therefor, and in case of the opening or extension of public grounds, or acquiring land as a site for a school building, (or other public building), or lands for purposes of drainage or water distribution, or the taking of lands for any public municipal purposes not herein enumerated, the common council may, without a petition therefor, and by a vote of a majority of its members, adopt a resolution declaring it to be necessary to condemn lands for such purposes, describing it in general terms, but not particularly describing the lands proposed to be taken, and directing the city attorney to commence and prosecute the proper proceedings therefor. Before any resolution provided for in this section shall be adopted it shall be referred to the board of the public works, who shall thereupon make a particular description of each lot, parcel or subdivision of land proposed to be taken, and a plat of the proposed street or alley, public ground, building site, drain, or water pipe, or land to be used for other public municipal purposes, and report the same to the common council.

City attorney  
to conduct pro-  
ceedings.

SECTION 6. Whenever, by any resolution adopted under any of the preceding sections of this chapter, it shall be declared necessary to con-

demn any lands, and the city attorney directed to commence and prosecute the proper proceedings therefor, it shall be the duty of the city attorney to prepare and present as soon as may be, a petition to the circuit court of the county in which the land proposed to be taken, or some of it, shall lie, for the condemnation of the land mentioned in the resolution for the purpose therein mentioned, and to prepare and file with said petition a sworn list of the names and residences, so far as they are known to him or can with reasonable diligence be ascertained by him, of persons owning or being interested in the lands proposed to be taken therein; and said petition shall have annexed thereto copies of the original petition, if any, the resolution of the common council, and the report of the board of public works as to the proposed condemnation. The city attorney shall thereupon prepare a notice substantially in the following form:

State of Wisconsin,

In the matter of (here insert the object of the proceed- ings) in the city of —.	}	In the circuit court of the county of —.	Form of notice.
--	---	--	-----------------

To whom it may concern:

Notice is hereby given that a petition for the condemnation of real estate has been presented to said court in the above entitled matter, by the city of —, by its city attorney. All persons interested in said matter may answer said petition at any time within twenty days after the service of this notice, exclusive of the day of service.

Dated —.

A. B., City Attorney.

Such notice shall be served upon the owners of land which is proposed to be condemned, and all persons interested therein, in all respects like a summons in a civil action, except that in cases of service by publication and mailing, or by publication alone, the publication shall be made in the official paper or papers of the city, and except that service within the state may be made by the chief of police of the city named in the notice or his subordinates, instead of the sheriff of the proper county, and the return or returns of such chief of police by himself or by his subordinates upon such notice or copies thereof, shall have the same force and effect as the return of a sheriff of

the proper county by himself or by his deputies. The filing of said petition shall be deemed the commencement of a suit. Within twenty days after service of such notice upon any party, owning or being interested in any real estate proposed to be condemned, such party may serve an answer to such petition upon the city attorney, and file the same as in cases of answers in civil actions. No notice of retainer or appearance without an answer shall be of any avail. When the time for answering shall have fully expired, the city attorney may call up said matter for hearing upon a notice of three days, excluding the day of service and excluding Sunday and legal holidays, and without notice to parties who have not answered, and such proceedings shall have precedence over all other matters not on trial; and the circuit court shall thereupon empanel a jury as in civil cases triable by jury, to determine whether or not it is necessary to take the land proposed to be condemned for public use. Such jury shall view the premises in question in the same manner as in civil actions, when a view of premises is ordered by the court, at the expense of the city, and shall return into court as in such cases; and if no answer shall have been served, the city attorney shall produce such evidence as he deems material as to the necessity for such condemnation, and if an answer or answers shall have been served, the issue upon the petition and such answer or answers shall be tried by the court and jury, the same as other issues of fact; and in either case the court shall thereupon instruct the jury as in other cases triable by jury. The jury shall thereupon retire to consider their verdict as in other cases of jury trials. The verdict shall be either:

Verdict of jury.

“ We, the jury, find that it is necessary to condemn the real estate sought to be condemned in this proceeding, for the public use;” or

“ We, the jury, find that it is not necessary to condemn the real estate sought to be condemned in this proceeding, for the public use.”

Upon the coming in of the verdict, judgment shall be entered condemning the land sought to be condemned to the public use for the purpose set forth in the petition, or dismissing the petition, as the verdict shall require.

If the jury shall disagree, a new jury shall be immediately impanelled, and like proceedings shall thereupon be had as before. If two juries shall disagree, the matter shall be continued to the next term of the court, when it may be again called up and like proceedings had thereon. If the three juries shall disagree, the proceedings shall be dismissed. No appeal from a judgment of condemnation shall be allowed, but the supreme court may review such judgment upon a writ of certiorari sued out within thirty days after the entry of judgment and not thereafter.

If jury disagree.

SECTION 7. The costs of the foregoing proceedings shall be paid by the city, and if the jury shall find that it is not necessary to condemn the lands in question to the public use, or if the proceeding shall be abandoned, any party who shall have put in an answer shall recover from the city his disbursements necessarily made or incurred, and taxable attorney's fees not to exceed twenty-five dollars.

Costs.

SECTION 8. If the city shall not, within one year after the entry of a judgment of condemnation, cause the benefits and damages by reason of such condemnation, to be assessed as provided in this chapter, and shall not have in the proper fund available for that purpose, a sum sufficient to pay the excess of damages over benefits, the condemnation proceedings shall be deemed to have been abandoned. At the expiration of one year after the entry of such judgment, the comptroller shall upon demand, furnish to the mayor or to any person who shall require it, a certificate showing whether or not there was, at the end of such year, in any fund of the city, available for that purpose, a sum sufficient to pay such excess of damages over benefits, and such certificate shall be prima facie evidence of the facts therein certified. If it shall appear that there is in any fund of said city, a sufficient sum available for that purpose at the expiration of such year or at any time prior thereto, and after such assessments of benefits and damages shall have been made and confirmed, the city may take possession of the land condemned, an order on the city treasurer shall be issued, as in other cases, in favor of the person in whose favor any excess of damages over benefits shall have been assessed, upon the

certificate of the city attorney that such is entitled to receive the same. If the attorney shall refuse to give any such certificate, the party or parties claiming the same may apply to the circuit court at the foot of the judgment of condemnation for a decision awarding such amount to him or them, and upon such application and eight days' notice thereof to the city attorney, the court shall proceed in a summary manner to inquire as to the rights of the parties in the premises, and may make up an issue upon such application and submit the same to a jury in a proper case, and shall make and file a decision, in writing, as to who is entitled to draw the amount in controversy, and in filing a certified copy of such decision, with the city clerk, an order shall be issued in accordance with such decision. If any two or more parties shall claim the same sum, or if the city attorney shall be in doubt as to whom such sum should be paid, he may, in like manner, apply to the court at the foot of the judgment of condemnation for a decision as to the rights of the parties in respect to such sum, and upon such application and eight days' notice thereof, to the parties interested, the court shall proceed in like manner to ascertain and decide who is entitled to said sum or any part thereof, and the city treasurer shall in like manner pay the same out, upon, and according to such decision. An appeal from any such decision may be taken to the supreme court by any party interested therein, including the city, within thirty days after the filing of the same, and such sum shall not be paid while such appeal is pending, nor until the matter shall be finally determined. Such appeal shall be taken upon like notice and undertaking, as an appeal from an order in a civil action, and like proceedings shall be had thereon in the supreme court and the circuit court.

Relating to  
claims on lots.

SECTION 9. If any person, not the owner of the land condemned, shall have a lien thereon, or a lease hold or other interest therein, such person shall receive a portion of the excess of damages over benefits awarded by reason of such condemnation in proportion to the lien or interest he may have had in the land condemned, ascertained upon the principles of equity; and if the

parties cannot agree the matter may be decided by the court at the foot of the judgment of condemnation upon the application of a party or the city attorney, as provided in section 8. The term "excess of damages over benefits," shall, when used in this act, be construed to include any sum which shall be assessed as damages and not offset by an assessment of benefits, as well as the balance in favor of a party in whose favor damages have been assessed and against whom benefits have been assessed.

SECTION 10. When any land shall be condemned under this chapter for public grounds, parks, cemeteries, or sites for school or other buildings, the city shall take a fee simple title to the land so condemned. In all other cases the fee shall remain in the owner, his heirs and assigns, and the city shall take by the condemnation only such an interest in the land as shall be necessary and convenient for the uses and purposes for which it is condemned.

Public parks,  
etc.

SECTION 11. Condemnation proceedings under this chapter shall in no case be a bar to subsequent proceedings for the condemnation of the same premises or any part thereof for the same or a different purpose; and the same land may be condemned more than once for different purposes, each consistent with the other.

Condemnation  
proceedings.

SECTION 12. When a street or alley shall be changed by proceedings under this chapter, so much of the original street or alley as shall be left out of it as changed, shall be deemed vacated without any other proceeding, and the fact of such vacation shall be taken into account in assessing benefits and damages by reason of the condemnation proceedings.

When part of  
street vacated.

SECTION 13. It shall be the duty of the common council, within three months after any judgment of condemnation shall have been entered, to adopt a resolution directing the board of public works to make an assessment of damages by reason of such condemnation, and in the case of condemnation for opening, widening extending or changing streets and alleys, and for opening public grounds, the common council may also direct the board of public works to make an assessment of benefits. Such resolution shall be certified by the city clerk to the board of public

benefits.

works immediately after its adoption and approval. When such assessment shall have been made and reported to the common council, that body may, by resolution, confirm the same, or refer the matter back to the board of public works for a new assessment, or may, by resolution, abandon the condemnation proceeding. If the common council shall for more than three months after the entry of a judgment of condemnation, neglect to order an assessment of damages, or benefits and damages, as the case may be, the condemnation proceeding shall be deemed to have been abandoned, and if the common council shall not within one year after the entry of judgment of condemnation confirm an assessment of damages, or of benefits and damages, and make provision for paying the excess of damages over benefits, the condemnation proceedings shall be deemed to have been abandoned.

Manner of  
assessing  
damages.

SECTION 14. When the city clerk shall have certified to the board of public works a resolution of the common council requiring an assessment of damages or benefits and damages to be made under this chapter, the said board shall immediately proceed to assess the damages, by reason of the condemnation mentioned in such resolution as follows: Opposite each description of the land condemned the board shall set down in separate columns the damages sustained by the owner by reason of the taking of the land, the damages, if any, to the adjoining property of the same owner, the total damages, and in cases wherein benefits may be assessed, the benefits, which will in their judgment accrue to lands in the vicinity of the condemned lands, by reason of the condemnation in question, the excess of damages over benefits, and the excess of benefits over damages, each such sum being set opposite the proper description. No benefits shall be assessed against any lot, parcel or subdivision, every part of which shall be one thousand feet or more distant from the nearest land condemned, and no benefits exceeding five per cent. of the assessed value thereof according to the last assessment roll, shall be assessed against any lot, parcel or subdivision by reason of any one condemnation proceeding, and no benefit exceeding three per cent. of the assessed value thereof according to

said assessment roll shall be assessed against any lot, parcel or subdivision, the whole of which is more than five hundred feet distant from the nearest land condemned by reason of any one condemnation. In assessing such damage or damages and benefits the board of public works shall proceed as in case of benefits and damages on account of public improvements, giving like notices and like opportunities for correction, and reporting the assessment to the common council in like manner.

SECTION 15. When such assessment shall be confirmed by the common council, the city clerk shall transmit the same to the comptroller, who shall thereupon report to the city clerk a list of special taxes to be entered in the tax roll on account thereof, which list shall have set opposite each description against which benefits not offset by damages or an excess of benefits over damages shall have been assessed, the amount of such benefits or excess, which amount shall be levied upon the land described as a special tax and shall be collected the same as other taxes.

Comptroller to report a list of special taxes.

SECTION 16. The cost of each condemnation shall be paid out of the general city fund, except the cost of condemnations for purposes as to which there are special funds, such as the water fund or sewerage fund, if any, shall be paid out of such fund, and all special taxes levied and collected on account of any condemnation shall be credited to the fund out of which the cost of the condemnation is paid.

Cost of condemnation, how paid.

SECTION 17. The city of Ashland may, at its option, condemn lands for any of the purposes mentioned in the first section of this chapter either under the provisions of section 927 and sections 895 to 904, inclusive, of the revised statutes of 1878, and the acts amendatory thereof, or under the foregoing provisions of this chapter.

May condemn lands under this act.

SECTION 18. Any party aggrieved by any assessment of benefits or damages, or both, may appeal to the circuit court therefrom, within the time, in the manner, and upon the security prescribed in appeals, from assessments of benefits and damages on account of public improvements, and like proceedings shall be had thereon. Such appeal shall not affect any special tax levied on account of an excess of benefits over damages, but the

Party aggrieved may appeal to circuit court.

amount recovered by the appellant, properly applicable in reduction of such assessment and the costs, if any, shall be paid out of the proper fund; also the amount recovered by way of increasing any damages assessed, or for damages when none have been assessed, with the costs, if any.

## CHAPTER XVII.

### CITY IMPROVEMENTS.

Grading streets.

**SECTION 1.** The city council shall have authority to establish the grade of all the streets and alleys of the city, and to change and re-establish the same as it may deem expedient; provided, that wherever it shall change or alter the permanently established grade of any street, any person sustaining damages to his property abutting on such street by such change or alteration of grade, shall have a right to recover such damages in the manner set forth in this chapter.

Grades recorded.

**SECTION 2.** The grade of all streets shall be established and described, and the adoption of such grades and all alteration thereof, shall be recorded by the city clerk. No street shall be worked until the grade thereof is established and recorded in the manner herein set forth.

Streets and sidewalks.

**SECTION 3.** The streets shall be divided into a carriage way and a sidewalk on each side thereof; the sidewalk shall be for the use of persons on foot, and no person shall be allowed to encumber the same with boxes or other material; but such sidewalk shall be kept clear for the uses specified herein.

Streets and alleys may be opened and graded.

**SECTION 4.** The city may cause streets and alleys to be opened, leveled, graded, re-graded, graveled, re-graveled, macadamized, paved and re-paved with wood, stone or other materials, or improved in any other manner; and may cause such streets and alleys to be swept and cleaned; provided, that no street shall be graded, graveled, macadamized or paved, where the expense would exceed five hundred dollars, except upon the vote of two-thirds of all the members of the council.

Part of improvements of streets, etc., chargeable to lots.

**SECTION 5.** In the first instance the grading, graveled, paving, planking, macadamizing or improvement of any street or alley, and the con-

struction of cross-walks where there is no intersection of streets, shall be chargeable to the lots or parcels of land fronting or abutting upon such street or alley, in proportion to the benefits accruing to such lots or parcels of real estate by reason of such improvement. Provided, however, that the total amount so assessed to the abutting real estate as benefits shall not exceed the entire cost of such improvement. And provided, further, that in no case shall the amount so assessed to any parcel of abutting real estate exceed the benefit accruing to such real estate by such improvement, except in case of sidewalks.

**SECTION 6.** The expense of all cross-walks at the intersection of streets or alleys, and across public grounds, shall be paid by the city at large. The expense of maintenance, relaying, keeping in repair and cleaning of streets, in all cases where the streets shall have been constructed to the established grade, and graveled, planked, macadamized, or paved, as required by the common council, shall be paid out of the general fund of the city.

**SECTION 7.** Before the council shall change or alter any established grade, or shall order any work to be done on any street, in whole or in part, at the expense of the abutting real estate, it shall order the board of public works to view the premises and determine the damages and benefits which will accrue to each parcel of abutting real estate, by such change or alteration of grade; the entire cost of the contemplated work or improvement upon the street, the benefits and damages that will accrue to the several parcels of abutting real estate by such work or improvement, and the amount that should be assessed under the provisions of this chapter to each parcel of such abutting real estate, as benefits accruing thereto by such contemplated work or improvement.

**SECTION 8.** Said board shall make and file in their office a report showing their determination on the questions required to be considered by them under the provisions of the preceding section.

**SECTION 9.** Notice shall be given by the board of public works, by publication in the official newspaper of the city, at least once in each week for two successive weeks, that such report is open for review at their office and will be so continued for a space of twenty days after the date of such

notice; and that on a day named therein, which shall not be more than three days after the expiration of said twenty days, said board will be in session to hear all objections that may be made to such report. No irregularity in the form of such report, nor of said notice, shall affect the validity of the same if it fairly contains the information required to be conveyed thereby. At the time specified for hearing objections to said report, said board shall hear all parties interested who may appear for that purpose, shall reduce to writing all objections that may be made, and all evidence that may be offered to sustain the same, and shall have power to review, modify and correct said report as they may deem just; and thereupon a complete and final report shall be made and filed by said board, with the city clerk, together with all objections and evidence taken before them to sustain the same, together with proof of publication of said notice, but no irregularity in the form of said report or manner of conducting the proceedings by said board, shall affect the legality of said report.

Action by the council on report of the board.

SECTION 10. The city clerk, at the next regular meeting of the council after the filing of said report, shall place the same before the council for its consideration, and said council may confirm or correct the same or refer the report back to the board for further consideration.

Council to determine amounts to be paid.

SECTION 11. Subject to the limitations hereinbefore mentioned, the common council may determine the amount to be paid by the abutting real estate as benefits on account of the improvement of a street, and the amount that shall be paid by the city at large.

In case of final determination.

SECTION 12. When a final determination shall have been reached by the council, and the report of the board of public works as made by them, or as changed or modified by the common council, shall have been confirmed, the city clerk shall publish notice in the official paper of the city once in each week for two successive weeks, that a final determination has been made as to the damages that will accrue to the real estate abutting on the street, in case of the change of an established grade; or the benefits to be assessed to the abutting real estate in the case of a proposed improvement.

**SECTION 13.** If the owner of any parcel of land abutting on the street mentioned in said notice, feels himself aggrieved by reason of the determination made by the common council, he may within twenty days after the date of such determination appeal therefrom to the circuit court; and such appeal shall be taken, tried and determined, and bonds for costs shall be given and costs awarded in like manner as in case of appeals from the disallowance of claims under this act; provided, that in case any contract shall have been made for making the improvements, said appeal shall not affect said contract; but a certificate against the lot in question for the amount of benefits assessed to such lot shall be issued, notwithstanding such appeal; and in case the appellant shall succeed, the difference between the amount charged in the certificate so issued, and the amount adjudged to be paid as benefits accruing to the parcel of real estate described in such certificate, shall be paid by the city at large.

Owner of lot may appeal to the circuit court.

**SECTION 14.** The appeal given by the last section from the report of the board of public works as confirmed by the common council, shall be the only remedy of the owner of any parcel of land, or any person interested therein, affected by said improvement; for the redress of any grievance he may have by reason of the making of such improvements, or by reason of the change of any established grade covered by said report.

Only remedy of the owner of certain lots.

**SECTION 15.** When any of the works before mentioned shall have been ordered to be done and the plans for the same containing a description of the work, the materials to be used and such other matters as will give an intelligent idea of the work required, shall have been filed with the city clerk where the same can be inspected by persons desiring to bid on such work, the board of public works may advertise in the official paper of the city for bids for doing such work for such length of time as the board may think the interests of the city demand. The board shall prepare or cause to be prepared a printed form for the contract with sureties required, and furnish the same to all persons desiring to bid, and shall not consider any bid unless accompanied by a contract with sureties as prescribed by the forms so furnished, completed with the exception

Said certificate shall be in such form as the board may prescribe. The amount chargeable to the city shall be paid as the contract for the work may provide.

SECTION 18. After the expiration of nine months from the date of said certificate, the same shall be conclusive evidence of the legality of all proceedings up to and inclusive of the issue thereof, and may be transferred by endorsement; provided, however, that this shall not affect any appeal from the report of the board of public works as confirmed by the common council. If said certificates are not paid before the making out of the next tax roll, the same may be filed with the city clerk, and when so filed the comptroller's statement of special assessments to be placed in the next tax roll, shall include an amount sufficient to pay said certificates, with interest thereon at the legal rate, from the date of such certificates to the time when the city treasurer is required to make return of delinquent taxes; and thereafter the same proceedings shall be had as in case of other taxes, except that all moneys collected by the city treasurer and all moneys collected by the county treasurer, or county clerk, on account of such taxes, shall be delivered or paid to the owner of the same on demand, upon surrender of such certificate.

When a contract is let for doing any work specified, herein chargeable to the abutting real estate, it may provide that the amounts so chargeable may be paid with certificates against the lots or in improvement bonds, or that payment may be partly made in certificates and partly in cash or improvement bonds or both.

SECTION 20. As soon as the amount chargeable

SECTION 21. After the expiration of said thirty days the council may issue improvement bonds covering all of the assessments, except such as the owners have filed notices of election to pay as stated in the preceding section. Standard sidewalks.

SECTION 2. The common council may, from time to time, by resolution, establish the width, determine the material, and prescribe the method of construction of standard sidewalks, and the standard so fixed may be different for different streets.

SECTION 3. Whenever a street shall be improved for the first time, or the grade thereof

changed and the street improved so as to conform to the new grade, the grading of the sidewalk shall be considered a part of the improvement, shall be let by contract with the other work of improving such street, but the construction of the sidewalk shall be done by the owners of the abutting lots or parcels of land, or at their expense as hereinafter provided.

SECTION 4. It shall be the duty of the owner of every lot or parcel of land abutting upon an improved street, or a street ordered to be improved, whereon the sidewalk has been graded for ten days or more, to lay at his own expense a standard sidewalk in front of the same, or one as good as the standard, to be approved by the board of public works.

SECTION 5. Whenever the owner of any lot or any parcel of land so abutting upon any improved street whereon the space for the sidewalk shall have been graded for ten days or more, shall neglect to lay a standard sidewalk, or one as good as the standard fixed by the common council, approved by the board of public works, it shall be the duty of the board of public works to cause a standard sidewalk to be laid in front of such lot or parcel of land. ## CHAPTER XIX.

### SEWERS.

Sewers.

SECTION 1. Said city shall have full powers to construct systems of sewerage, but shall not enter upon such construction until it shall have been divided into sewerage districts, and a plan shall have been adopted in the manner hereinafter specified; provided, that it shall not be necessary before any part of the system is constructed that the plan shall be determined upon in all its details, but it shall be settled so far as relates to that portion of the system upon which the construction is commenced.

Plans of sewerage.

SECTION 2. The board of public works shall cause diagrams of the plans of sewerage for each district to be prepared showing the lots and parcels of land, the main sewers, minor sewers, man holes, catch basins, and all other matters pertaining to the system.

Notice.

SECTION 3. On the completion of such diagram, notice shall be given in the official paper of the city, substantially in the following form:

Notice is hereby given that a plan for sewerage for the district bounded as follows: — — has been prepared and is now opened for inspection at the office of the city clerk. All persons owning or interested in real estate in said district are entitled to examine the same at any time within thirty days after the first publication of this no-

SECTION 4. On the day specified for said hearing before the board, they shall take up and consider all objections made to the plan as proposed, and shall take down in writing any testimony that may be offered to sustain said objections. When the board shall have concluded said hearing, they shall report the proposed plan, with all objections overruled, and the evidence taken thereon, to the common council. The common council shall then examine the same, and may approve the plan as proposed, or change it in such manner as they may think proper, and approve as changed or modified by them, or may reject the plan and direct the board to propose a new plan, in which case the same proceedings shall be had as before.

Common council to examine plans.

SECTION 5. When the plan for any sewerage district is finally determined, complete diagrams of the same shall be prepared in duplicate, and certified to be correct by the board of public works; one of which diagrams shall be filed in the office of the city clerk, and one in the office of the register of deeds in the county within which the city is located.

SECTION 6. On or before the first Monday of March in each year, the board shall present to the council a report of the sewers necessary or advisable to be constructed during the ensuing year. The council shall, as soon as practicable, consider said report; they may approve the same or make such additions or changes as to them may seem best, and adopt the report as changed or modified. No sewer shall be constructed during the ensuing year, except such as shall have

been determined upon in the manner aforesaid, except by a vote of three-fourths of all the members of the common council. The board shall proceed to construct the sewers determined upon, when, and as ordered to do so by the common council.

Bids for the construction of sewers.

SECTION 7. After the common council shall have ordered the construction of any sewer, the board of public works shall advertise for and receive bids to do the work so ordered, having first procured to be carefully prepared and put on file in the office of the board for the examination and guidance of bidders, plans and specifications describing the particular work to be done and the kinds and qualities of materials to be used as directed by the common council, and may let the contract to the lowest responsible and reliable bidder. Provided, however, that the board shall have the right to reject all bids and re-advertise for proposals if they believe none of the bidders are responsible, or if they believe any agreement has been entered into between bidders to prevent competition; and, provided, further, that the contract shall not be binding until the same shall have been approved by the common council and countersigned by the comptroller.

Contractor, how paid.

SECTION 8. Such contract may, at the option of the city, except as herein otherwise provided, require the contractor to receive as payment for so much of the work as has been assessed against the lots opposite to the front of which any such sewer shall extend certificates against such lots respectively or improvement bonds; and the residue of such contract shall be paid out of the proceeds of the general sewerage tax, to be levied on real estate and personal property within the sewerage districts by the common council on the recommendation of the board of public works.

Board to make an assessment.

SECTION 9. After any contract for work under this act to be paid for in whole or in part by such assessment shall have been entered into, the board of public works shall make or cause to be made an assessment against all lots, parts of lots and parcels of land, fronting or abutting on the work so contracted to be done on each side of the same for its whole length, and which have not been before so assessed for sewerage purposes, at the rate of one dollar per lineal foot of the

whole frontage of each lot, part of lot or lots, or parcel of land fronting or abutting on either side of said sewer, except corner lots, which shall be assessed therefor as follows: Corner lots not subdivided in ownership, and subdivisions of corner lots constituting the actual corner of corner lots subdivided in ownership, shall be entitled to a deduction in making sub-assessment, of one-third from the aggregate of the street lines of such corner lot or corner subdivisions thereof on all the streets in front thereof; such deduction to be made in the assessment of the longest street line of such corner lots or corner subdivisions thereof, or in case of equal street lines thereof, in the assessment for the second sewer to which they are liable; provided, however, that when the actual cost of any sewer shall be less than two dollars per lineal foot, then and in that case, the assessment shall be for the actual cost of such sewer per lineal foot, one-half thereof to be chargeable against the property fronting or abutting thereon on each side thereof. Whenever any lot which, as originally platted, fronts or abuts on any sewer is subdivided, and the subdivisions thereof are owned by different persons, no subdivisions of such lots not fronting or abutting on such sewer, and not owned by the same person who owns the subdivision fronting or abutting on such sewer, shall be assessed for the cost of such sewer; but no corner lot shall be assessed for the cost of any sewer in an alley when such lot has already been assessed for a sewer on two sides thereof.

SECTION 10. Whenever any lot or parcel of land shall be subdivided by sale or any other contract, after the assessments of benefits accruing to it by a system of sewerage, shall have been made, and before such system shall have been fully carried out and extended to such lots assessed, and the assessment on such work paid, any party interested may give notice to the board of such subdivision, and in such case, or when the said board shall in any other way become cognizant of the fact of such subdivision, they may make an equitable apportionment of the said benefit tax against any lot between the different parcels of it; but if by neglect of the owners of the lot so divided, no such apportionment shall be

made, then the entire lots shall be liable for the entire tax.

Costs paid partly out of fund of sewerage district.

**SECTION 11.** The cost of all sewers in street and alley crossings, and of all sewers in excess of two dollars per lineal foot, chargeable to lots and lands as provided in section ten of this chapter, of all catch basins for receiving the water from the gutters, and of the overflow pipes connecting them with the sewers, of all temporary catch basins, and of the repairing and cleaning of sewers, and all expenditures for temporary work, necessary to carry on the system of sewerage herein provided, and all cost for constructing sewers not provided for by special assessment shall be paid out of the fund of the proper sewerage district; and all cleaning and repairing of sewers and catch basins, and all temporary work necessary to be done as above stated, shall be done by the authority of the board of public works as may be necessary.

Money required for sewerage purposes.

**SECTION 12.** The board of public works shall report to the common council on or before the first day of November of each year as accurately as may be, the amount of money required for sewerage purposes for that year in each district, in addition to the special assessments made; and the common council are hereby authorized to direct the levy and collection of a tax for sewerage purposes in each district for such amount as may be necessary, not, however, to exceed in any one year the sum of two and one-half mills on the dollar on all property, real and personal, subject to taxation in any such sewerage district; which tax, so levied, shall, when collected, be placed in the fund of the sewerage district in which the same has been collected; and the city treasurer is hereby directed and required to keep a separate and distinct account of each sewerage district.

Contractor paid with certificates.

**SECTION 13.** Any person to whom a contract is awarded for the construction of a sewer may receive in payment certificates against the lots, parts of lots, or parcels of land, so as heretofore directed to be assessed, so far as the same will go, in liquidation of the amount of such contract, and shall be entitled to receive city orders for the balance due, payable only out of the fund of the proper district; and it shall be the duty of the board of public works, after the completion of any contract, and acceptance of the work, to issue

such certificates on the request of the person entitled to receive them; and where any sum is found to be due a contractor over and above the amount of certificates so to be issued and received in part payment, to certify the same to the common council, which may direct an order to be drawn on the proper fund for the payment of the same. All certificates of special assessments for building sewers, shall be signed by the mayor and clerk of said city, and countersigned by the comptroller, and delivered to the persons entitled to receive the same.

SECTION 14. All contracts entered into by the board of public works under this chapter shall be with sureties approved as to the form and execution by the city attorney, and, before taking effect, shall be signed by the mayor and city clerk and countersigned by the comptroller. Sureties.

SECTION 15. In all cases the work shall be subject to the superintendence and direction of the board of public works; and no contractor shall be entitled to recover compensation for any work executed by him in any form of action, unless such work shall have been approved by the said board; provided, that the said board may from time to time, as the work progresses, at their discretion, grant to any contractor for a sewer an estimate of the amount and proportionate value of the work already done, withholding in all cases twenty-five per cent. of said estimate, which shall entitle the holder to receive the amount thereof, less such twenty-five per cent. from the proper fund. Board to have supervision of the work.

SECTION 16. Whenever the common council shall order the paving or repairing of any street in the city in which water, gas mains and sewers, or either of them, shall have been previously laid and constructed, they may also, by resolution, require the board of public works to cause water and gas service pipes and house drains to be first laid in such a street at the cost of the property fronting on such street, from the main sewer, water and gas mains in such street to the curb line on either side of the street at intervals not less than twenty feet, along the whole length of such paved street, except at street and alley crossings; and the board of public works shall thereupon give notice to the owners or occupants Water and gas pipes.

of the property adjoining such paved street, by publication thereof for six days in the official paper, requiring them to do such work opposite their respective lots according to a plan and specification to be before prepared and on file in the office of said board showing the location and size, and the kind and quality of material of such lateral sewers or drains, and water and gas service pipes; and if such owners or occupants shall refuse or neglect to do the same, before the paving or preparing of said street so ordered, and within ten days after the publication of such notice, the said board may procure the same to be done, and charge and assess the expense thereof to the lots or parts of lots fronting upon such work in the manner provided in and by section 5, of chapter 18, of this act; and the same shall be levied and collected as other special assessments are levied and collected in said city; provided, that no street shall be paved or repaved by order of the common council unless the water and gas mains and service pipes, and necessary sewers and their connections shall, as required by the common council, be first laid and constructed in that portion of such street so to be paved or repaved.

Drains and  
sewers.

SECTION 17. It shall be the duty of said board to see that proper drains and sewers are constructed from every lot in said city, which in their judgment requires it; and that such private drains or sewers are made to communicate with the public sewers in a proper manner; and they shall have power to require such number of private drains and sewers to be constructed as they may deem expedient.

Cost of private  
sewers.

SECTION 18. The said board shall describe the location, arrangement, form, materials and construction of every drain and sewer for every lot in the city emptying into the public sewers, and shall determine the manner and plan of the connection of the same; the work of construction shall be in all cases subject to the superintendence and control of said board, and shall be executed strictly in compliance with their orders; but the cost of such private sewers shall not be included in the estimate of the cost of the general plan of sewerage in any district, and shall be charged upon the lot or lots for the benefit of which such private sewer shall be constructed.

**SECTION 19.** The said board shall have at their office, ready for the examination of the parties interested, the specifications of any private drains or sewers so ordered to be constructed, and they shall give to the lot owners six days' notice in the official papers to construct the same, designating therein a reasonable time within which the work shall be completed; and in case any lot owner neglects to do the work required of him to be done, within the time specified in said notice, they shall advertise for proposals and let the same by contract; and at the completion of the contract, shall give to the contractor a certificate or certificates against such lot or lots which shall be proceeded with and shall have the like effect as other certificates given for work chargeable to lots.

Specifications  
of private  
sewers.

**SECTION 20.** Any person who has taken such contract from said board to construct a private drain or sewer from any lot, shall be authorized to enter upon such lot and construct thereon such drain or sewer, and shall have free ingress and egress upon the same with men for that purpose, and to deposit all the necessary building materials, and generally to do and perform all things necessary to a complete execution of the work.

Contractor to  
have certain  
rights.

**SECTION 21.** No private drain shall be connected with any public sewer without the said board first issuing their permit for such connection; and there shall be paid for such permit into the general fund of the sewerage district, by the owner of any lot from which a private drain is led into a public sewer, an amount to be fixed by said board, proportioned to the size of such private drain, but not less than two and one-half, and not more than five dollars for every drain from any lot or parcel of a lot; and in case such amount is not paid it shall be a lien upon such lot, and collected as the other special assessments, and shall be collected as other taxes on real estate are collected; provided, that no charge shall be made for the permit herein referred to, when the connection for which it is used is made before the sewer is finished in front of the premises to be connected.

the board of public works, and any person who shall do so, or shall wilfully or maliciously obstruct, damage or injure any public or private sewer or drain in said city, or wilfully injure any of the materials employed or used in said city for the purposes of sewerage, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be fined not more than five thousand dollars, or imprisonment in the county jail not to exceed three months.

Sewers may be laid in any streets and alleys.

**SECTION 23.** Any contractor or other person acting under the direction of the board of public works, may lay sewers in and through any alleys and streets of said city and through any break-water into any lake, and also in any highways of the county, whether within the limits of said city or not; provided, that it shall be the duty of such contractor to repair such streets, alleys, break-waters and highways, and to restore the same to the former condition upon the completion of such sewers.

Diagram conclusive evidence of regularity.

**SECTION 24.** Either of the duplicate diagrams filed as the final determination for a plan of sewerage for any district after the expiration of nine months from the date of such filing shall be conclusive proof of the regularity of such proceedings to establish the plan of sewerage shown on such diagram, and the regularity and legality of the proceedings to establish such plan of sewerage shall not thereafter be called in question in any court.

Require a three-fourths vote to change plans.

**SECTION 25.** When a plan of sewerage has been finally determined upon, it shall not be changed except by a vote of three-fourths of all the members of the common council, in favor of the same. Such change shall be by ordinance passed at a regular meeting after the same shall have been published, at least once in each week for two successive weeks in the official paper of the city.

Duplicate diagram to be filed.

**SECTION 26.** When such change shall have been determined upon; duplicate diagrams shall be prepared, certified and filed as before, showing the plan of sewerage as changed, and after nine months from the date of such filing, the said duplicate shall be conclusive proof of the regularity and legality of the proceedings to establish such plan; any change rendering useless any existing

sewer, the expense of change shall be paid by the general fund.

SECTION 27. Whenever a contract shall have been let for the construction of any sewer, and the amounts have been determined that are chargeable to the lots or parcels of land abutting on the street or alley through which said sewer is to be constructed, if the common council deems it for the best interest of the property owners affected by the special assessment for the construction of said sewer, may cause a notice to be published in the official paper of the city once in each week for six successive weeks, substantially in the following form:

SECTION 2. The common council shall have power to determine, by ordinance or resolution, the location of harbors or bridges, and the manner of their construction, and by ordinance to adopt, fix and change from time to time, dock lines along the water fronts within the bounda-

The mode of proceeding shall be similar to proceedings as in the case of building sidewalks.

SECTION 3. Whenever the common council shall, by resolution, declare it to be necessary to construct or repair any harbor, dock, wharf, break-water, channel or bridge, it shall be the duty of the board of public works to prepare an estimate of the cost of such work and file it with the city clerk, who shall submit the same to the common council; thereupon the common council may, by resolution, direct the work to be done. It shall be then the duty of the board of public works to advertise for bids for doing the work and furnishing the material, the same as in the case of work to be done and materials furnished in the construction of streets, and they may receive bids and award contracts to the lowest bidder or bidders, in the same manner as in the construction of streets. The work contracted to be done, when finished, shall be accepted by the board of public works before final payment shall be made to the contractor or contractors. The contract may provide for the payment of not more than eighty per cent. of the cost of the work, upon estimate of the city engineer or city surveyor, as the work proceeds, and at least twenty per cent. of the cost of the work shall be retained until the work shall have been accepted by the board of public works.

Estimate of cost of constructing harbors and bridges to be filed.

SECTION 4. Where harbors or bridges, or either, shall be or shall have been constructed, or where any contract for the construction, repair, or maintenance of such harbors or bridges, or either, shall have been made, it shall be the duty of the city treasurer to open and keep a separate account of the receipts and disbursements on account of bridges, and another, if need be, on account of harbors, docks, wharfs, and the like, to be called, respectively, "bridge account," and "harbor account;" and where such bridges or harbors, or

either, are required, it shall be the duty of the common council to make annual estimates of the money necessary to be raised for such work, and maintenance and repair of the same, and to provide, by taxation or loan, the necessary funds for the same, as in case of other public works. The bridge account and the harbor account shall each be one of the accounts of the general fund, but moneys raised on account of either shall not be applied, nor be deemed applicable to the payment of any other expense or expenses, nor shall the same, or any portion thereof, be credited to any other account, unless a resolution for that purpose shall be passed by the common council, by a majority of two-thirds of all the members thereof, and approved by the comptroller.

Relating to special assessment on account of bridges.

**SECTION 5.** No special assessments for benefits shall be made on account of any bridge, harbor, dock, or wharf, or any such like improvements, except as herein otherwise provided, unless the owners of property benefited thereby shall consent, in advance, to the levying of such assessments to the amount thereof as provided in the next section.

When special tax may be levied.

**SECTION 6.** Whenever the owners of land benefited by any proposed bridge, harbor, dock, or wharf, shall, by the petition to the common council, pray for the construction thereof and shall, in and by the terms of such petition consent, their land, describing it, shall be assessed for benefits by reason of such improvements (the percentage on the assessed valuation of such land, to be so assessed, being designated in said petition), if the improvement prayed for be made and accepted within the time designated in such petition, it shall then be the duty of the city comptroller to prepare a statement of assessments made pursuant to the consent obtained in such petition, and report the same to the city clerk, and the city clerk shall thereupon levy said assessments as special taxes upon the lands designated in said statement, in a separate column in the city tax roll for the current year; and such taxes shall be collected and paid into the city treasury and credited to the account of the proper fund the same as other taxes.

When bridge may be repaired.

**SECTION 7.** In cases where it should be urgently necessary, for the preservation of property, to make any repairs upon any bridge, dock or wharf,

not to exceed two hundred dollars in expense, it shall be the duty of the board of public works, with the consent of the mayor and comptroller, to make such repairs without the intervention of a contract, and report the same as soon as may be to the common council, whereupon it shall be the duty of the common council to make provision, by taxation or loan or by appropriation of funds available for that purpose, to meet the expense of such repairs.

**SECTION 8.** Whenever it shall be necessary, for the construction or maintenance of the harbor, that any lake, pond, river or creek shall be dredged or otherwise deepened, the board of public works, by direction of the common council, may let contracts for such dredging to the lowest bidder, the same as in case of other public works, or the city may purchase and maintain for its use the necessary dredges and other apparatus for such work, and may provide funds for the purchase, use and maintenance of such dredges and other apparatus by appropriations made from the general fund, to be charged to the harbor account; the money for that purpose to be raised by taxation or loan, as other moneys in the general fund are raised, and the board of public works, under the direction of the common council, shall have the control and management of such dredges and other apparatus, and shall employ such men and purchase such supplies as may be necessary in the management thereof, and the men so employed shall be paid, and the supplies so procured shall be paid for, upon certificates of the board of public works, countersigned by the comptroller, out of the general fund and charged to the harbor account.

Board may let contracts for dredging.

**SECTION 9.** In case it shall be necessary to protect any land from being washed away by any lake, river or other water, the common council may, by ordinance, provide for the protection of such land by a wall or dock breakwater, to be constructed as the common council may prescribe; and the council may in such case direct the board of public works to make an assessment of the benefits accruing to the land so protected, and other lands benefited thereby. No lot, subdivision or parcel of land, every part of which is more than one thousand feet distant from every

Such assessment shall be made, corrected, reported to the common council and confirmed by the common council the same as assessments for other public works, and certificates or improvement bonds may be issued thereon in the same manner and with like effect as in the case of other public works. An appeal to the circuit court may be taken from any such assessment upon like notice and security within the same time and with like effect as in the case of other public works, and like proceedings shall be had thereon.
